

Traditional Pajarita

Start with a square sheet of paper. Fold along the diagonals in both directions to get a basic X crease. Fold three of the corners into the middle of the paper. Fold the fourth corner backwards.

Turn the paper over so the bottom is facing up and fold the four corners to the middle.

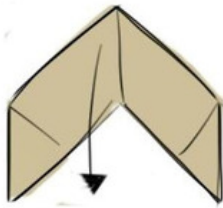

Fold the square in half diagonally and pull out the inside flaps within the triangle.

Fold down the front flap. Pull out the small flap on top. This corner of the paper will fold down to become the bird's head.

After pulling out the small head flap, fold model in half. Pull out the inside flap on the base. This will become the bird's tail.
