Parents must buy first uniform and replacement if worn out to swap when good with good loan uniform up and down as the student grows (so as to ration without some destroyed or duplicated waste) [\$1.5b / 10m x 5year life = \$750]

1% of the national budget shall be for silent vtol anti-gravity passenger aircraft [such as TR6 Telos and smaller craft] for (Australian) private airlines for only full Australian citizen passengers and NATO.

1% of the national budget shall be for new buses for human and robo AI driver control for free private charity bus services for equal allocation to each state parliament for 10 private charity free transport providers having approval of each state parliaments plus any transport from the up to 1 free passenger transport charity having approval of the local council to receiving sponsorship from levy on income for local charities.

1% of the national budget plus proceeds of sale of taxi to 10 private providers having approval of the state business council shall be for new taxi for human and robo AI driver control. For commercial taxi services with caps per kilometer as set by the state parliament. Taxi operators must provide free response first and free transit to safe accommodation and to hospital of passengers in emergency situations (>5% of kilometers each week of taxi driver as the taxi driver shall determine and >5% of kilometers of taxi operator each week as the taxi operator shall determine).

1% of the national budget shall be for pest elimination: Equal portion of 33% of this budget for each meter of new vermin proof fencing in last year as claiming for approval by state government conservation and farming ministers each month such as by owners of contiguous farms and conservation parks over 500hectares, 33% for pest species genome specific contraceptive biocontrol infection research and deployment. Equal portion of 33% of this budget for each kilogram of pest extermination subsidy at end of each month such as by shooting and trapping as employees for 100 pest exterminator business having approval of the state business council (may not use poisons or any type of toxic chemical)

1% of the national budget shall be for free full genetic sequencing and diagnosis of all genomes of all Australian citizens and donor such as for engineering and synthesis of sperm and egg for fertility services and for medical records cross referencing to isolate and diagnose all genetic diseases and vulnerabilities.

1% of the national budget shall be for ambulance, police, fire and rescue vehicle including air ambulance.

1% of the national budget shall be for free psychiatric medicines as chemist doctor shall prescribe biometric identification to prevent overdose or on-selling. 1Gram tablets midday and evenings including {10mg zuclopenthixol dihydrochloride (Clopixol), 100mg Quetiapine (Seroquel), 100mg Inositol, 100mg Choline, 100mg Peppermint oil, 100mg Omega 3 oil, 100mg Coconut oil, 100mg Phenylalanine, 20mg B6, 10mg B12, 50mg Ginkgo extract, 50mg Tyrosine, 50mg Taurine, 50mg DMAE}

1% of the national budget shall be for free compulsory blood tests such as before unprotected sex with a new partner. Each blood test listing in order of debilitation must test for more than 10,000 types of infection.

1% of the national budget shall be for free weekly garbage collection service, for allocation to private contractor by local councils from 20 having approval of the state parliament, unless payment refused by house of lord senators.

1% of the national budget shall be for free toxic waste removal and disposal services provider as the state parliament shall allocate. Toxic waste may not be placed on the kerb, must have containment and dial-up free removal by toxic waste removal charity.

1% of the national budget shall be for local council free bulky rubbish removal. For free street bulk rubbish bin also date every 3 month right to put bulk rubbish on the kerb for free local council collection without being prosecuted.

1% of the national budget shall be [2b/y] for 1 new geostationary media satellite (may be drone) and Earth station per year in Faraday cage able to survive x60 class x-ray coronal mass ejection solar flare. For television, radio, data-cast digital teletext and time/date synchronisation broadcast satellite. Budget allocation to a separate private satellite and processing earth station provider each year. The last 10 active satellite receiving spectrum. With camera for photo and video attachment.

1% of the national budget shall be for Rewards, Witness protection, Surrender of firearm or Rewards to anonymously report drug addicts including alcoholics including for drug driving to convict to rehab prison island for 6 months plus duration of addiction to receive drugs wanted from levy on incomes for prisons. Up to \$100,000 total per witness over lifetime for equal allocation to each of the 10 official political parties emergency services.

CHAPTER SEVEN: HEALTH REGULATION AND JUSTICE.

