Our activities include indenting, marketing and commercial trading. OLEFINS is one of the leading suppliers of Public Address System, Fire Evacuation System, Access Control System and various Security and Safety products in Bangladesh. We have local support offices in Dhaka & Chittagong.

Vision

Through God's guidance to become country's leading group in electrical, security and safety solutions through our expertise, business values and ethics. We are committed to provide the highest product quality and our team has a goal to provide complete customer satisfaction.

Our Values

- We consider Our Word as our bond.
- We put our customers first and nurture the established mutual relationships.
- We maintain Transparency in our business practices.
- We work in teams to achieve our goals.
- We strive for Excellence in our products and services.
- We try to achieve the trust of our employees, partners and clients.

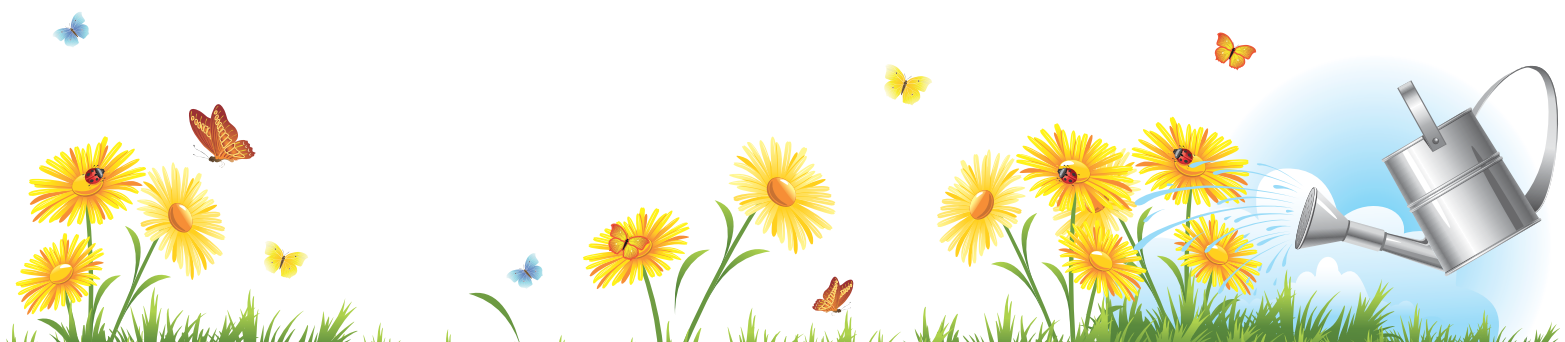

About us

Olefins Trade Corporation was established in 2010 to provide services to industries, govt. or non-govt. offices with all necessary electrical, safety, and security related equipment. We have grown rapidly and have a proven track record. We are a service orientated company and offer our clients reliable services.

Our Primary business is the supply of Electrical, Safety, and Security related products. We have already supplied a wide range of products with remarkable reputation in Bangladesh. We have a rich client list.

With our proven record to supply quality products, we are confident that you will find Olefins as the best product supplier in Bangladesh for you and your business. We provide 24/7 customer support with an expert team of customer care executives. We provide consultancy services with a view to help our clients to pick products that are best for their business needs. Our experts and certified engineers are always ready to provide services e.g. installation, replacing old equipment, upgrading your system to improve or enhance the performance with minimal cost and time-frame to keep your process smooth and trouble free. Our experts and certified engineers are always ready to provide services e.g. installation, replacing old equipment, upgrading your system to improve or enhance the performance with minimal cost and time-frame to keep your process smooth and trouble free.

Consultancy

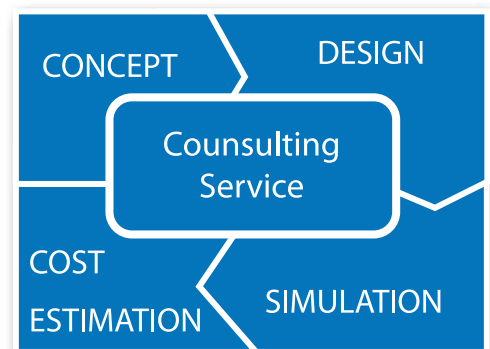

OLEFINS provides professional services beyond providing mere equipment. Our past experience in the field of public address system have proven that early involvement in the project design results in a robust, outstanding and user friendly solution.

