

Statement from the Ordo Mizbe'ah

We have decided to issue this brief statement for general public circulation; we hope it will clarify a few misunderstandings about the O.M.

Firstly we must emphasise that the Order is not an occult training group, we are a group of experienced sorcerers magicians, psychicks, shamans, and witches. Our occult system is extremely specialized and it is not suitable for your average armchair occultist.

Secondly, much emphasis is made on the fact that the Order's HQ is based in Dorset, England, this by no way means that we are cut off and isolated from the worldwide LHP community, we have members in Croatia, Serbia, US, France, Republic of Ireland, and of course in England. Do not be put off by the fact that we are an English Order, our gnosis is always waiting for you wherever you may be on this planet, our system operates as an invisible psycho-etheric web that stretches over the entire planet, with hot points so to speak where members of the Order are operating by themselves in their own area. This magickal ultra-cultural symbiosis is what keeps the High power of the Order channeled.

Right, now that we have cleared up a few of the basic facts about the O.M. it's time to clarify the degree structure and the roles of the members.

There are only two Outer degrees within the Order,

Priest (1°=10)

High Priest (2°=9)

The Magister is in effect beyond all degrees. There may also be other titles bestowed upon certain brother or sisters of the Order under special circumstances.

There is simply no point in asking questioning about the nature of our practice as it is part of our sacred code of silence, there's a lot that even first degree members don't know. I will try to be helpful and tell you this though, our principle concern and core practice has to do with the psycho-alchemical changes instigated after Human to spirit contact. Our Order is a unit of like-minded and powerful witches who utilise various eclectic praxes from Thelema to Traditional Witchcraft, we utilise such an array of practices in order to perfect and master our individual method of gaining contact with external spirit entities.

For now this is all we are willing to reveal publically.