Government may not prohibit or regulate private payment for genetic testing advice and research except to point out false claims. The national government science minister must approve tests to receive payment from health and welfare super savings accounts first then for treatment of broke citizens and native title holders who undergo sterilisation by injection ~99% (for adjustment to manage budget as the health minister shall determine) x generic

Medicare rebate subsidy for collection by pharmacy and clinic plus remaining cost for payment for pharmaceuticals and external medical services, plus standard logistics, stocking, service, transaction and delivery charges : 50% of net income for doctors up to GDP / population / 70 [\$1000] over last 3 days, the rest to go to independent clinic and pharmacy for building, running, cleaning and receptionist costs and for free pharmaceuticals for doctors to use on patients. Doctors may own rights and shares in pharmacy and clinic.

People have the right to refuse medical treatment, except subject to local court jury review within one month of commencement. No medical treatment may be given to anyone with a life expectancy after treatment of less than 1 year or over the age of average life expectancy in our nation [of 88 years]

Payment for medical and care services is first from savings and superannuation, then if used up broke residents may use provider credit of which repayment voluntary with medical records showing health and welfare savings or if negative medical debt times years owed removing oldest debts first when repaid from 50% of health and welfare inflows such as from universal basic income. If debt refused then the patient may choose sterilisation after which the patients clinic and pharmacy may bill government for subsidy rebate of ~99% (adjustment as the health minister determines) of the cheapest genetic price.

Repayment of medical debts is voluntary but the doctor may refuse to treat late payers or patients with big medical debts.

Health and welfare savings accounts, medical credit from a doctor and for sterile fertility patients Medicare shall rebate subsidy to doctor and pharmacy for treatment: 1-no booking phone and computer tele-medecine including automatic provision of medical records, GPS position on map, photo, home address, text message and recording of call to triage nurse and specialist to contact back when ready such as by phone voice and by computer on web page text offer of tele-prescription quote subject to patient ok to immediately send prescription electronically to open pharmacy nearest to patients home including alternative temporary address for the pharmacy to immediately fill prescription (if out of stock pass to open pharmacy next nearest to patient) to get pharmaceuticals to patient such as by driving own car, sending courier or posting as appropriate to put in patients home address letter box with option to knock on door and hand to patient, If person lost or injured at remote location may send free rescue, if chronic offer choice of 10 nearest private commercial specialist for the patients to choose by booking time online including by patients legal guardian to visit and collect the patient for treatment so as to automate billing, if acute someone may send nearest cheapest best ambulance with automatic billing of patients who shall continue to have freedom of will while able to communicate, If violence or theft send police, If fire or other emergency send appropriate free emergency services. Where available doctor must enter own doctors ID into card reader then biometric scan and 4 digit passcode to function for while card remains in doctor card reader for up to 1 day, Where possible the doctor must establish the identity of the patient such by entry of the patients Medicare card, biometrics, address, name, date and place of birth, race, Medicare number, phone number, facial recognition, fingerprint, doctors memory, weight, height, record of last visits, medical conditions, hair colour, skin colour, eye colour and whatever to establish the identity of the patient to the computers and doctors satisfaction after bringing up nearest matches photo and basic details for comparison of official photos. The patient may use own correct usb chip card reader, Medicare card and passcode all doctors records to selectively edit into index.html home page file on Medicare card chip with a paragraph to document each current ailment in order of least hours able to work each week before incapacitated from work by ailment first saying "incapacitated from work after" then number of hours able to work each week before incapacitated by ailment, then "able to recover after" remedy such as number of hours rest and additional requirements to stabilise, then current treatments, then successful treatments, then failed treatments, then date, cause and circumstances of infliction including name, profile, propensity, history of having caused harm, temperament, location, identity, character, race or addictions of persons who most caused disability. With hyperlinks to photo and images in relation to ailment to save in same root directory, plus preferably write protect documents from any doctor, clinic and lab worldwide such as genetic testing results statement, infections test results, cancer test results, toxin or drug urine test results, allergy test results, general blood test results and any additional test results. Ambulance service may receive proceeds of 20% levy on income for earners choice of charity plus may charge a flat fee per patient delivery plus an amount per km fee plus a clean up if messy x danger fee if infected or violent. Private specialist including in public hospitals may charge any rate schedule subject

