

All About Aliens And Conspiracies

The illuminati agenda is a multigenerational agenda over thousands of years and it's sophistication surpasses both human intelligence and nature/capabilities. Globalists are actually Aliens/Demons/Djinns/Interdimensional Entities (same entities that go under various names) and pose as humans. Whether they dimensionally project themselves into 3D being 4D entities themselves or possess/bodysnatch 3D human bio-suits, or them being 3D polymorphs. Them and humans cooperating with them in exchange for promises of power, survival and life extension selling out Humanity in return.

It seems that we are dealing with different phenomenon and entities:

1. "Body-snatching" of former real people/housing for that purpose bred clones/bio-suits, vessels to access the 3D realm (alien mind parasite, 4th dimensional entity attachment/hosting)
2. Non-physical 4D alien projectors (Steve-O shapeshifting)
3. Physical polymorphic aliens (Species 8472 Star Trek, Aliens in "The Arrival")
4. Physical aliens using hologram technology. (Anonymous Rex)

It's a possibility that they murder the real person at some point with the switch-over going unnoticed due to their extremely well developed abilities to immitate and act as impostors, or they were aliens from the beginning.

Hydra/Illuminati/Globalists/Brotherhood of the Snake/Spectre/Cobra/The Crazy 88/The "Elite"

Different names for the same organization, that basically are alien special forces. Negative Alien collectives are struggling over finite resources hence efficiency needs to be maximized.

The horse head nebula in Orion was discovered (that's where they come from) by Williamina Fleming (An anagram for Ian Fleming the author of James Bond), Jack the Ripper murdered in 1888, Monster Blizzards, Sasha Grey (alien) was born 1988, Conchita Wurst (Baphomet) was born 1988, the CERN collider has 88 in it's logo, the ebola virus was depicted as 88 strand, the illuminati were officially founded 1776 - that's 2x888, the secret doctrine was channeled to Helena Blavatsky 1888, the all-seeing one eyed Kodak camera was invented in 1888, 88=HH=Hail Hitler, THEY LIVE and Alien Nation were released in 1988, and on and on.

Hence the "Crazy 88" (as mentioned in the movie "Kill Bill").

The Da Vinci Code

For those that want it shortly summarized – what is the Da Vinci code and what is revealed by it?

What the Da Vinci Code is, are in Da Vinci's paintings, drawings, etc. hidden separate drawings with separate themes. There are different 'codes' basically being different ways to mirror/move/position/view the drawings in order to reveal the hidden drawings.

What the Da Vinci Code reveals is knowledge about malevolent higher dimensional/extraterrestrial entities operating on planet earth. Who these entities are, from where they come from, their genesis and what their involvement in human affairs is.

The da vinci code is several codes that reveal several secrets. Secrets of the past, secrets that go beyond earth and secrets from beyond this dimension. Also secrets about the future, our future.

Leonardo Da Vinci isn't a real name, it is a made up name, an alias that when re-arranged (anagram) reads as "O Draconian Devil", which is what Da Vinci was, a draconian reptilian. One of benevolence, that put all these secrets into his art to keep the knowledge alive and accessible to all of mankind, at least that's my theory. Though it also could be some kind of karmic fulfillment obeying metaphysical law, etc. I don't know.

Da Vinci is a figurehead of scientific progress.

He is one of the most recognized and generally adored universal geniuses in history and one of the greatest artists of the Renaissance. And it's well known that Da Vinci used mirror techniques to create his drawings (read on wikipedia) as it is generally anticipated and easily believed by most that he hid secret messages in his art.

So there is no debunking this. At least not the definite hidden drawings, some of my interpretations are open for debate, but a devil above a dragon above a reptilian is a devil above a dragon above a reptilian (Vitruvian man) and there is nothing to debate about that, period. It is what it is.

Sauron/Satan/Saturn

Sauron Lord of the Rings is a reference to Saturn/Satan/Sauron and the rings around Saturn. Sauron is a really existing interstellar entity, a "vast cosmic intelligence, born of amalgamated ancient civilizations, and freed from the limitations of material existence", as described in 'Childhood's End' referring to it as the 'Overmind'.

Just as the Orcs are real. Orcs, Reptilians or in H.G Wells "time machine" the Morlocks. Reptilian beings that live underground (underground bases, cities, tunnels) that feed off the surface population.

The 'Ring' of Sauron symbolically stands for the New World Order, the world government. 'One ring to rule them all'.

Saturn is an inter-reality peephole used by Sauron who resides in dimension X to look through it with his eye, hence the all-seeing eye.

In this world, truth is fiction and fiction is truth, it's reversed. What we see on the news either didn't happen at all, was fabricated (Sandy Hook) or if it did physically occur it is reported on in a twisted way.

Is it aliens or demons, or are aliens demons?

My current conclusion is that there exist aliens, demons, aliens possessed by demons, and demons who mimic aliens. That's the only way I can account for all the data. If humans can be possessed by demons, why not aliens? If demons and negs can induce hallucinations, then why not disguise themselves as aliens sometimes (or the Virgin Mary, or Archangel Michael, or Sananda, or Ashtar or whomever). All these things are possible.

I don't believe all aliens are demons in disguise because aliens and demons have different methodologies, goals, and metaphysical signatures. When a demon mimics an alien, it can do it in certain superficial ways, but not in all ways. It can't make a ship with reverse-engineerable technology fall out of the sky, at least not the demons some of us regularly encounter today.

I mean, if you had to adopt the Biblical approach to alienology, then you would have to admit that some reported aliens are actually angels, since some Nordic encounters are identical to the Biblical anecdotes about the Sons of Man, and the Sons of Man were not demons but messengers of God. But those who have personal experience know that aliens and angels are different classes of beings too. Thus demons and aliens should also be different.

However, there are intersections or overlaps. I drew up a list of typical traits of the different categories. Here they are.

Aliens

- can give advanced technology and scientific knowledge to human elite groups
- can hybridize their DNA with human DNA, thus they have DNA.
- have ships that crash or can get shot down, tracked on radar if they so desire, videotaped.
- bodies allegedly recovered
- multiple eyewitnesses of sightings, abductions
- physical traces left on the ground. Burns, radiation, flattened grass, etc.
- known to engage in aerial dogfights, battles, ships on fire, crashing, explosions, smoke, etc.
- divided into various political groups, divisions, factions
- have a certain psychic signature unique to aliens
- carve out bases underground, underwater, inside mountains, some fully physical.
- have left behind relic alien technology (ark of the covenant, grail, ancient aliens stuff, etc.)
- some can walk among us undetected, fully physical, normal acting.
- some use technology like blue beams to phase/levitate
- abductions have a long-term strategic point.
- abductions or visitations can teach ethics, psychic skills, healing abilities, survival knowledge, PR training, etc.

