

Flak Vest

- Military flak jacket with large protection areas and additional neck and shoulder protection
- Large overlapping side protection
- Additional groin protection available on request
- Large utility pocket on front panel of vest
- The vest is provided with a body belt that allows the rear panel to be pulled firmly towards the body
- Flexible and highly comfortable anti-fragmentation armour inserts. Other types of protection available (see below)
- Outer cover from robust polycotton camouflage fabric.
- Heavy-duty long-life protection: The protective panels are sealed in a waterproof TPU envelope and further encased into a coated polyamide cover (MEHLER "bag-in-bag" double security system for protection against humidity, UV-light and mechanical stress).

Colours and Cover Versions

- Standard sizes: M / L / XL / XXL
- Various camouflage options available

Protection levels available*

- NATO STANAG 2920: 450 m/s or higher
- British HOSDB: HG1A
- American NIJ: 3A
- German PFA: SK-1

**The above mentioned protection levels are only those recommended for this vest style. Other protection levels are available. A survey of our most popular armour solutions can be obtained on request.*