approval by and modification by and appeal to local council health commissioner. National records data base shall have 10 location backup redundancy for doctors and patients to save patients health records for patients to access own records, doctors, researchers and others with a valid reason may access all medical records as health ministers determine. Chemical anti-infection drugs only for animals genetic material in quarantine for importation into Australia and as combination therapy using up to 10% of each anti-infection drug try and save sick people. Human and animal pregnant mothers and new born babies in Australia may only use natural inoculate to create immunity such as with antibodies, immunoglobulin and colostrum, Adults outside of being pregnant may use vaccines. Regular blood donors testing free of infection with clean lifestyle may receive payment for donation of blood, with preference for lab grown blood and only lab grown transplant organs, no forced, painful or hastened death by having living human donate organs. Doctors and clinics must refund to estate payments for medical treatment made by the patient within last 12 months of patients life. Compulsory psychiatric confinement must be free to the patient in each state by panel of 10 retired psychiatrists with most prior mentally ill psychiatric patients still alive who shall apply to be on panel. Patients may refuse other medical treatment.

Sick leave does not require a doctors sick note is not paid.

Doctors may not take out indemnity insurance, doctors shall pay compensation as the local court shall determine or default and be banned. Recipients of over expensive, useless or worse than useless treatments may obtain a refund as the local council health commissioner shall determine, Doctors shall repay all payment for all medications, special care and treatments above basic accommodation rent prescribed to patients in last 12 months of life. The maximum refund and compensation payment by each doctor over the lifetime healthcare of each patient is GDP /population / 1.4 [\$50,000].

Health insurance is illegal.

Doctors must obtain permission of conscious patient before each treatment including psychiatric medication but may physically put in confinement to limit violence to others. Patients persistently unable to express a will to live may be subject to euthanasia the hour around which must be on video to show to court.

Terminally ill patients have the right to try and buy any experimental medication and treatment. Any person may buy and consume any vitamin or complementary medication from any seller subject to free purity tests. All harmful drugs are illegal, all non harmful treatments and medications are legal unless a court determines the drug is banned subject to nearest jurisdiction, all harm done by doctor is cause for massive fines and bans. Free trials are legal but providing some patients with placebo where demonstration of effectiveness required others on placebo to die or stay ill is illegal. To legally charge for a medical treatment a medical treatment for non terminal illness patients must have over 60% cure rate on over 1% of affected in nation up to 1,000 free trial patients.

Water supplies shall contain 1g / kilolitre substance to kill infection, prevent tooth decay and be alkaline including {hydrogen peroxide} not {fluoride or chlorine} except in emergencies.

Oath or affirmation of allegiance. Every member of Parliament shall before taking his seat make and subscribe before the Presidents or some person authorized by them, the Oath or affirmation of allegiance to racial fairness through constitutional direct democracy.

SCHEDULE.

OATH.

I, (name) do swear that I will be faithful and bear true allegiance to racial fairness through constitutional direct democracy of producers. SO HELP ME GOD!

AFFIRMATION.

I, (name) do solemnly and sincerely affirm and declare that I will be faithful and bear true allegiance to racial fairness through constitutional direct democracy of producers.

Any member of the government who contradicts this oath shall be disqualified from appointment to the service of the commonwealth.

Members of one House ineligible for other. A member of either House of the Parliament shall be incapable of being chosen or of sitting as a member of the other House at the same time.

Communications; Postal, Internet, Television, Radio, Spectrum, Newspaper and other like services:

Navigation; Lighthouses, satellites, beacons and buoys:

Meteorological, Extra Terrestrial, and Astronomical observation, exploration and visitation:

Race and religion:

Pollution and environment:

Health practice:

Detention and imprisonment:

RADIO SPECTRUM: All broadcast spectrum is free to 10 private media corporations having approval of the national business council and receiving most media levy sponsorship or mobile Internet spectrum and fibre 1/10 bandwidth free to 10 telecommunications company connecting most {actual 25mbps+} broadband users.
Government may not sell or charge rent for spectrum.

As set by the national parliament {Device transmitting under 100Milliwatt may use any spectrum without limit, restriction or cost, up to 10MHz per user allowing devices to switch to unused frequencies, Except may not use GPS, radar, navigation, emergency, and missile guidance spectrum up to 100mhz.

Radio Quiet Zone (RQZ): a radius of {1000km around Boolardy Station, around 200 km East of Meekatharra, Western Australia, and 5km around individual telescopes} shall have no radio emissions except in emergencies for {The Square Kilometre Array} radio telescope.

*25khz spectrum from 0khz to 25khz military submarine communications.

*25khz spectrum from 25khz to 50khz positioning system.

*25khz spectrum from 50khz to 100khz over the horizon radar.