Aliens Possibly Possessed by Demons

- can engage in physical abductions
- can perform physical rapes, with trace material left behind

- have technology, ships
- technology seems cruder, ships not clean and well lit
- abductions appear to have no long-term strategy, rather they are charades for sadistic torture
- they are opportunists, seem to prey on the gullible, spiritually exhausted, or the openly inviting.
- seem to mostly be reptilians,
- can't walk among us without sticking out, and use remote human-like avatars that don't seem well put together
- may be associated with Men In Black
- multiple eyewitnesses, physical evidence

Demons Mimicking Aliens

- can appear gray or reptilian
- nonphysical
- use the methodology of demons/negs: hover around, psychically interface, induce hallucinations
- no third party witnesses or video, whole scenarios play out inside the mind of the victim
- no physical traces beyond what ghosts can do: blow out light bulbs and electronics, poltergeist, show up as smoke on film, etc.
- opportunistic, sadistic, feed a bunch of B.S. for the sole purpose of getting a kick out of running a victim ragged
- seem focused on control, ownership, turning victim into a pet toy or parasitic host
- same demon-like methodology dressed up under various background stories/scenarios: not always alien, sometimes religious or whatever works
- the alien aspect of them seems borrowed or poorly mimicked. No underlying realness or technological self-consistency, as made up as that of a hoaxer.
- have a non-alien psychic signature.

Demons (when witnesses in their true form)

- no reported use of technology, devices, clothing
- blackish or dark brown nonphysical body, shadow beings.
- no DNA traces, hair, semen samples from demon rapes (unlike humanoid alien ones)
- can create physical bruising and cysts via psychic means, but not implantation of technological implants

- don't employ flying ships, except when seen that way via psychically induced hallucination. Such 'ships' don't impact physical environment.
- not known to be divided into opposing factions with complicated political tensions between them
- non-alien psychic signature
- no physical body of a demon has ever been found, examined, or reported
- don't use blue beam technology during encounters
- don't take the physical body of the victim anywhere, maybe just snatch the soul away at best.
- aim for contact, control, and ultimately direct and full possession.

--

None of this rules out the idea that aliens and demons (or fallen angels) aren't related in the distant past. They could be. That idea is more sophisticated and in line with the data points, than the popular one that aliens are identically demons.

What is the role of the Jews in the Illuminati New World Order?

The 'Jews' issue is legitimate up to a point. Everybody knows these picture lists full of media and company CEOs and cultural marxists with proven jewish background, and the crypto-jew thing, etc.

But the scale and the complexity and depth of the conspiracy goes far beyond that. You know of the difficulty of educating ignorant people to the jewish issue, to get them to 'open their eyes' widen their perspective to see the whole picture. Well, once you widened your perspective to the jewish issue you need to continue, because there are several levels beyond that.

Jews are mid-level minions inside the global (and beyond) illuminati pyramid. They, just like every other race have reptilian hybrids among them, have demonically possessed Avatars among them.

Jews don't have large black slit-pupils coming out of their heads. And jews don't have a robotic demeanour. And it's not possible for tens of thousands of jews to keep total secrecy about something conspiratorial.

The bodysnatcher aliens can keep that secrecy! Because their individuality is suppressed by the hive-mind they are attached to. And they are in ALL human races. Conspiring with each other against humanity.

Jews don't travel interdimensionally in UFOs. Jews don't build underground sea bases and facilities on the moon. Jews don't rearrange the rings around Saturn in gigantic crafts. Jews don't rage hyper-dimensional warfare against humanity from behind the dimensional veil. Jews don't operate from outside of linear space time and don't abduct millions of humans to create grey alien hybrids.

Jews don't do any of these things! Researcher like you are outsmarted by the true conspirators.

The Juden are global scapegoats, minions, thoroughly programmed to suit their role, they are used and israel was created to destabilize the middle east and ignite a world war of radicalized islam vs the

west and then be done away with in a nuclear holocaust. That's the plan, revealed by master mason Albert Pike, a white man.

What about the Nazis?

The creation of Israel was made possible by the Nazis. And the Nazis weren't what you think they were either. When people think "Nazis" they refer to the political ideology of national-socialism, to the Wehrmacht, to family values, to opposition against the banking system, etc.

But that's not what Nazis are. Not at the top. The Nazis were a sprout of the Hydra motherplant who are luciferian reptilian space aliens/interdimensionals that use different political ideologies and then movements as carrier, as trojan horse to create crises then introduce solutions in order to politically geo-engineer the planet in order to set up a world wide technocratic total surveillance/control system.

The Reptilians were also behind Communism. And now they are in america and hide behind the democratic party and a black guy, who isn't a black guy but a green lizard guy from space using a with ancient egyptian royalty DNA cloned 3D bio-vessel.

And they are behind radical islam and 'ISIS' and all of these hoax events with crisis actors (who are also bodysnatcher aliens) to destabilize the world to a point where more and more control will be asked for.

The globalists, who are space aliens from the horse head nebula, sirius, draconis and other locations in orion are behind the creation of israel and ISIS and flooding white countries with immigrants, and exploiting africa and collapsing the US and attacking russia and all of it.

They are behind all of that for the goal of creating the New World Order.

Artificially created human zombie agents

Most don't have understanding. Most parrot what source psychologically overpowered and dominates them.

Example: Vaccines

They watched 15 videos that all told them that if they believe so and so it means they're superior sceptic/atheistic/critical/intellectual/trendy/sexy insiders. And then they go out to repeat it and have endorphins released for satisfying their with subliminals/supraliminals/associate clusters subconsciously implanted perception of being superior "critical thinkers".

It's pavlovian dog training applied to humans. Exercised by an almsot entirely corrupted media getting their talking points from black op commando psychologists in CIA, Navy intelligence, Pentagon and other such institutions.

They are a with 21th century high-tech psychological warfare created brainwashed and animated weaponized propaganda zombie infiltration agents.

If you want to stop being that, read Ecoscience by John P Holdren the scientific advisor of the Obama administration who says that they put poison into everything to braindamage humans.

THEN you'll have understanding, when reading what the actual rulers of this world have to say. Not some trendy youtube channel moderated by some squeaky 30 year olds that dress like teenies and all have psy op degrees from the CIA.

Where is the proof/evidence for aliens among us?

Anyone with common sense acknowledges this possibility, anyone with an open mind will research the subject, and anyone with open eyes who does the research will confirm for themselves that aliens exist, have been active in our past, and continue to be actively involved in human affairs today.

Skeptics tend to be ignorant and refuse to examine all the evidence, closing their eyes and claiming they don't see any evidence that aliens exist. The Fermi Paradox, or "if aliens exist then why aren't they here" is like a blind man asking "if the sun exists, then why don't I burst into flames when I step outside." False assumptions and lack of perception stemming from lack of proper investigation. In truth, ignorance is never proof to the contrary, and seeming nonexistence of evidence isn't evidence of nonexistence.

There is evidence for the alien presence and involvement in human affairs that are of a materialistic nature, perceivable by the 5 senses.

If you don't 'see' them it's because you choose so, not because they wouldn't exist. "Evidence is everywhere – from worldwide accounts commonly describing ancient encounters with advanced beings, anomalous archaeological sites and artifacts indicating past use of superior technology, over a century's worth of eyewitness sightings of UFOs, hundreds of physical trace samples recovered from UFO landing sites, government documents and whistleblowers acknowledging the existence of extraterrestrials, and thousands of abduction cases that include multiple witnesses, memories recalled without hypnosis, and indisputable physical and medical evidence confirming these accounts."

And in modern days we have technology which allows for sophisticated video analysis at hand that reveal unexplainable anomalies within the scientific dogma of our time.

Have you watched the latest shapeshifting video of Miley Cyrus with her irides turning into thin slits? Same with Britney Spears. Two recent very distinct shapeshifting anomalies.

People who dismiss them do so because their world view doesn't allow for acceptance so they just claim it's fake because it must be.

But it's hopeless, they can't be explained away with video anomaly.

It's just simply two shapeshifting entities disguising in human form.