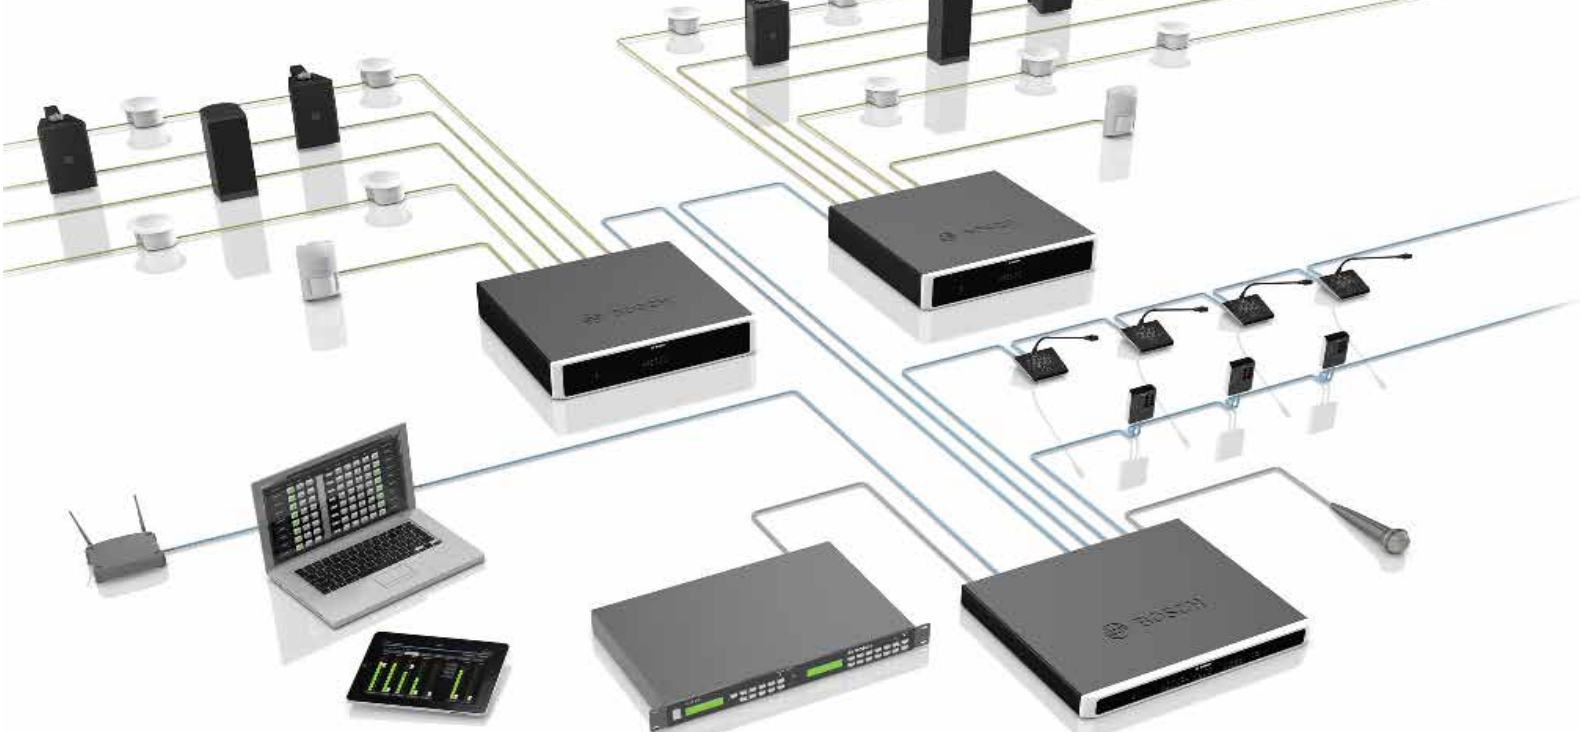

OLEFINS received requests frequently to assist during the design phase to help evaluate the architectural element and operational requirement, and make recommendation.

OLEFINS also conduct technical seminars and present papers at conferences.

Some of OLEFINS professional engineering services are listed below:

- Cost Estimation
- Acoustics Simulation
- System Schematic Design
- Speaker Distribution Layout
- Signal management concept
- Operation & Maintenance Guide
- Loudspeaker Selection & Floor Plan
- Public Address system conceptual & Design Philosophy

Supply

Olefins Trade Corporation is one of the top multipurpose equipment and product suppliers in Bangladesh. Our primary business is the supply of electrical, safety, and security related products including a wide range of sound systems, public address systems, walkie talkies, metal detectors, spill kits, eye wash etc.

About Our Supply Chain

- We have already supplied a huge number of products in 828 government offices, 295 factories, 75 educational institutions, 10 NGOs, 5 banks with reputation in many different districts across Bangladesh.
- All of our customers fully depend on us to deliver the right equipment to the right place and at the right time.
- We are able to supply products according to your demand in a short notice.
- We prefer to deliver products on your own way and method of delivery.
- We maintain open and transparent communication to establish strong, lasting relationships with our buyers.

With our proven record to supply quality products, we are confident that you will find Olefins as the best product supplier in Bangladesh for you and your business.

