Summary:

Web Application Developer experienced with JavaScript and various front end technologies.

I am an individual who embraces challenges and who loves to continually learn.

I am adept at dealing with adversity and performing under pressure .

Technical Experience:

Software Developer (Contract), 2/1/2017 - Present

City Of Los Angeles Department Of Housing - Los Angeles, CA

- Redesign and merged several legacy databases into a single SQL database.
- Develop a web-based application for efficient data upload, manipulation and querying.

Front-End Web Developer (Contract), 11/15/2016 - 1/15/2017

Evict Ya LLC, Pasadena, CA

- Developed front-end interface from wireframes.
- Tested user experience.

Education:

- UCLA Full Stack Development Program, 2017
 - 24 week immersive full stack program, with project oriented curriculum
 - Technologies implemented and trained in:
 - HTML5, CSS3, Bootstrap, Material Design, Handlebars JS, EJS templates
 - JavaScript, JQuery, React JS
 - NodeJs, Express, Firebase, MongoDB/ Mongoose, MySQL/ Sequelize
- Bachelor's of Science: Business Administration and Marketing, Warner Pacific College, 2012

Non-Technical Experience:

Previous to a career in web development I played professional basketball internationally, teaching myself programming on my spare time. Upon retiring from basketball I started working as an elementary school teacher and focused further on learning programming. I have ample experience dealing with adversity, working under pressure, individual, team and project management, team leadership , resolving conflicts in a team environment, and managing egos. I can quickly adapt to and perform in new environment.

- Professional basketball player, 2012 - 2016
- K-5 teacher, 2016 - 2017
- Freelance basketball skills coach/trainer 2012- present