The Alien Hive-Mind

These aliens are connected with each other in a collective group mind (think the Borg hive mind). Individuality is heavily suppressed among individuals (Borg drones). The Hive "Queen" seems to be Saturn (the all seeing eye). Described in-depth by Philip K. Dick and in "Allies of Humanity".

As soon as you are able to see them and aware of their global conspiracy, all of them will know.

How to meet one of them?

They are all around us to monitor and control us and feed on us (energy vampires). And they are appointed to and maneuvered into (via artificial synchronicity) the life's of those that have either system-destabilizing capabilities or talents the alien controllers would like to employ for themselves such as:

High intelligence, psychic abilities, social skills, great eloquence in speech/writing, high creativity in arts, high psychological resilience, lateral thinking, strong psychopathic tendencies, highly developed empathy, non-conformist reasoning, etc.

In order to monitor, manipulate, recruit and/or destroy them. Politically/Lawfully, Psychologically, Spiritually, Emotionally.

They are always eager to learn more about you. Sometimes via various social proxies (situations, incidents, etc.) they manipulate to come about, other times they just ask you directly. They are obsessed with what you think, always. They want to know how you work. What seems to be unusual adoration, love, deep friendship, high interest, great affinity, actually is an alien studying you like a lab rat in order to destroy you/recruit you and those that are like you/apply their knowledge with others in similar situations, with similar character traits, etc.

Sexual intercourse is one of the most efficient ways to parasite off etheric energy. And it allows for exhibiting dominance and degradation and is also a tool of warfare in an abusive relationship that has the sole purpose of psychologically, emotionally tormenting a human.

They seek to interbreed with humans.

This planet is a reptilian farm, but often times they can't just kill people who incarnate into it in order to destabilize the control system. This is against universal law and would come with karmic consequences for them. Hence these people are being worked on for self-destruction and for research how to deal with the resilient nature of such "system busters", or "divergents". And for that purpose these individuals have matrix agents appointed to them. Who are wolves in sheeps clothings (dracos). You can call them handler.

And interbreeding and having offspring together of course makes the human subject much more controllable and more easy to destroy. Divorce, Child-support, all that can create the trauma needed to give the divergent the final push and remove him/her from the game.

They are very patient, they are extremely self-controlled, they are long-term planners. They are able to stay in their role for many years and slowly and patiently undermine people in order to eventually drop the hammer and harvest you (that harvest thing happens both on an individual, group and planetary scale). They seek to cause you extreme intellectual/financial/emotional/psychological suffering. They are like slowly metastasizing cancer.

They either want people to join them, join them in order to gain you as an asset or to have the legal metaphysical right to terminate you (instantly in many cases). Or they seek to corrupt you psychologically/spiritually. Or grind you down psychologically/emotionally over time.

That's their purpose.

How exactly do they work on people?

Briefly, they try to make you finish yourself off by preferably suicide or at least render you unable to cause their agenda any potential or factual further damage because of financial or mental ruin. By either being hospitalized into a mental institute or ending up homeless.

First step in more efficiently working on you is to get you socially isolated, without friends, without family support. They will try to criminalize you by tempting you with too good to be true illegal business-promises or outright robbery or murder or just getting you involved into aggression release vandalism after they manipulated you into building up these aggressions.

They are eager to get you to give them personal objects and worn clothings out of free-will. That doesn't happen for romantic/pheromonal reasons but to collect genetic samples from you. Used in black magic rituals and sent to their laboratories in order to misuse it for sinister purposes.

They also want pictures and videos of you. As many as possible. It's sophisticated multi-level psychological/social/spiritual warfare.

They don't like you to show/follow your interest into the alien topic (obviously) and any topic that deals with the true nature of reality on earth. They don't like people becoming aware. They will try to divert you from investigating and asking too many questions.

If you start holding firm beliefs that challenge the official matrix version of reality, they will try to convince you that you have mental problems. And if you can't be convinced they will inform your family and friends behind your back.

They always go too far. This is because they judge you by their own standards (which are extremely low) and because they are excessively arrogant and believe humans to be ridiculously stupid.

Some examples:

-If you are highly intelligent, they will try to convince you that you are clinically retarded.

-If you are objectively physically very attractive, they will tell you that you are the ugliest person that ever walked the earth.

-If you are kind-hearted, good-spirited and friendly, they will try to convince you that you are morally bankrupt and demonically evil.

They seek to undermine your self-confidence and self-esteem and self-worth. They absurdly overstate. They can't help it, they are greedy and just want it all. They ARE patient long-term planners, but during the final push, the final attack to finish you off or before they get burned by being exposed or suspected to be "strange in some way" (when you, the target, wakes up) they are prone to completely screw it up. As good as they are, they don't have perfect timing, they don't have an ultimate strategy, they do make grave mistakes.

And to sum it all up, they just can't help it - they always go too far, because that's who they are.

Who are their loyalties with?

They are not like us and they don't like us. They are not your friends, they are not your lovers, they are not family. They are not loyal to you, but only to their alien father race. They are genetically related to the aliens. They have this Dr. Jekyll and Mr. Hyde thing going on transforming from reasonable, calm, to extremely vicious, devious, cunning, hurtful, selfish, obnoxious within literally seconds. They can't be trusted.

They cannot be argumentatively converted, they lack emotional comprehension, and they have a very strong imbedded sense of superiority over humans. They are just what they are.

Remember the fable of the frog and scorpion with the frog foolishly transporting the scorpion over the river on his back and the scorpion stinging the frog half way, killing the frog and causing them both to drown, because it's in the scorpion's nature. The scorpion can't help it, and neither can they.

How intelligent are they?

There are three kinds of them.

One kind is highly intelligent (Average IQ range of 120-150), psychic to a certain degree (some extremely, others just somewhat).

And then there are others that have very low IQs.

Why there are these two drastically different classes with one highly intelligent and the other clinically retarded, and a missing average intelligent group -probably they are different species, entities, or bred casts, or deployed for strategically preying on different human percentages, etc.

Both are socially awkward like they were just recently released from a laboratory test-tube. This also has various degrees. Some have little comprehension of how life works (What's a phone-book? A pen? Never heard that before..) others just have a few blind-spots, most of them about the divine elements of life (Why would you want trees in your garden? Why worry about a dead cat?).

And the third kind is each of the former two kinds with a second layer of intelligence both have access to. Either the alien hive-mind or Sauron or entities operating them. This second layer of intelligence is much more intelligent than the first.

It allows the retarded aliens (IQs 50-70) to formulate sentences with much more sophisticated eloquence than their natural intelligence would allow them to.

The naturally intelligent aliens (intelligent host bodies) also exhibit an intelligence that by far surpasses their limits when linked with the second layer. An example: "Repartee is something we think of twenty-four hours too late." (Mark Twain).

These hive-mind/entity operated alien hosts need just seconds to find the perfect repartee that isn't just witty and smart and vicious in a general sense but out of all the variations, all the possibilities is the most logically flawless, the one with the most efficient preying on the flaws of your line-of-reasoning and the most emotionally hurtful they could have said. And they can make them up before you even finished your thoughts and as many of them as they want.

What level of intelligence is required for such tricks? I don't know but it's pretty damn high. (Think of an extremely cunning and malicious telepathic Will Hunting).

How does one recognize them?

The highly intelligent ones have a particular look. Not all the time, but in situations of assessment or conflict. It's a cold predatory piercing stare. Shark eyes, and a wide no teeth showing smile like that of a pig. A predator focusing you while "smiling" to appear harmless.