Installation

Once you buy electronic products you need to install them all. Our experts in every specific field are ready to help you with your equipment and the installation process. Our experts and certified engineers are always ready to provide services e.g. installation, replacing old equipment, upgrading your system to improve or enhance the performance with minimal cost and time-frame to keep your process smooth and trouble free.

We usually work with sound systems, compliance items, industrial safety and security related products. However, our experts are ready to install all kinds of IT and other electronic equipment.

Although we have specific brand partners, we are happy to work with your preferred brands.

If you face any trouble with a piece of your equipment within a few days of use, then we have the option of Hot Testing by our engineers.

If you need just a proper plan of installation, then we are ready to make plans for you to ensure the optimum productivity and top efficiency.

Our experts will configure your equipment with reduced time and disruption to your business. We will configure your equipment as "Plug and Play" as possible.

At Olefins Trade Corporation, we work closely with all of our customers to understand their business requirements and serve them with our equipment and services.

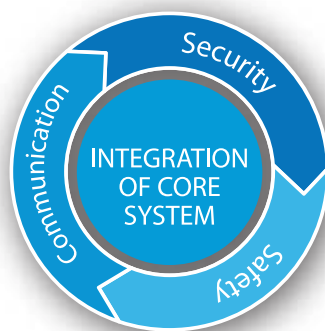

Services

Olefins Trade Corporation also works to keep your equipment in production and in safe operating condition. Olefins Trade Corporation is ready to provide maintenance and troubleshooting services not only for our buyers but for all who are in need by our trained personnel. We provide On Site Inspection Report after examining your equipment each time.

We provide 24/7 customer support with an expert team of customer care executives. For our business reputation we give importance on complains of our customers on any occurrences.

If you need routine service and maintenance for keeping equipment safe and running at highest performance, we are your perfect choice. Our services will help you to avoid downtime and in turn to maximize profit.

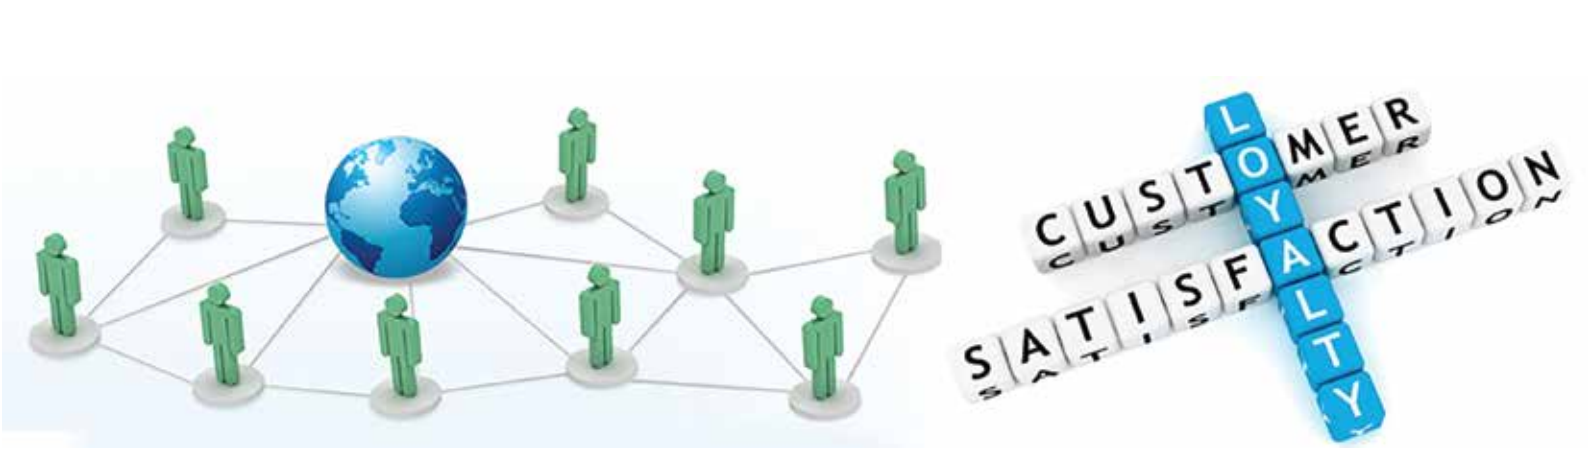

Olefins offer a wide range of maintenance services to meet your production requirements. You can easily improve your equipment performance and subordinate your costs by reducing downtime through our maintenance services.

Our Clients

Our goal is to build a long-term relationship with our clients, based on commitment, pride, accountability, quality and safety. Client relationships are the lifeblood of our business. We customize solutions that deliver value and best meet the needs of our customers on-time, on-budget, every time.
