Response
GRADUATION TO
EMPLOYMENT
COURSE FOR
STUDENTS ON THE
AUTISTIC SPECTRUM

ABOUT THE COURSE

The aim is to give you the tools required to find work placements and employment.

The University of York works with United Response (a charity supporting people with disabilities towards gaining and sustaining employment) to support students of any year group with Autism to prepare for employment.

We understand the idea of graduation can be daunting. However, with the guidance of United Response and *Careers* we aim to support you through this transition by offering our Graduation to Employment courses.

There will be two courses available on Wednesday afternoons in the spring term:

- 1) Pre-Employment Module (5 weeks)
- 2) Job Club (3 weeks)

You may choose to attend one of the courses or both.

Our approach will be practical and centred around you and your needs, giving you skills and knowledge towards finding and sustaining employment once you graduate.

For more information, and to book a place, email rachel.howlett@york.ac.uk

"Job interviews aren't as scary and I am much more confident looking forward"

Rebecca Dunn
BSC BIOLOGY

"I did not appreciate certain skills I have which would benefit an employer. I now have a greater understanding of my employability skills"

Alex Mitchell

MA CULTURAL HERITAGE MANAGEMENT

"I feel as though I have certain tools and resources in place to overcome certain future obstacles"

Ben Colson