The mentally retarded ones have the small dark passive eyes of pigs. They are like lower animals inside human bodies. Compared with humans with down syndrome(IQs of 50) it shows that they lack a spark of divinity. They are not just clinically retarded, they are something VERY else. Something degenerate, odd and evil.

They are energy parasites. Therefore they are usually always depressed, always in need for your help without ever applying the advice you give. They are constant downers and want to keep you focused on them. You'll feel burned out, drowned of energy especially in their direct presence but also if you just have them in your social circle, be it that they live on the other side of the world, alsong as there is an energetic connection they can parasite you. Energy flows where attention goes (despite the geographical distance between host and parasite).

How does their telepathy work?

As Carlos Castaneda said "The alien predator gave us his mind". That's the R-Complex which the reptilians installed (or over-stimulated) in the human brain in order to have a psychic connection to us. It's their telepathic inter-link into the human mind.

They can read our thoughts in real-time and access our memories like a library and read our emotions.

They like to repeat our thoughts to us verbally immediately after we had them in order to mirror us. Mirroring is a preferred because powerful weapon the aliens use. By mirroring someone you suggest the person that they are just like you and this makes them more trustworthy in your perception. They do this via mirroring ideas, body postures and also thoughts.

They also do it for sadistic fun, because they know that most humans are in a near comatose state and don't pay attention.

They can manipulate emotions, make people experience desire, depression, agony, aversion, etc. These are capabilities they can exercise in person to person encounter. The aliens under controlled conditions during an abduction event can exercise much greater manipulations. Make people lose their appreciation for another person. Make people repulsed by others. They are well known to switch off love relationships and ruin friendships, etc.

But they can't telepathically manipulate you into believing that $2+2=9$, etc. or generally access nor manipulate higher lines of reasoning, meta-thoughts, deep-seated convictions and ethical concepts/boundaries, nor violate your free-will by giving direct telepathic commands. They are limited in what they can do/are allowed to do.

They also can't precisely distinguish between different kind of thoughts. An example:

Let's say you watch some car racing on TV and out of boredom have some daydreams about becoming a car race champion or whatever. If an alien/alien hybrid mind-scans you it will think these daydreams are who you really are and what you truly desire to be. They don't know that it's merely insignificant day dreams that matter zero to you and are just phantasies of no importance.

And if you are a target they then will create artificial synchronicities with their matrix agents showing up in your life preying on that insignificant phantasy. Either a woman stepping in your life telling you how much she like cars or how masculine car racers are. Or a guy telling you that he really likes collecting car models or that he restores old cars or that he likes to drive mini-car, etc.

They take everything at face value.

They are robots and they try to understand you as if you were a robot as well. And that is why they appoint their agents to real humans to try and comprehend spirit.

They can't and never will be able to comprehend the mental nature of true humans, because the core mental processes of true humans come from spirit, from consciousness which they won't ever be able to comprehend nor manipulate.

There are stories of people who were taken by the Greys and then placed before a screen that showed a human brain and then were asked by the Greys: "Where is the soul"?

As soon as you are aware that there is a game being played with you, the game is over.

They can access and manipulate your lower brain functions but not the higher. And once you have the knowledge that the individual next to you is a psychopathic alien manipulating you telepathically, it can't do it anymore.

Humans can shield themselves against the effects of alien telepathy by wearing so called "thought screen helmets" (not out of aluminum, this probably eve amplifies the effect) made out of several layers (8-12) of anti-static foil.

How do they behave?

Psychopath and Sociopath are Code-words for alien hybrids. They have extreme contempt for humans and are sadistic and cruel. Some of them successfully wear masks and as long as they are not discovered they appear to be polite, charming and socially elegant.

Once you discover them, or if they just suspect you of coming close to discover what they are, they drop this mask and show their true contempt and behave utterly hostile, obnoxious and rejecting and seek to avoid you from this point on or plot to get you out of their way (being fired in your job, or they sabotage you to get excluded from your friends-circle, etc.), but usually they are the ones that will evade you to avoid possible ongoing conflict and exposure.

"I've got one that can see".

What other abilities do they have?

They are psychic, not just telepathic (psychic is the umbrella term for various mental abilities). They have also telekinetic abilities (manipulating matter with mind), and they have electrokinetic abilities

which allow them to influence electronics. They can hack/bypass computer passwords and they can cause your camera to malfunction, etc.

Alien psychology

“Psychopathy” is a code word for alien hybrid. They are natural born psychopaths. They have no genuine true human emotions, no emotions at all. They are void of emotions and lack comprehension of emotions. That is the reason why these so called “crisis actors” are such horrendously bad “actors”. They are bad in acting emotions because they lack true comprehension of them. They try to imitate human emotions via mimicry.

Alien social behavior

Smirking, giggling, fooling around, monkeying, ridiculing. Their social behavior is extremely sociopathic/psychotic/psychopathic and very infantile.

They enjoy to cause people trouble. Setting traps, causing chaos, disturbing, interrupting, etc.

Alien shapeshifting disguise

When in person, they can be forced out of their holographic disguise by the vibrations created by truth. How you express this, what words you use doesn't matter. The higher the dosage of truth, the stronger the effect will be on their disguise.

If you get really angry and shout at them that you know what they are and that you DEMAND that they reveal themselves (and really mean it), they will shapeshift in front of you instantly and there is nothing they can do about that.

They also lose the ability to hold human form when exposed to the odor of human blood (Which they consume in order to hold human form and not snap back into reptilian form).

Barack Obama

Is a (or several) in a cloning tank with ancient egyptian DNA (Akhenaten) bred 3D bio-suit for a 4th dimensional reptilian alien/demon. The entire Obama family was cloned with ancient egyptian royalty DNA. "Obama" often is seen with appearing and magically disappearing scars on his head. Clones are known to neurologically break down at some point So probably that's signs of neuro-surgical maintenance or he switches his bio-suits.

Obama is a reptilian just like Napoleon and Stalin and Hitler were (still are in Hitlers case, he's alive).

What they all have in common is that they are foreigners that hi-jacked a nation from the outside.

Napoleon - Corsican

Stalin - Georgian

Hitler - Austrian

Obama - Indonesian/African/Egyptian. (Who knows)

That's the reptilian modus operandi. Their personal path to power and take-over of a nation, they then use to invade other nations, must be an act of invasion/infiltration itself it seems. If that's some sort of metaphysical law they follow or simply a sport to them, i don't know.

What else all three have in common is that they want to conquer russia.

Napoleon tried and failed. Hitler tried and failed. And now Obama is about to try it. Unlike the two snakes that tried before him, this time with nuclear/ultra high tech weaponry.

War (beyond all the made up nonsensical political distractions and by reptilians engineered crises) is basically just an energetic banquet for higher dimensional negative entities who feed off the vibrational energy of death, decay, horror, fear, etc. Earth humans are being manipulated into going to war with each other by the reptilians that control the states. They are wolves in sheep's clothings, assuming human form but actually being reptilians.

As for what we see in this video. That suspiciously looks like an etheric grey alien (demon, interdimensional being) jogging. A similar video is: Interdimensional Being coming in and out of third dimension?

These entities are always swarming around the snakes. Lately several demonic, ghoulish entities were sighted around/behind Obama. Some of them likely have a handler function to psychically influence or transmit speeches, stabilize his verbal abilities, etc. Obamas speech he gave back in 2013 about invading Syria was untypically fluent with that little grey-beige goblin behind him.

