

Gundam kits in Singapore that are Ridiculously Cheaper than Retail price

As the hobby of building Gunpla (Gundam model kits) has got tremendously popular around the world, fans of gundam kits in Singapore are often in search of ways they can get gundam kits in Singapore for low cost.

Those who are in the world of gundam for long would tell you how ridiculously the prices for kits and other items related to gundam in Singapore have risen over the years.

Today, while at one hand there are so many places you can buy gundam model kits and other products related to gundam in singapore, many of those are expensive and so many cheap ones are pirated editions of model kits that only ruins your gundam experience besides straining your already tight pocket.

Read below as we tell you how you can get gundam kits in singapore for prices that are unbelievably cheaper than retail prices you will find elsewhere.

HG1/144Qan[T]:

An a posable, high-grade or better injection-plastic kit of an item from the Gundam universe, HG 1/144 Qan is one of the most popularr type of gundam kits that you can possibly find.

Original Bandai, High Grade Brand, new in box and All runner are sealed. From Gundam 00, Awakening of the Trailblazer comes the QAN[T] or Quanta as it's sometimes spelled. The QAN[T] comes with clear parts for the lenses on the face, chest, elbows & knees, as well as 'Sword bits' that come together to make the GN Sword V (in both Buster Sword and Buster Rifle modes).

His GN Shield attaches to his shoulder and articulates nicely.

MG 1/100 Gundam Heavyarms EW

A 1/100 scale highly detailed plastic model kit, this one is a highly popular gundam kit in singapore for years.

Check out the guns on this guy! And the amazing amount of missile pods. Heavy Arms lives up to its name by sporting missile pods on its shoulders, skirt, and legs and if that wasn't enough he also carries around that massive gun! Molded completely in color the Heavy Arms snaps together easily and once finished will stand in a variety of poses.

It also comes with an option assembly for the arm allowing it to store a beam saber handle and a whole lot of markings.

Why break the bank when this gundam kit in singapore can be bought for low cost.

HG 1/144 Gundam Zabanya

From the Gundam 00 movie Awakening of the Trailblazer, Gundam Zabanya is one of the gundam kits in singapore that everyone would like to buy and play with. The Zabaniya will be seen in the upcoming Gundam anime, Awakening of the Trailblazer, but thanks to an exclusive offer, you can get your hands on this mobile suit right now for a ridiculously cheap price. The Zabaniya comes with many 'GN Bits', such as the Rifle Bit II, Pistol Bit, Holster Bit as well as GN Missile Pods! Poly-caps for the joints and marking stickers are also provided.

Sohunt around and buy high-priced items or choose to buy these and many other meone who has this hobby of gundam in singapore has this choice to either gundam kits in singapore for prices that are unbelievably lower than retail rates.
