

# Shrek Imposters

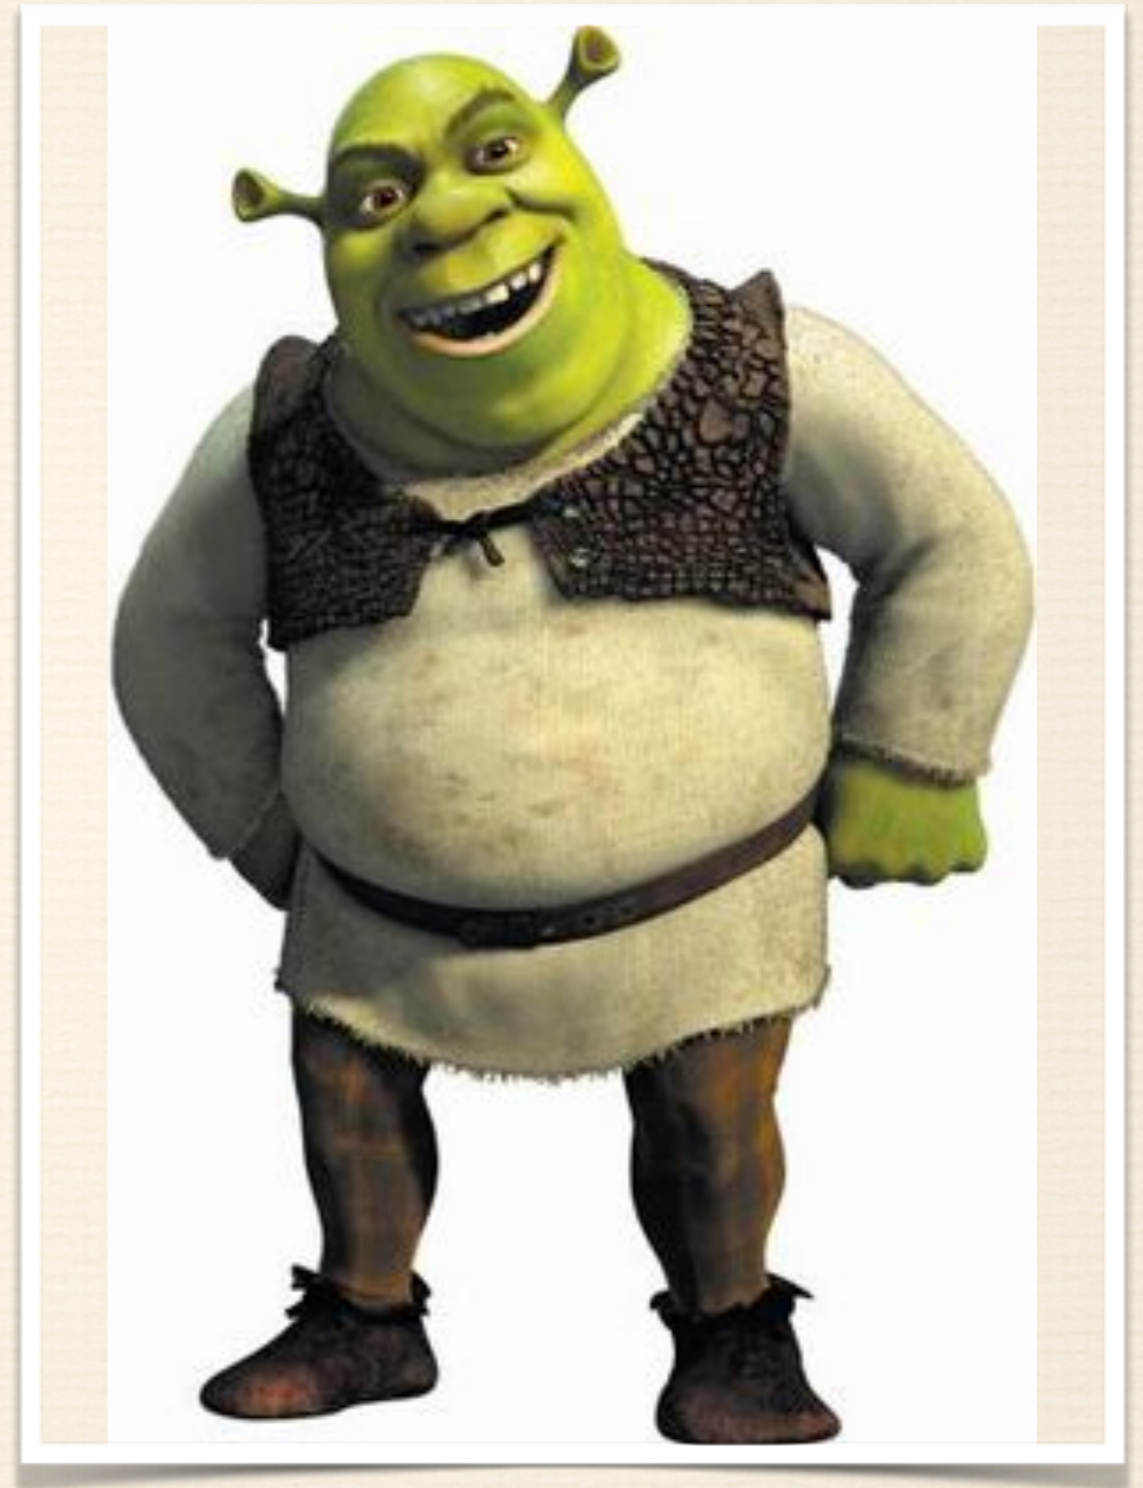

*How to identify a false Shrek*

# Step One

*Become familiar with the true form of Shrek. Make sure you study, because some imposters are extremely similar.*

# Step Two

*Learn to Identify an Imposter*

- ❖ Strange movement patterns
- ❖ Glazed over, or strange looking eyes
- ❖ Different shade of green tone
- ❖ Elongated or mishapen head or ears

*Commonly Seen Imposters:*

# "Video Game Shrek"

At first glance he seems to bear a striking resemblance, until you take a closer look...

- ❖ Misshapen arms
- ❖ Odd colored eyes
- ❖ Mouth and nose are slightly off

# "Self-Animated or Modified Shrek"

Commonly found in fan-made comedic videos

- ❖ Can be created by amateur animators
- ❖ Has appeared in several Vine videos
- ❖ The "glazed-over" or hollow eyes

# "App Shrek"

This is the version of Shrek that appears in low budget apps

- ❖ Upon examination, you can clearly tell that it is a fake. Enough said.

# "GIF Shrek"

A deceiving version of Shrek that appears in GIF files

- ❖ You could mistake him for the real deal at first, but he has "misshapen face" characteristic.
- ❖ His eyes are farther set back than normal

# "Professionally Created Shrek"

This version of Shrek was designed by someone with skill. This is the most convincing and definitely would be easy to mistake.

- ❖ Very realistic textures and details
- ❖ Artfully created overall, but also a fake.

# Step Three

Hone your skills and remember this presentation next time you think you may run into a Shrek Imposter. Stay safe and don't get tricked.