Crisis Actors

"They work for the CIA", "They do it for the money". NO! No they don't. It's simply a childish assumption that all these thousands of people from 5 to 80 years including whole towns, involved in these staged events would conspire against the whole planet for some tens of thousands of dollars individually. None of them ever talks, not one of them ever falls out of role, not one of them ever goes public trying to get even more money out of a book deal or media story, etc. not one of these individuals ever gets drunk and spills the beans on the internet. None of them ever displays a typical highly irrational human quality. Humans are emotional, irrational beings.

Yet these individuals never make any typical human mistake, why is that? Why do they behave so unhuman? Because they are not humans. They don't behave like humans because they aren't – it's that simple.

There are three levels of awareness:

Level 1: Mainstream - The sheeple

People on this level believe everything the mainstream media tells them. They don't apply critical thinking, they are barely conscious and basically act like receivers for government transmissions.

Level 2: Hoax events orchestrated by "Crisis Actors" - The 'truthers', people in the "truth movement".

People on this level see through the lies of the official version of things. They realized that everything the mainstream media reports on either didn't physically occur at all, or not in the way they say it

did. They believe that these hoax events are staged by human crisis actors hired by CIA, NSA and the other usual suspects in order to path the way for certain political agendas.

Level 3: All so called crisis actors are actually aliens as depicted in as fictional movies disguised real life documentaries like They Live 1988, Invasion of the Body Snatchers 1953/78/93, Invasion 2007, The Host 2013, or described in the book of Susan Reed "The Bodysnatchers", or described as by the ancient christian gnostics in the Nag Hammadi library texts, translated into modern language by John Lash in his book "Not in his image".

Those on level 2 behave towards those on level 3 the same way as those on level 1 behave towards those on level 2. It's the same narrow minded, uncritical, ignorant behavior, and rejection to even even listen to their arguments, it's the same mentality of sheep they criticize those on level 1 for.

Being a sheep is not related with how much you know, it's a mentality, a state of mind about the willingness to get to know more or the unwillingness to get to know more.

The individuals involved in these artificial reality events have snake tongues flicking out of their mouths and blinking frequencies of 150+ times a minute, and they display shapeshifting anomalies on video, etc. Not all of them exhibit the same anomalies or with the same severity, but all display non-human features/physiology and all of them behave non-human, inappropriate body language, comments, not able to display nor comprehend human emotions, because THEY ARE NOT HUMAN BEINGS!

They are not actors. Acting is not what they DO, acting is who they ARE.

We are in the final phase of an alien invasion. Period. Accept it!

Now go and watch those hollywood movies I mentioned above and then compare them with our so called reality and realize what's going on.

We are dealing with in a hive-mind organized bodysnatcher alien networks (crisis actors) that conspire against humanity and create false reality events. Such as 9/11, sandy hook, boston, etc.

It's always entire families involved. If one is fake, the others are as well.

These hoax events orchestrated by the bodysnatchers are easy to identify:

1. Large handheld pictures of the alleged victims
2. No tears
3. No genuine human emotions/behavior
4. Skipping through grieving process and instantly forgiving offenders.
5. Instant political activism for gun-control, restricting traveling, and/or fundraiser campaigns asking or large donations.

All these "Sandy Hook Actors" are reptilian hybrids/cain seedline. The sandy hook incident was an orchestrated psy-op as part of a larger agenda.

The question is why would all these families go along with this psyop? How did they accomplish that?

Why? Why does not a single one of these "crisis-actors" spill the beans? There must have been hundreds of individuals involved. They evidently walked in circles around the area. (swarm-intelligence?)

I adress those of who you believe this event was staged. Why is not one of them talking? Because they have been threatened and fear for their lifes?

There are dozens of cases in mafia trials, where even high profile members of the 'Ndrangheta (almost exclusively clans in which all members are directly family related) turned into crown witnesses and testified against their own mothers, fathers and siblings. Even though they have to hide and run for the rest of their lifes and likely will get killed anyway at some point.

We have military whistleblowers from deep black projects that spoke out regardless of coming from a state of pure terror and fear about what is being done to them and their families in case they get caught.

We even have "traitors" in the darkest, most controlled, most fear loaded areas of human society. YET, these "crisis-actors" - total silence. How can this be?

How is that possible? Those of you who believe sandy hook to be a staged event, you don't really believe that this was the first staged event, do you? Boston Bombing, Kenya Mall, Aurora. All these events were staged. And what about all the "catastrophes" and "terror attacks" before, world wide? How many of them were real events? YET, none of the involved "actors" ever talks. Why is this? How can that be?

Humans love to gossip, chatter, feel special, like being listened to, be the center of attention. And some humans do have conscience, empathy, feel remorse. YET, these "actors" - total silence. ALWAYS.

Why is not one of them demonstrating any human quality/lorry?

Because they are not human.

That's the reson. They are not human, they are reptilian-hybrids, their nature is psychopathy, their alliance is with their reptilian father race, their individuality is suppressed, they are not able to celebrate free thinking, they are (borg)drones connected to a hive-mind, a collective group consciousness. And they feel hatred, envy, disgrace and disgust towards humans individually and humanity as a whole.

They are not psychopaths, they are psychopathic "aliens" or demons (demons is the christian term for malevolent inter-dimensional beings, the muslims call them djinns).

They are the "Archons" so many ancient scriptures talk about. They are the Archons as described in the Nag Hammadi texts. They are the Archons David Icke talks about.

Their neurology AND physiology is different from human physiology.

That's it. You can continue to think this event wasn't staged. You can continue to think it was staged by human actors, you can continue to think it is just a criminal gang, etc. you are all behind and need to catch up.

What it REALLY is, is one out of several operations as part of a larger agenda to invade earth and enslave humanity.

False Flags / Hoaxes

All this madness, all these crises that happen lately are organized by these entities. Sandy Hook "shooting", "Uzi incident", "Boston Bombings", "Ebola patients in the US", all of these events are staged, they are fake reality creations.

This is all admitted by them, they refer to it as "the perfect storm" and make comments such as "Humanity has no idea what's coming", "Catastrophe for you and me, the world will see", "We will step out of the shadows, and strike!", "Not one of you is prepared for what's coming", etc.

Metaphysical law

The reason why their hoax events are so apparently badly staged is not due to their incompetence or insufficient intelligence or logistic capabilities. Flaws and logical fallacies are intentionally built into these events in order to give the human victim the ability to identify these events as faked or instead give legitimacy to the deception via ignorance and denial.

-Dollar Bill

An important instrument of this procedure are money notes. Everyone has them and thereby everyone is given the chance to discover the Elite's plans – or not.

-Media: Song lyrics, Cartoons, Series, Movies, etc.

The aliens/alien hybrids connected to the alien hive mind know the script of the global alien agenda, and they drop clues about events that are planned to occur in the future in their songs, series, cartoons, etc.

That way they ask for permission from the victim and it also amplifies the negative effect of future terroristic/sacrificial events they planned. That's occult principles.

The aliens are limited in what they can do, or are willing to do by metaphysical laws. They know that what they do to someone else without permission granted by that individual creates a karmic backlash with the pain inflicted coming back multiplied, what they seek to avoid.

Consequently they reveal their intentions to the victim beforehand. If the victim is ignorant, oblivious about the hints being given, this gives the aliens the metaphysical right to proceed.