*200khz spectrum from 100khz to 300khz RFID chips, smart card pay wave, (20channels x 10khz)

*4mhz spectrum from 300khz to 4.3mhz satellite drone and self driving cars traffic control.

*.1mhz spectrum from 4.3mhz to 4.4mhz for satellite clock, wrist-watch and time division duplex synchronisation signal.

*.6mhz spectrum from 4.4mhz to 5mhz for automatic ship and aircraft location reporting and navigation information system and emergency locator beacon satellite.

*50mhz from 5mhz to 55mhz dynamic spectrum. Remote wireless point to point connection of wireless towers for fast mobile voice also with satellite dish for wireless broadband on mobile devices. Minimum required up to 100watts.

*20mhz spectrum from 55mhz to 75mhz (100channels x 2mhz spectrum blocks) for free wireless open channel voice and peer to peer web tiles for services and people profiles in local proximity tiles subject to user filter for

mobile phone and stationary vehicle. Maximum power minimum required to connect full screen of tiles to 100watts. User may set password to only receive tiles and have open voice channel with people in proximity having same password such as emergency services.

*50mhz spectrum from 75mhz to 125mhz Free all free access equal sharing of long range wifi multiple user per dynamic spectrum bandwidth channel so channels = users per channel with power just enough for good connection of devices at more than 5mbps {remote wireless point to point connection of wireless towers to with Artemis Networks pCell compound wave device focusing signal processing for large crowds such as in stadiums, malls and schools }: When wifi is on wifi passwords are illegal. Anyone with commercial spectrum mobile and copper may also provide wifi hot-spots for anyone to access the Internet backbone Internet, but this must be free. All areas hotspots including drones, Lamp posts and stadium wifi. Including for voip video phone calls. The free access point provider paying for routers, amplifier, antenna, and backbone Internet access such as by fibre. (national budget provision of free wifi hot-spots including fibre connection to the backbone and Internet access charges including for: schools, universities, hospitals, nursing homes, clinics, digital library charities, sports facilities, swimming pools, beaches, zoos, parks, conservation areas, tourist attractions, transport (street lamps), theatres, entertainment facilities, night clubs, shopping centres, malls, shops, restaurants, factories, city multi-story buildings, churches, and community centres. For owners, tenants, visitors, customers, workers, passengers, patients and students. Also private wifi in homes. Devices do not have to use the same access point to receive and send access to Internet backbone. Access point senders able to have many [100] users on each dynamic channel {using Artemis Networks pCell pre and post processing technology} Maximum power minimum required to have good connection with number of devices able to provide 5mbps up to 100watts/channel. (selection of 3 last channels, then dropping of channel with lowest speed (most interference) and replacement with channel for which having lowest signal for minimum interference)

Also national Internet fibre network with for cable TV fibres: Home fibre also able to display 4 free to air (receiving money from 10% levy on income for the earners choice of charities) television channels at a time from a choice of many [thousands] on backbone cable TV fibres. Able to change channels within 1 second. Tennant may get free Internet and pay TV subscription for allowing use of room such as on roof for wireless services antenna base station hub. All home having crystal and fibre router connection to backbone must provide free open wifi access to neighbours and visitors. All residents of Australia may live bid per megabyte for commercial satellite data rate fallback where all available Internet access has fallen below 5mbps. Devices must have automatic power control to transmit minimum required variable power output to only transmit minimum wireless signal power required by the user to connect and use device successfully. Peer to peer user and provider may also use point to point parabolic dish to collect and send signal with motor to auto focus such as to connect neighbours.

*25mhz spectrum from 125mhz to 150mhz (50channels x 500khz) for free open spectrum Bluetooth channels for local Internet Of Things processing of data (may also use mobile phone/device spectrum): Smart tags, meters and sensors, Cordless phones, headphones and microphone, Remote control, Smart appliances, Traffic lights, signs and traffic alerts for vehicle AI, cameras, security sensors, speakers, home and industry equipment control systems, Toys, Vehicle to vehicle communications, Peer to peer browser showing tiles in order of proximity of devices self hosting. With and without passwords. Up to 500milliwatts/channel home devices, up to 5watts/channel outdoor device, up to 50watts/channel. Auto vacant channel switching.

