# CLIMBING ENTHUSIASTS

The term **photography** is derived from the Greek words phos (light) and graphis (painting, drawing) or graphê, the word together means "to light drawing." Photography refers to the use of a special equipment for image recording process, we generally use a mechanical camera or digital camera for photography.

Sometimes photography is also called photography, that is, through the reflected light of the object to the photosensitive medium exposure process. It is said that a brilliant language: the ability of photographers to everyday things in the fleeting transformation of ordinary things into the immortal visual images. Photography basic solution

Rock climbing is derived from the sport of mountain sports. 50 years originated in the former Soviet Union, the army as a military training program exists. 1974 included in the world events. Into the 80's, difficult to climb the modern competitive climbing competition began to rise and caused widespread interest in Italy in 1985, held the first difficulty of climbing

# Fruit businessman