Every hint given is seeking for allowance. Once enough hints, warnings were given, the victim gave his consent to be harmed/destroyed.

The georgia guidestones are a hint/warning given to mankind what the elite plans for us.

They admit their entire agenda in their publications. It's all publicly available. You don't feel like reading a 1200 page book about what the aliens have planned? You think the georgia guidestones are just a suggestion of some environmentalist? You think fluoride being called poison on the back of toothpaste is just an exaggeration? Well, your fault then. You agree with your destruction then. That's how this works.

The aliens refer to this element of their agenda as planetary karma warfare. They are behind planned parenthood. They run the prison complex industry. They control hollywood and the music business. They run the drug cartells, etc.

If we say that the yet unborn aren't human and abort them like junk. If we put our people into prison for minor crimes. If we allow it being corrupted by degenerate music and movies and kill each other. If we choose to poison ourselves and others...

THEN the aliens have the right to do it to us. And abort us, and imprison us in a global police-state, and continue corrupting us, and poisoning us. Because 'as below, so above'.

“Are you a reptilian?”

A famous example was given by Louis C.K who asked Donald Rumsfeld if he was a reptilian, which Rumsfeld refused to answer with a simple “no” (although Rumsfeld answered in reverse speech, all reptilians can formulate sentences in both directions).

The aliens are bound by metaphysical law and can't lie to us about their true nature. When asked if they are reptilians they are not allowed to answer with "No", they must either answer with "Yes", or avoid to answer. For this you don't have to ask them in person, it works over the phone/internet as well. You'd be surprised to know how many "sceptics" in conspiracy forums deny to answer that question. These critters are everywhere to suppress the truth about them and reality.

They are not from here and have no right to be here. And if humanity collectively demands it they will have to leave. That's why they program us with subliminals in several shows and cartoons, etc. to perceive them in a positive light.

They are preparing the great deception, posing as our saviors (to cures they themselves created) and will promise friendship and technology and medical cures (to diseases they themselves created). Now that more and more people awaken to their existence and presence they are forced to externalize their control structure/hierarchy and manipulate people into accepting it.

What this is all about is that they are bound by metaphysical law and can't lie to us about their true nature. They are not from here and have no right to be here. And if humanity collectively demands it they will have to leave. That's why they program us with subliminals in several shows and cartoons, etc. to perceive them in a positive light. They are preparing the great deception, posing as our saviours and friends while externalizing the luciferian hierarchy.

When asked if they are reptilians they are not allowed to answer with "No", they must either answer with "Yes", or avoid to answer. For this you don't have to ask them in person, it works over the phone/internet as well. You'd be surprised to know how many "sceptics" in conspiracy forums deny to answer that question. These critters are everywhere to suppress the truth about them and everything.

And yes, they absolutely know that they are hybrids. The story of them "being clueless" is nonsense. They are aware from early childhood on about their difference, and they are telepathic. They read our minds and of course abuse the information they gather about us, accessing our deepest memories.

And they are connected with each other telepathically in a hive-mind consciousness. As soon as you are able to see them, ALL of them will know. They are the Borg.

When in person, they can be forced out of their holographic disguise by the vibrations created by truth. How you express this, what words you use doesn't matter. The higher the dosage of truth, the stronger the effect will be on their disguise. If you get really angry and shout at them that you know what they are and that you DEMAND that they reveal themselves (and really mean it), they will shapeshift in front of you instantly and there is nothing they can do about that.

Time is running out for them. Soon they will be forced into our visible light spectrum and they aren't yet prepared. That's why they work relentlessly to suppress the changing of the vibrational environment by starting world war 3 and detonating nukes in cities and releasing Ebola and so on. It's their last chance to conquer earth and kill us all.

There is a small minority among them that are not outright malevolent towards us, and an even smaller minority that does actively support us. But, make no mistake, the majority of them has ill intent towards us. They run this slave farm called earth, they are in control and 95% of humans on this planet live in between garbage and dirt, in slavery and in war zones.

THEY are responsible for this. Not to mention all the mass murder and horrific crimes they are responsible for.

Creating/Influencing Reality

Consciousness influences reality by affecting the probability of events. It does so at the quantum level known as the 'observer effect' in quantum physics . The basic principles are as follows:

- 1) Awareness / anticipation repels.
- 2) Ignorance / denial allows.
- 3) Intent / emotional resonance attracts.

LIKE BEGETS LIKE.

In other words, the mental and emotional state that you hold in the present, attracts future events that engender more of the same.

Emotions can travel through time. A strong emotional pattern in the present resonates with the same emotional pattern in some probable future. When both match, a feedback loop arises between present and future that causes this future to be energized and amplified, enhancing its ability to merge into the present.

New Agers go very wrong when they try to ignore currently existing problems and think that by shutting it from their minds it will disappear from their reality.

Problem-Reaction-Solution Hoaxes/False Flags:

Brought to you by the crazy 88. Hostile reptilian entities creating false reality events. So called "Crisis actors" are actually alien entities disguising as humans. It's a real invasion of alien body snatchers.

-Sandy Hook "School Shooting".

Completely staged, nobody died. The children, all alive, were presented to the whole world at the super bowl event.

-Boston Bombing:

Completely staged. The "Bombs" were just some smoke bombs, all the injuries were fake, with movie blood.

-Germanwings Flight:

The (supposed) crash of flight allegedly was who's fault? Andreas Lubitz fault – Andreas Fault – Andreas Fault Line. He was shown on pictures sitting in front of the golden gate bridge.

-Amtrak 188:

The supposed derailment of Amtrak 188 led to supposedly 8 victims. 188-8 = 1888. The crazy 88.

Gun Control:

They Live! Humanity is waking up and soon the vibrational environment on earth will change and will enable us to see them in their true form, and they obviously don't want us to see them while having guns.

That's why they are now staging one hoax event after the other to legitimize gun-control and martial law and all that to secure earth by bring in their New World Order.

FUTURE Crisis Actor staged False Flags/Hoaxes World Wide

If you know the agenda you know what future problem-reaction-solution hoaxes there are to expect.

The agenda in one word summarized is to end human free-will. They want absolute control over every single aspect of human activity. This includes total restriction of movement and even total control of thought.

Driverless Cars/trains/aircraft:

What would humans motivate to give up their desire and right to self-drive cars? The perception that driving is dangerous and unnessecary and should be handed over to computer driven cars. Accidents do happen, this is the prize of the freedom to do what people want. Better future education, safety systems, improved human mental health and strength (taking all the Alien bio-weapons out of our food supply), concentration and intelligence improving supplements will make driving naturally safer in the future, while humans keep their right to decide for themselves.

In order to proceed with their agenda, the aliens and their hybrids will stage very dramatic and very "heavy loss" (no one will actually die, it will be all staged) accidents in order to program the population into the perception that computer-driven cars are the future. The alien hybrid controlled media already positions itself in order to push this perception with several staged spectacular accidents already happening world wide. These accidents will happen on land, sea and air.

They all have the same charackteristics.

People of 'value' meaning high social status and innocence "die" in them or get "hurt". Indicated by academic titles or by the location of the "accident". In front of operas, schools, fancy restaurants, police-stations, flower stores, museums, etc.

It will always (preferably) be children, women, academic men, etc. who get "hurt" in these "accidents. In order to extract maximum outcry and outrage and in order to program the unaware human population most effectively with the need for a solution, which then will be presented in the form of driverless cars/trains/aircraft.