*100mhz spectrum from 150mhz to 250mhz (100channels x 1mhz) for for 100 {DAB+} satellite and tower digital radio stations. 10 stations for the 10 media corporations having approval of a member of the national parliament and receiving most sponsorship from levy on incomes for the income earners choice of charity. All English language. {1-World economics article reading service. 2-recital of all 1764 combinations of the 42 letter phonetic alphabet brain exercise. 3-Christian and Jewish music radio. 4-Live national talk-back, 5-Crime, police, criminal law and trials radio. 6-emergency services. 7-Weather radio. 8-Comedy. 9-Astrology and prophecy. 10-Environmental radio. 11-Secrets disclosure and conspiracy. 12-Pets and animal welfare radio. 13-Nutritional medicine and supplements radio. 14-Exercise and fitness radio. 15-Celebrity gossip radio. 16-Shopping music radio. 17-general science and technology article reading service. 18-Working music radio. 19-Criminal law and

Television: No junk free to air TV: All channels must be non fiction, non cartoon or computer graphics (except numbers and alphabet), English language, all sounds and art must be of people having fair complexion and not degenerate violent savagery voices and culture of black complexion people. No homosexual propaganda.

Advertisement audio only over sports programming visuals: other programming only visual captions and product placement taking up to 50% of screen. Internet and pay TV may have any (junk) content.

*75mhz spectrum from 250mhz to 325mhz (10channels x 10mhz) private broadcaster receiving most sponsorship from 1% levy on business revenue including for community service obligation for 10 age levels grade 1 to grade 10 children's education national curriculum satellite and tower television channels. All English. No cartoons.

*75mhz spectrum from 325mhz to 400mhz (10channels x 7.5mhz) for high definition TV private broadcaster receiving most sponsorship from 2% levy on private income including for community service obligation general satellite and tower TV channels: All English: 1-Local and national news, protests, breakthroughs, politics, discoveries, events, justice, disasters, accidents, aid, rescue, sports highlights, weather from Australian perspective, International (foreign) news in English, 2-Silent sport with racist white power music, 3Food, travel, tourism, food gardening, farming, health, supplements and fitness, 4 nature documentary, anatomy, biology, natural sciences, technical science and technology: breakthroughs news documentary, New: materials, medicines, UFO's, alien extra terrestrials, anti-gravity, free energy, space, interstellar travel, 5-current affairs policy topics discussion in detail, economic policy: news conferences, media presentations, parliament highlights, 6-Ad channel (with sound) to silently display on 1/16 of screen on all channels, for viewers to go to when interest, 7home making, real estate, furniture, antiques, art, 8shares, economic indicators, investment and finance including article reading, 9gossip, celebrity, performing arts, fashion, modelling, fertility, psychology, relationships, nudity, romance and beauty, reality, lifestyle, games, comedy and entertainment, 10teletext,

*75mhz spectrum from 400mhz to 475mhz (10channels x 7.5mhz) for 10 channels high definition uni TV private broadcaster receiving most sponsorship from 1% levy on producer sales including for community service obligation general satellite and tower TV channels: All English: 1st university channel: Agriculture,- Food, nutritional supplements, diet, tourism, crops, seeding timing, harvest timing, agricultural machinery mechanics and service, fencing, water supply, timber, paper, leather and natural textiles, (Best crop selection research focus), 2nd university channel: Engineering,- metal casting, milling, welding, coatings, 3D printing, ceramics, composites, plastics, robotics, machine tools, kiln work, chemistry and materials science, (Material science + Product design research focus), 3rd university channel: Computing, networks, video displays and audio: networks, computers, electronics, microchips manufacture, satellites, spectrum, television, audio, chronovision, wireless Internet communications, (Webpage design + Crystallography focus), 4th university channel: Resources: geology, excavation, explosives, mining machinery, ore processing, smelting, environment protection, water works, sewage, (Geology mapping focus), 5th university channel: Construction: concrete slab work, tile and brick laying, glass work, sheds and roof

work, plumbing and bathrooms, tunnelling, roads, bridging, kitchens, carpets, curtains, furniture and carpentry (Construction planning+design research focus), 6th university channel: Health,- fertility, genetics, dentistry, infections, trauma, cancer, medical research, organ failure, addiction, allergies, diabetes, immunology, hygiene, poisons, ambulance paramedics, (Nutrition medicine research focus), 7th university channel: Genetics, Crop, black race specific contraceptive infection and human genetics. (Genetics focus) 8th university channel: Finance: business, administration, retail, economics, banking, shares analysis, investment, (Investment audit research focus), 9th university channel: Transport and robotics,- anti-gravity, superluminal travel, teleportation, robo vehicles, robotics, space probes, satellites, time travel, driving, trucking, shipping, railways, aviation, packaging, logistics, customisation, repair, mechanics, packaging, logistics, mining and exploration, cognitive programming (Transport engineering focus), 10th university channel: Policy: Law, media, child care, education, music, policy, constitution, democracy (Constitution design research focus).

