

# CITY

of **CHINA**

Canton Tower  
600 meters high

*Guang Zhou*

**BUSY PEOPLE  
IN THE CITY**

People live in the  
city very busy,  
in a hurry,  
and time to run.

*Bus or tram feeder systems transport people to rapid transit stops.*

*Rapid transit is used in cities, agglomerations, and metropolitan areas to transport large numbers of people often short distances at high frequency.*

*Some systems may extend only to the limits of the inner city.*

LOVE

# LIFE

A farmer raising living organisms for food or raw materials.

A farmer was a person who promotes and improves the growth of by labor and attention, land or crops or raises animals

winter

FOOD

Food dehydration for storage to prevent microbial reproduction caused by food corruption.

Food dehydration for storage, to prevent microbial reproduction caused by food corruption.
