

Sandpaper, Files and Deburner Tool

Sandpaper, Files and Deburner Tool are dangerous tools to use.

The use of sandpaper is banned in the company UNLESS a supervisor is present because the sandpaper can get wrapped in your hands and pull you into the machine. Talk to your supervisor if you want to use it or use it without turning on the machine.

If you get permission to use sandpaper, do not use gloves, do not wrap the sandpaper around your hands and do not wrap it around your fingers, use a long bar to hold it and use slow speed on your machine.

Files are dangerous because it can hit the jaws and hit you back, it can break and get flying sharp parts and debris on your eyes or others, it can slip and make your hands hit the jaws. Use caution and slow speed when using a file.

Deburner tools can also break and slip if you put a lot of pressure into it and suck you into the machine. Use slow speed or use it when the machine is off.
