### EED 420 Week 2 Curriculum Map

Resources: Appendix section of Teaching Science for All Children, University of Phoenix Material: Curriculum Map Template, and University of Phoenix Material: Week Two Curriculum Map Sample – Unit  
Locate your state standards from the Department of Education website. Complete the Unit column ONLY of University Material: Curriculum Map Template using your state's science standards. Complete the following steps:

Select a grade level.

Read your state's science standards for the selected grade level.

Locate the national science standards in the appendix of Teaching Science for All Children. Read the national standards for the selected grade level.

Identify specific units that align with the state standards, such as ecosystems, weather, or rock cycle.

Identify specific units that align with the national standards.

List these in the Unit column of the Curriculum Map Template. Include a minimum of four units in your map.
