

Hello Jan,

I just wanted to give you some tips for your holidays in Bovec.

How to get to the apartment:

The address is Kaninska vas 4/apartment 17, 5230 Bovec. The key of apartment is stored in the locker before the front door. **The CODE of the locker is: 0207.**

I will turn on heaters before you arrive so the apartment will not be cold when you come. You will still have to turn on boiler in the bathroom to heat up the water (middle button before bathroom).

I will put one more heater in the locker before apartment (white storage space) if maybe the kids will need more heat. If you want you can also put skies in the storage space when you come from skiing.

Internet is available under username: **Bovec Apartment** ; password is: **povezime**

Weather forecast (I hope it gets better):

Bovec forecast:

Mountain Kanin-Sella Nevea forecast:

There are many other attractions besides Kanin – Sella Nevea ski resort in the area. I advise you to ask in **Tourist info center** in the center of Bovec where are other interesting sites, what to do. My

personal favourite is Slap Virje. Maybe one day you can go with your family on a hike there if the weather will not be ok for skiing.

Some tips about skiing resort: try to go on mountain in the morning. I personally like first hour of skiing on Kanin. I hope the kids are already good skiers. Kanin is unfortunately not really good for beginners (it is just one baby lift). Slopes are quite steep. On Italian side (Sella Nevea) on the bottom of the hill are more appropriate slopes for beginners. One more tip. Snow in the afternoon is better on Sella Nevea side, because of shady location, but on Kanin there is more sun :)

If there will be any problems, questions, I am available on telephone number: +386 31754630

Enjoy your staying! :)
