Coverall began in 1985 as a three-person operation in San Diego, California. They now support more than 8,000 franchised businesses in 90 markets across the US and internationally.

The independently owned franchises business and their staff professional clean more than two million square feet of commercial office space every day.

The Coverall – Health-Based Cleaning System sets the bar higher for healthy cleaning and makes them different from traditional janitorial services.

Coverall was recently in the news after [alawsuit in the state of Massachusetts](#) ruled the franchisor must pay back over 100 people the initial franchise fees. Most of them were new immigrants. The court also ruled that Coverall had misclassified their franchisees and that they were technically employees. Coverall was also banned from operating in the state and fined three million dollars.

The problem stemmed from the way Coverall structured their franchise agreements. Most cleaning franchises are set up and trained to run their own business, billing their clients directly. The Coverall business model is different. Coverall finds and bills the clients, then pays their franchisees their portion of the billing. Franchisees must wait until the end of the month to invoice Coverall then wait another 30 -40 days to be paid.

Most of the information and reviews we found online for Coverall Cleaning were not favorable.

I'm a franchise owner for Coverall for almost two years now in San Mateo, CA and I really regret it joining and starting my business with them because all they did is SCAM me. Coverall Cleaning Concept aka Coverall-Based Cleaning System is where you can start your janitorial business by buying a franchise. You basically starting your cleaning business by using their name and you pay them yet they automatically deducted 15% each month plus insurance other charges. They suppose to guarantee you an account so that way you can start making money right away. They only guarantee you with account just enough that they can take and make money out of you each month and you left nothing. Which what is happening to me. All this time which all I get is headache because I always have to call the office to give me more account but no result. Now they're holding my check and their not paying me. I called so may time what happened to my check and they just pass me around and no on knows. I'm ready so sue Coverall all for all my lost. I'm ready to take them to court.

Anyone who wants to start a janitorial cleaning business do your research. As I tell DO NOT DO BUSINESS WITH COVERALL CLEANING CONCEPT aka COVERALL HEALTH-BASED CLEANING SYSTEM because is a SCAM.

I was also a Franchise owner through coverall in Cincinnati OH. They are complete scam artists. I wasted 6 years with them, trying to get something started and they did not hold up to their end of the bargain. I agree with what you guys are saying. Buyer beware!!!

Coverall has an industry reputation for underbidding contracts and then selling and reselling them to unsuspecting buyers.
