

Support homeless and low-income San Franciscans on November 8

YES on Proposition I (The Dignity Fund)

This measure ensures city funding for programs for low income seniors and people living with disabilities, including long term care, nutrition and wellness initiatives, and senior centers.

The proportion of St. Anthony's guests who are seniors has increased markedly – a demographic trend likely to continue. State funding for these groups has been pared back and they now face real difficulties providing for their basic needs.

YES on Proposition J (Homeless Housing and Services Fund) and K (General Sales Tax)

These companion initiatives provide for a 0.75% sales tax increase, and for a fund that would use sales tax revenue for homeless services and transportation.

Although we don't usually support regressive taxes, this dedicated funding source will address the crisis in our adult shelter system that leaves thousands unprotected on the streets.

YES on Proposition 62 (Justice that Works Act)

This proposition repeals the death penalty in California. Consistent with our Franciscan and Catholic values, St. Anthony's is opposed to the death penalty because it does not prevent violence, promote justice, or respect the dignity with which all people have been created.

St. Anthony's takes positions on a small number of ballot measures that affect the low-income and homeless San Franciscans we serve. We will not benefit financially from their passage.