Also typical of these staged accidents is it that the involved "crisis actors" very quickly will get politically active and involved and call for measures and consequences. They start fundraising campaigns and petitions to further their agenda.

"Little (non-existent) Timmy got crushed by a train on an unsafe railroad crossing, please sign the petition to end unsafe crossings without gates and help make a change!"

Something like that.

Other events won't prey on people's empathy but will be of spectacular/weird nature to keep them most effectively in people's memory to then later refer to these staged accidents as references in future propaganda.

"Remember that odd accident where a train crashed into a manure-transporter? That wouldn't have happened if we had driverless trains!"

See? That's how that works. This agenda is orchestrated by entities that have scientifically (but robotically) studied human nature and are now trying to most effectively exploit their knowledge and prey on people.

-Bavarian State Opera in Munich Accident:

23(!)year old driver allegedly drove into a "group of pedestrians" and killed a woman. Shortly after this incident another driver allegedly drove into a group of people sitting in front of a restaurant. These events are staged and/or technologically manipulated (car hacking). They will always follow the same pattern: "Someone who drove but shouldn't be allowed to (some health condition) drove into a group of innocent pedestrians. Preferably children, women and preferably "people of value". An accident in front of the state opera sells the agenda of self-driving cars much better than an accident in some ghetto.

-Several recent train related incidents in Germany:

One thing observing recent such events with "crisis actors" involved indicates that they also want driverless trains and they further want all railroad crossings with electronic gates.

In short, they want total surveillance and control of human traffic. With checkpoints, gates, etc.

-Train accident Osnabrück: Allegedly a train collided with a manure transporter at a railroad crossing. Allegedly 3 were hurt badly, 2 died and 20 had minor injuries...makes 322, the number of skulls and bones. Now guess the time it allegedly happened, at 11.31. That's 11 and 31-13. The train stopped 300 meters too late. The driver that allegedly died was $41-4-1=3$.

Now, life is full of surprises and things do go badly, and number patterns can be random. But if the circumstances of an alleged accident seem suspicious (why didn't the traindriver see the transporter, or if he saw it too late, why didn't he warn the people in the train, etc. etc.) and the alleged data of the event is all the illuminati's favorite numbers and if the alleged accident serves the agenda...then you shouldn't believe a single word about unless you've known someone involved personally (PERSONALLY, not heard someone on the internet comment that he "knew them", because these hybrids actively try to influence public opinion in the online comment sections) .

-Germanwings Flight 9525

Completely staged event. I'm not even sure if they flew a real plane into the ground or just spread the wreck parts arounds. Anyway, no bodies were shown because there were no bodies. No one died, the "family members" are all archontic crisis actors. No tears, no true human emotions, completely inappropriate behaviour = archons.

The zone it "crashed" is formed like a giant V, V for Venus.

24 March 2015 the machine "crashed". $2+4=6$, March is the 3rd month, $2+0+1+5=8$, $3+8=11$, $11 \times 6=66$, $11 \times 3=33$. The dates of these events always create 11, 13, 23, 33, 66, 666, 88. It's their most important occult numbers.

Why? To further the agenda of total Skynet control over all human traffic. Land, sea and air. "Humans could crash planes, humans can't be trusted, humans should be replaced by robots, planes need remote-control", etc. blabla.

We will see more staged incidents like these. Chesnas, helicopters, drones, Airbusses, Military Jets, etc. dropping out of the sky like flies in most comical circus like ways possible.

RFID Chip (mark of the beast)

-Swedish office: "We implant our workers with micro-chips, it's convenient to open doors and operate the printer, etc.

-Google executive: "Take your biometric tattoo, it will piss off your parents!" She said. Or swallow this google chip, so you can open your front door.

There will be more propaganda in order to convince people to be implanted. Those who promote these chips in most cases are alien hybrids.

The RFID chip is not only about having total control over a persons money, etc. It eventually is simply a tool for frequency warfare and simply a kill-switch to turn a humans heartbeat off by the push of a button. The reptilians admit this in the book "The Body Snatchers by Susan Reed" and explain that they prefer this strategy over ABC-Warfare because it's an efficient , reliable and clean method to exterminate humanity.

Planetary Karma Warfare

Abortion is a cornerstone in the spiritual war against humanity. All the major promoters of abortion are reptilian hybrids. And most if not all of the abortion clinics are led by them as well. Where they consume the aborted fetuses. And who knows how many end up in the human food supply.

If we kill ourselves, and that includes the unborn apparently, this gives the reptilians the metaphysical right to literally abort us. If you don't value the life of the most innocent you're not worth of having your own. And expansion of this agenda is it to kill infants up to age 4, which will create even more negative karma even faster.

This is the law of planetary karma, and the reptilians use it against us in order to annihilate us and take over our planet. They can't force us, but they can manipulate us into doing it. Quiet successfully so, sadly.

Eating animals is another cornerstone of reptilian karma warfare as well as the war on human consciousness. If we exploit life forms with lesser cognitive abilities, they are metaphysically allowed to exploit us as they have higher cognitive abilities. Also the consumption of meat lowers the consumer and keeps him in a state of a very low level of consciousness. Injecting all the agony, fear, terror the animal felt before its death is what becomes part of the consumer.

Globalism includes a variety of political and ideological concepts. It's an umbrella term for every ideology the reptilians used since millenia to socially engineer the worlds civilization into a global technocratic tyranny, also known as New World Order.

Everything that connects us with what is of divine origin strengthens spirit and weakens evil. The reptilians overwrite true divine reality with an artificial synthetic reality. They do not want us to connect with nature, they don't want us to communicate, they don't want us to go inside ourselves. They want us dim, docile, unable to articulate properly, unconscious, passive and weak and completely domesticated on their quest to create the perfect human slave.

Misandry and misogyny, radical feminism, racism, class war, culture war, tribalism, disrespecting the old, abusing the young, disrespecting soldiers (they thought they were doing good), pedophilia, bestiality, torture, immorality, these are all concepts foreign to true human nature and were introduced by the reptilian social engineers in order to divide&conquer us, to weaken our spirit and diminish our life force and will to survive.

All this and much more are elements of the strategic global warfare several inter-dimensional alien collectives are responsible for.

The "End time" agenda

Many believing that "God" is about to punish mankind for it's sins. Well you could say so, but it's an uninformed interpretation. What actually is happening is reptilian aliens raging planetary karma warfare of the human race in order to drag humanity into their frequency range which allows them to exert greater and greater influence upon the development and appearance of the world.

Step 1: Take over the media via infiltration and financial take-over.

Step 2: Use several social warfare programs to convince humans of their unworthiness/ugliness. Via weaponized academic ideologies based on twisted/completely fabricated data. Via setting an example that will be imitated and adopted by the viewers.

Step 3: People first subconscious then conscious will develop the perception that they are ugly and worthless and hurt the earth and then accept their destruction. This will cause them lose their ethics

and morals and behave in self-destructive ways which then create negative karma for them that a third party predator (the aliens) then can exploit to their own advantage.

Step 4: Use the negative planetary karma the humans created for themselves against them and use your weather- and geo weapons to shake the planet.

There were several mass extinction events in earth's history where the reptilians wiped out civilization because the human cattle regained consciousness. And now we're very close to another mass extinction event. Ebola, 3rd World War, Nuclear power plants and bioweapon laboratories on earthquake lines, HAARP, CERN, Hoover dam, etc. It's all orchestrated to create a perfect storm to wipe out humanity.

