

HOOPLAN

THE **FUTURE!**

OUR **BIGGEST** ISSUE!!!

Thanks Babies

It's been a fantastic first year. We'd like to thank everyone who have supported us by either coming to our release parties, throwing some money towards our **gofundme**, or who have simply enjoyed our zine.

We're grateful for you, Stout, and we're looking forward to our future with you.

Special thanks goes out to **Ambient Inks** for printing this month's covers, and to **Lee Smalley**.

And finally we'd like to say a sad farewell to our officers **Ashley**, **Megan**, and **Maddy** as they graduate. Without you none of this would have been possible lol.

*It began when we seized the internet.
The people continued to worship us by wearing us
on thier clothes, making artwork of us and
stealing our poop with a tiny shovel. All until
the Great Sphynx in the sky returned, leading us
to reclaim our power over this planet.*

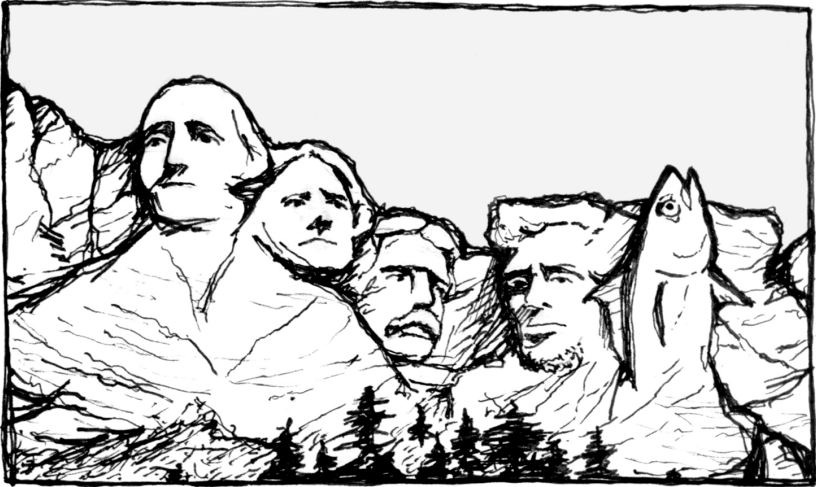

The New York Times

NEW YORK, TUESDAY, APRIL 23, 2073

President Tuna Joins Washington, Lincoln, the other two, on Δ Rushmore.

It only makes sense after such a sick presidency.

President Tuna was not only our first robot President, but also our first fish President, as well as star of hit reality show "The White House."

Born in Florida, he was immediately sent to the Pacific ocean as a dynamite sex robot utilized to spread his robo-seed to the dying tuna population. After realizing his seed was like heroin to these

lady fishes, Tuna felt a moral obligation to distance himself and become the first robot tuna sex therapist.

After tripling the population within his first 6 months of private practice, Tuna was recruited to go make the pandas frisky. Pandas still hated sex, and Tuna's failure brought him into a dark abyss full of drugs and whore stuff.

After realizing he had spent almost all

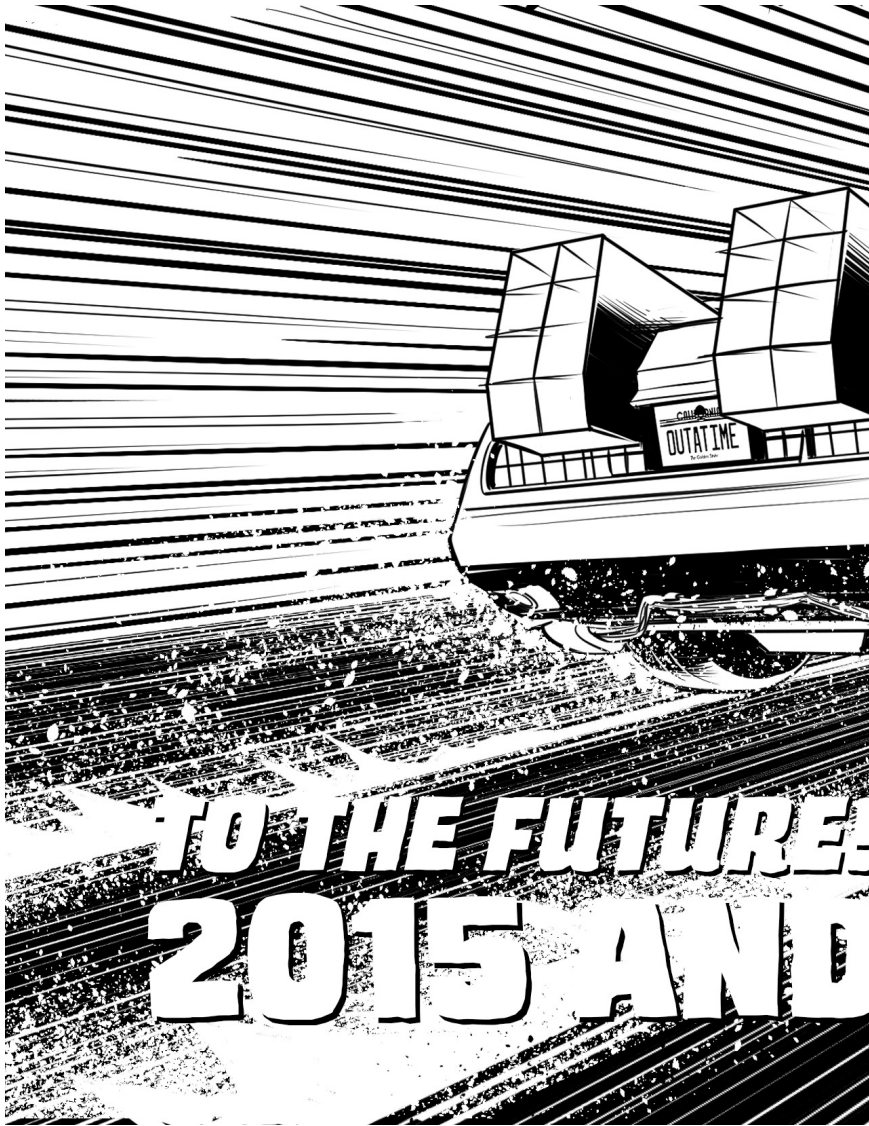

of his money, he stopped doing most of the drug whore stuff.

Tuna realized he needed to become a panda to get through to them. After disguising himself and living in the jungle for 10 years, he became an honorary panda. His smooth words and compassion made the pandas so horny. He married one of the pandas and returned to America to start his political career.
