INSTAGRAM DEVELOPMENT

Web design and social media development

It's great having an idea for a website, the next "big thing". But unfortunately it doesn't always turn out that way. Most entrepreneurs fall at the first hurdle. It's all about building the marketing foundations to portray you and your brand as credible. And with over 6 years in e commence, I've developed a successful solution.

I provide the following;
"Proffesional website design"
"Wide range of products"
"Credible suppliers/wholesalers"
"Fully drop-shippable website"
"Email and domain configuration"

In addition to this I'll help build the marketing foundations for you brand;
"Bulk email setup + 2K opt in email addresses to target"
"Instagram/facebook set up"
"Celebrity contacts/social influencers"

More importantly;
Ongoing assistance at no extra cost until I'm no longer required.

PRICE LIST

£500 up front
£500 on website handover/completion
