Holmes HEPA HAP242-NUC air purifier :

This portable air purifier from Holmes is primarily filter-based and has 3 speeds. It's designed for floor or tabletop use in a med room.

- PERMANENT HEPA type filter removes up to 99% of airborne particles
- Air purifier with space saving tower design for rooms up to 170 square feet
- Traps smoke, dust, pollen, mold spores, and pet dander; CADR of 110
- 3 speed settings; optional ionizer; washable pre-filter
- Measures 11-1/5 by 8-1/2 by 28-8/9 inches

Holmes is positioned to offer value, innovation, and quality products to consumers. The company emphasizes clean, “comfortable” air as part of its marketing strategy for air purifiers

PROS:

- Runs quietly on its lowest speed.
 - Easy to operate its controls, carry it, and clean or replace its filter(s).
 - Relatively low annual costs, which includes routine filter replacement (if any) and annual operating costs.
 - Relatively low filter costs.
 - Includes an ionizer but produces no significant ozone.
 - Has a carrying handle.
 - Has a washable pre-filter for capturing larger particles.
 - Very good price.
