HOW TO

SELF HEATING MEALS OUR UNIQUE TECHNOLOGY

All of our bags are engineered with a special combination of layers of different materials and sealant to allow an efficient heating process. Our steam vent is designed to exhaust enough steam to maintain the heating process with high intensity and safe conditions.

Omeals

THE CLASSIC

SELF HEATING MEALS

All of our bags are engineered with a special combination of layers of different materials and sealant to allow an efficient heating process. Our steam vent is designed to exhaust enough steam to maintain the heating process with high intensity and safe conditions.

OUR UNIQUE TECHNOLOGY

Activation less than
30 seconds
depending on weather
conditions

Each bag has a
Total run time of
15-20 minutes

Bags reach peak
temperatures above
200 Degrees
Farenheight
