Courses began operating in September 2016 at CDC Busia and will continue in 2017 at CDC Busia.

Africa Network Bible College | Kenya can provide quality distance education through Vision Colleges, Australia with facilitated classes at Busia and other places to be appointed.

The accredited program is built around two streams of study. These two streams are –

- **Biblical Theology Studies** (or “CMT” units as they are referred to in the Curriculum); and
- **Practical Ministry Skills Development**. These units are taken from the Community Services Training package and are selected for their particular relevance to ministry training.

It is this combination of practical and theological units that makes the Vision program so effective. At Africa Network Bible College | Kenya, we are pleased to recognise student's prior studies and experience and offer credits towards their courses in the form of Academic Transfer or Recognised Prior Learning, (RPL) at the student's request.

With Africa Network Bible College | Kenya, you can spend more time building on your skills instead of learning again.

Recognition Given to the Training Program

Graduates from these courses will be recognized as appropriate persons to be employed as Parish Workers, Church Workers, Religious Instructors, Ministers, mission support personnel, Pastors, and Church-Planters and Missionary Workers (as relevant to the level and type of qualification completed) by most Christian denominations.

The Recognised Certificate in Biblical Studies offered through Vision Christian College is not accredited but is recognised by most denominations and churches for ministry training.

The Christian Ministry and Theology (Cert III to Graduate Diploma) is fully accredited through [ASQA](#), the national Australian accrediting body and is internationally accepted by most training organisations and universities.

The Degree programs from the Bachelors Completion through to the PhD are issued in the United States under the State Approved or Freedom of Religion legislation in the USA. These degrees while legitimate study options are designed and offered for ministry training and do not hold accreditation with any authorised body for credit purposes.

Facilitated studies

Studies are completed in English language; students need to have good understanding of the language to be able to fully comprehend the material and to complete the assignments. Students will require access to a computer to complete assignments. Courses are offered with experienced pastors and leaders as facilitators to assist the student in class at Busia according to the following timetable. Additional classes are sometimes added to enable students to 'catch up' on subjects that have gone before to stay on track with other students enabling graduation at the same time.

Special Pricing

Beautiful Feet Task Force in association with Vision College have agreed for special greatly reduced pricing for Africa Network Bible College | Kenya so that Australian studies, meeting Australian standards and receiving Australian awards can be achieved by students in Kenya through this special pricing not normally available to Vision students.
