

Name \_\_\_\_\_

**Directions:** First, make predictions about the measurements of your toy. Then, use the measuring tools to measure the height, width, and circumference of your toy. Record your measurements on the chart below.

**Predictions:**

- 1) I predict the height of my toy is \_\_\_\_\_.
- 2) I predict the width of my toy is \_\_\_\_\_.
- 3) I predict the circumference of my toy is \_\_\_\_\_.

Draw a sketch of your toy:

| Height<br>How tall is your toy? | Width<br>How wide is your toy? | Circumference<br>Measure around your toy. |
|---------------------------------|--------------------------------|-------------------------------------------|
| _____<br><br>_____cm            | _____in<br><br>_____cm         | _____in<br><br>_____cm                    |
