

# Pat's Photo System

1. Take photos with Olympus or iPhone
2. Use card adapter to transfer photos from Olympus to iPad  
*OR*  
Use AirDrop to transfer photos from iPhone to iPad
3. Store, edit and organise photos on iPad
4. Each fortnight, connect the iPad to the study computer via USB and the photos will move across to the computer and the iPad will be emptied
5. Once on the computer, the photos will be automatically uploaded to the Google Photos iPad app for future viewing
