

The Winter Soldier-Inspired Slouch

This hat was designed and made for my wonderful Big Betsy, the most amazing, supportive, and funny Big I could have ever asked for! She loves Marvel and she loves Bucky Barnes, so I figured a nice slouchy hat inspired by her favorite character would be appreciated. It's designed with a big increase to avoid crushing big, fluffy hair and a long brim to give her the option to fold it.

Dimensions

Unfortunately, I didn't measure this hat before I handed it off, because I didn't expect it to be so well-received! For the record, my head is 22.5" in diameter and the hat is fairly loose on my head.

Gauge

No gauge was measured, unfortunately. If anyone would like to give this a test run and give me their measurements, that would be great! When I make this again I'll take measurements!
