

2016 VOTING INTEGRITY PETITION (WIP)

PETITION LANGUAGE

The 15th Amendment to the U.S. Constitution, often referred to as the Voting Rights Act, assures not only equal access to voting in our democracy, but that the Federal Government and Congress will enforce and protect voting fairness in our elections. Recent evidence shows that the actions of a Foreign Government to create discord in America's democratic institutions (through the release of stolen information and the dissemination of false information) to accomplish a specific political outcome, proves that the most basic and essential foundation in order to have a democratic election, the access to fair and unbiased information, did not exist during the 2016 Presidential Election. Moreover, the very agencies responsible in protecting the voting rights of all Americans and their access to a fair and democratic election were negligent in their duties and irreparably affected the will of the people by not allowing them to vote in a fully-informed manner.

We, the undersigned Americans, call for the immediate suspension of the 2016 election results.

We demand to know:

- 1) Why federal agencies and departments (such as, but not limited to, Homeland Security, the FBI, the CIA, the NSA, the Office of the Attorney General and the Office of the President) tasked with protecting the civil rights of all American citizens, failed to protect Americans against an unprecedented and concerted cyberterrorism campaign spearheaded by the Russian government and its affiliated actors to sow discord and disinformation throughout the U.S. Presidential election.
- 2) Why, when having clear evidence on the gravity and scope of this ahistorical attack on American democracy, these same agencies did not immediately inform the American public about the situation, so that all potential voters had full knowledge of this aggression, coordinated on an industrial scale, against the most sacred institution of a true democracy, a fair election, before voting was allowed to take place on Nov. 8, 2016.

No elected official or administration appointment affected by the 2016 Election should be allowed to take office until the integrity of this election can be proven. If that cannot be done, America must be allowed to vote again, this time with all civil voting rights of all Americans intact and actively safeguarded by the United States Government.
