of my previous works!*

ART

should be something that
liberates
your soul,
provokes 
encourages
people to go further

-Keith Haring

The background features two large, overlapping circles. The left circle is a solid light blue. The right circle is a darker blue with a dense, starry or pixelated texture. The word "LOGOS" is centered in white, bold, sans-serif capital letters, with a thin white horizontal line underneath it.

LOGOS

1

2

3

4

5

6

1

This logo was created for a high end cocktail lounge in upper Dallas for elite guests

2

This logo was made for a dialysis machine to be used in doctors offices

3

This was made for a local home healthcare company that specializes in kidney care

4

This logo was created for a couple going on a year long road trip around the country

5

This logo was created for a local plumbing company in Dallas

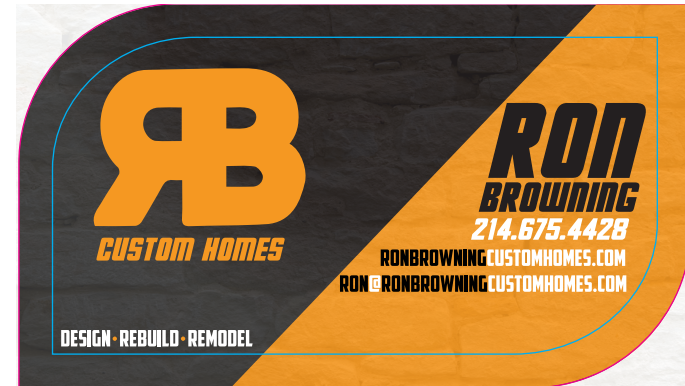

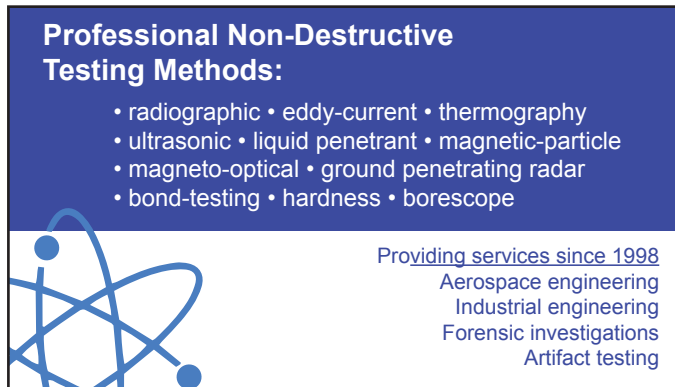

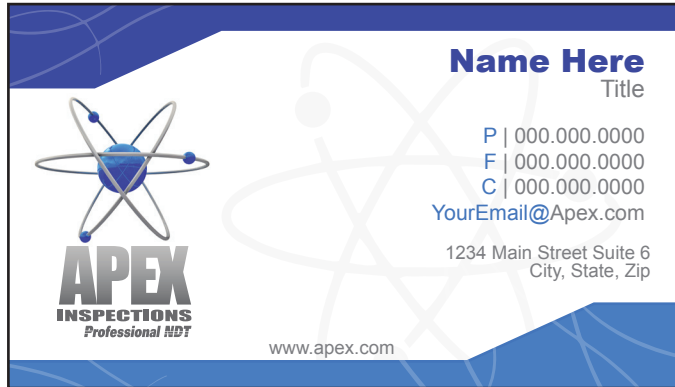

6

This logo was created for an affordable care dentist in Dallas

The background features two overlapping circles. The circle on the left is a solid, light blue color. The circle on the right is a darker teal color and contains a bokeh effect of small, out-of-focus white and light blue dots. The text 'BUSINESS CARDS' is centered over the teal circle, with 'BUSINESS' on the top line and 'CARDS' on the bottom line, separated by a thin white horizontal line.

The Dangers of ALUMINUM WIRING

We found aluminum wiring in your neighbourhood.
Is your home a fire hazard?

Homes installed with aluminum wiring are:

55 times

more likely to have ONE or MORE connections reach fire hazardous conditions than with copper wiring.

Was your home built in:
1960-1970?

Most homes were built with dangerous aluminum wiring during these years.

The Dangers

- Higher chance of **over heating**
- Higher chance of **corrosion**
- Higher **oxidation** levels
- Older** wiring has a higher risk of catching fire
- Higher chance of **melting**
- Pig Tailing (aluminum wires capped with copper ends) as a high risk of causing sparks

YOUR options:

- Evaluation by a **qualified** technician
- Re-wiring the entire house with copper
- Copalum Crimping

SERVING UP STYLE

Who we are

What we do

Customize any uniform for your business needs!

Get amazing custom branding with Dye Sublimation

Order uniforms for your staff conveniently online!

Your Logo Here!

Dye Sublimation is a fantastic new technique that allows you to have full color, all-over prints on your uniforms! The process involves a special printing technique that uses special inks, special paper and extreme pressure. The result is a full color beautiful print that you simply cannot get with screenprinting. There is no weird, crunchy, cracking texture like screenprinting, and the colors never wash out. It feels great to the touch and stretches with the body... and it looks fantastic on Waitressville Uniforms!