*25mhz spectrum from 475mhz to 500mhz open license spectrum any use to 10 watts.

*3ghz mobile device spectrum (selection of 4-10 last channels to requirements, then dropping of channel with lowest speed (most interference) and replacement with channel having lowest signal strength for minimum interference) from 500mhz to 3.5ghz for (300 channels x 10mhz) for ground tower, lamp posts, and on roof wireless Internet. {4G x50 [5G] using Artemis pCell pre processing signal focusing technology} [Samsung testing 5th generation to 28ghz probably working up to 100ghz, With 40ghz already on the regulators chopping block for possibility of allocation to 5th generation, but pCell and small cell technology would require much less spectrum (100 pCell (devices) per 10 pWave (antenna) cell using just 5mhz: 3ghz would provide much more network capacity than we all could possibly use so we might as well use extra surplus spectrum for additional uses).]

Provision of nationwide spectrum to each ground wireless network builder in Australia in proportion to lengths of 10+ strand fiber and duct construction by the network builder. The user having a billing system able to switch between and connect instantly to cheapest wireless spectrum and cable bandwidth provider. For multiple local wireless micro-node signal boxes (such as in secure safe off road cabinet on community housing land, which is not going to be hit by a car). For internal antenna 10 centimetres or less in length. Maximum power 20watts/channel.

*3ghz mobile device spectrum 2nd use of spectrum (selection of 4 last channels, then dropping of channel with lowest speed (most interference) and replacement with another random channel for minimum interference) from 500mhz to 3.5ghz (300channels x 10mhz) for 1000km altitude low earth orbit 5000 satellite constellation and local 50km altitude stationary drone military and free sharing of spare bandwidth mobile Internet through off fiber grid local tower and direct to dish for remote access. [non interference using Artemis Networks pCell technology pre processing signal focusing at network data center working best in 700mhz spectrum] Low earth orbit military satellite requiring a built in antenna of 10 centimetres or less in length. Maximum power 100watts/channel.

*Spectrum at 1.57542ghz and 1.2276ghz for global positioning system.

*Spectrum at 2.45ghz for microwave oven.

*500mhz multiple use 1:open use to 10watts subject to local council restrictions and 2:high power radar spectrum from 3.5ghz to 4ghz.

*6ghz spectrum from 4ghz to 10ghz for satellite up-links spectrum in proportion to down-link spectrum allocation.

*Spectrum from 10ghz to 11ghz. Radar.

*Spectrum from 11ghz to 100ghz Open use free spectrum such as for spectrum hopping Internet subject to local council and federal minister restrictions. Up to 100mhz per ground (to 100m altitude) user. Maximum power 10watts.

*Spectrum over 100ghz for radio telescopes.

(quantum entanglement network for communications between satellite and 250 regional data centres and for instant deep space communications such as with space craft.)

[Total 5th generation network using Artemis Networking pCell processing and wide spectrum may have 1,000x current total 4G network capacity, progressively between 2022 and 2032 using Rearden DIDO multi transmitter, multi-receiver compound wave signal focusing processing may increase spectrum channel capacity 100 fold by allowing up to 100 channels to broadcast on spectrum concurrently on spectrum used for 1 channel now without

interference x 10x more spectrum (Full 100x spectrum using Samsung 5th generation technology to 50ghz would have had limitations of being blocked by walls, better to use Artemis Networks technology efficient multiple use of spectrum) and 10x more connection and 10x more cheap coverage by allowing instant switching between all provider anywhere in the world from single billing system provider sim account and 10 x capacity from smaller cells plus 10+ fibre roll-out allocating 1 fibre to each of the 10 largest providers by most customers (users) having 50mbps for less than \$1 per gigabyte access most of the time including 5th generation, wifi, and satellite. Fibre owners may also use additional fibre to provide [about 10,000 channels per fiber] multi-cast own choice of definition television]
