Privacy-Policy for SMS-Master

We do not collect any data from you or from your contacts or from your device.

How do we use the App-Permissions in SMS-Master:

- "**permission.SEND_SMS**" +
- "**permission.READ_PHONE_STATE**":
  For sending SMS. [required]

- "**permission.RECEIVE_SMS**":
  For "Delivery Report" of SMS (if the SMS reached the target successfully). [required]

- "**permission.READ_CONTACTS**":
  For importing contacts (from your phone contacts). [recommended]

- "**permission.WRITE_EXTERNAL_STORAGE**" +
- "**permission.READ_EXTERNAL_STORAGE**":
  For exporting and importing from CSV / XML files (you can save and restore your group-contacts). [optional, if you don't want to use these features]

- "**permission.INTERNET**" +
- "**permission.ACCESS_NETWORK_STATE**":
  For uploading your saved contacts to Cloud. [optional, if you don't want to use this feature]

- "**permission.RECEIVE_BOOT_COMPLETED**":
  For continue your scheduled SMS-tasks when you reboot your device. [optional, if you don't want to use this feature]

- "**permission.VIBRATE**":
  If you enabled it in Settings. [optional]

- "**permission.WAKE_LOCK**":
  For sending SMS if your phone is on sleep (mostly useful for scheduled-SMS). [recommended]