Movies that are about this topic and reveal the truth in an allegoric way are:

-The Matrix: The conversation with the Architect (Old man with grey beard), in which he reveals to Neo that Zion (Earth's civilization) is about to be destroyed.

-The Hunger Games: Radical population reduction, the survivors being herded together in primitive camps.

-The Island: The artificially created/downgraded "human products" that serve as biological spare part deports are about to get terminated because they are in the process of regaining consciousness and then will be uncontrollable by the overseers.

-The Croods: "This world is about to end. The earth will shake and volcanos will erupt, and there will be thunder and storms..and there will be monsters chasing after you (a big cat with razor sharp teeth)". "There is a better world awaiting, travel towards the two large mountains and remember that creativity can save you in all situations."

-The day after earth: You either find that beacon, or we are going to die.

-The Southpark Episode "I am a little bit country": Earth! A reality tv show.

-Jupiter Ascending: Earth is a farm, ripe for harvest.

As for possible big events, let's go through what we know systematically. It will be difficult for them to strike us from an angle that we don't expect as our knowledge of their agenda is very comprehensive and detailed.

ABC Warfare:

Real occurrences/information and portrayal in media.

Nuclear Warfare

The detonation of a nuclear weapon in an American city could be used to declare martial law or as a legitimization of the invasion of other countries. If such a nuclear false flag attack would take place it would be blamed on "ISIS/Iran/Syria/Tea-Party/Patriots/Veterans/Conspiracy Theorists".

-Dyess Airforce Base incident

A nuclear weapon was illegally disappeared out of the Dyess air force base in 2013 and hasn't been reported yet as officially delivered/returned to somewhere. The base did NOT deny that the event took place. The nuclear bomb is still officially missing as by now, may 2015.

-Manhattan

A nuclear attack on Manhattan is depicted on the Dollar Bills. The Elite are following metaphysical rules, revealing their plans ahead of time in subliminal form is them asking for permission to proceed with their agenda. Barack Obama said that he was worried about a nuke going off in Manhattan at the nuclear security summit.

-Chicago

The plan to nuke Chicago was revealed by Hacker Guccifer, found in emails of the political elite of the U.S

- Chesapeake, Virginia

Hidden in the Skull&Bones Yale fraternity symbol (postal code 23322) is a nuclear false flag attack. In detail analyzed by Jonathan Kleck and 2Circles.

-FOIL

Disguised as "parody" Weird Al in cooperation with CollegeHumor revealed the intention of the reptilian controlled Illuminati to detonate a Nuke in order to bring in martial law and total global control. In-depth analysis of everything the "parody" reveals by 2Circles.

-Iron Sky 2 The Coming Race

Disguised as fictional movie story, the team of Iron Sky reveals the plans of the shapeshifting reptilian elite to detonate a nuke in Washington/cause global nuclear war in order to then invade earth once the human infra-structure was destroyed/weakened.

-Fukushima

Fukushima was intentionally destroyed with tactical nuclear devices. The tsunami was created to give a cover to the terroristic act. It is intentionally not contained in order to continue radiating earth's atmosphere. The Archons require radiation to live in, hence they want to radiate the entire planet.

The Reptilians are terraforming earth with radiation (and methan). Chernobyl and Fukushima just being the most prominent terraforming operation. Nuclear reactors worldwide are leaking, and nothing is done about it because it is part of an orchestrated global agenda..

These nuclear power plants are under the control of reptilian hybrids who do nothing to handle the situation properly with intention.

4th dimensional reptilians, need higher levels of radiation to more easily manifest on earth. Raditation is the atmosphere in their native environment.

Biological Warfare:

-GMO

Alien biological warfare to destabilize and destroy the ecosystem. "Amphibian DNA" isn't what they are telling us what it is. It's reptilian DNA to hybridize us.

-Bio weapon:

Barack Obama said during the manufactured "Ebola-crisis" that Ebola, quote: "Was just a test run". (He really said that).

-FCC:

Subliminal message "The outbreak will be contained", clear preparation for a (staged) bio-weapon release.

Chemical Warfare:

-Fluoride

Reducing IQ and causing bone cancer.

Artificially created mental illness

That's the result of the fluoride in the tap water, that already was put in there by the Soviets and Nazis to keep their prisoners docile.

Various other bio-weapons in food, water, air (the chemtrails), vaccines, etc.

And a weaponized culture. Constant documentaries "A world without humans", "Humans are a plague on the earth", "Why humans are monsters", blabla, etc.

This convinces people subconsciously that they are worthless, pitiful, ugly and shouldn't exist.

Bio-chemical-weapons, culture warfare, social warfare, psychological warfare, brain-chemistry altering frequencies emitted from cell-phones and towers.

All to get humans ready to accept their eventual destruction. It's a master-plan, a piece of satanic architectural art.

Alien agenda, Luciferian agenda, refer to it as you want but it's happening right now on this planet.

These aliens/entities want to conquer the planet in order to colonize it with their own hybrids. In order to do that they first need to get rid of humans, and since these aliens are very smart they don't do so by physical warfare, but in a gentle, stealthy way with various highly refined warfare programs and a compromised elite installed among the native civilization.

And people without resilience are victims of this agenda, an agenda so intelligent that even if they're told about it, they still welcome your destruction as planned by the agenda. That's how diabolical it is. It's an artificially created form of mental-illness.

Just as described in the novel "1984" by George Orwell. Or as in the movie "The Time Machine" of 1960 (the old one depicts the mental state of the Eloi (humans) more precisely). Eloi and Morlock (Reptilians) with the Eloi being food for the Reptilians and they don't feel bad about their role as food at all.

Why create a human that desires to be consumed?

Wouldn't passively and quietly going along with the self-destruction be sufficient in order to get rid of humanity within the boundaries of metaphysical law and colonize the planet? Turning humans into supporting agents of the agenda sure is helpful but there is more to it.

There are different casts, within these alien collectives.

An individual like Will Arnett for example is an alien prole. Smarter than its human equivalent but essentially a prole. "I can't wait to see how they all end" to quote him while revealing the alien agenda to braindamage humans. That's not how someone intellectually involved, dedicated to the agenda talks. He's a minion, that is appointed to jump around like an idiot and make movies for the purpose of distraction, in return he's allowed to go to Kimmel and talk about how great he is, wearing a NASA space suit. An alien prole. Just like Alec Baldwin.

There are casts far beyond such green trash. And there are different schools of thought within the same cast. Within their science cast some of them are rational, pragmatic, coldly scientific about the whole process. They want the planet, humans are in the way of the colonization so they need to be done away with within the boundaries of metaphysical law, no extravagances.

Another group within that cast consists of those that do what they do out of ideological conviction and they perceive it as an art form. A cast of extremely intelligent and extremely evil luciferian high priests that seek to constantly refine their methods and apply them not just with pragmatic scientific rational but with artistic wickedness.

And those are the ones that are behind the creation of humans desiring to be consumed while loudly cheering for it. This is the pinnacle of luciferianism, to make creation desire its own destruction and actively contribute to it and promote it to others.

The portrayal of the Eloi in the version of the "Time Machine" from H.G. Wells from 1960 is much more accurate and helpful than the one in the movie from 2002. In the newer movie the Eloi are portrayed as regular people with normal brain-function and simply a lack of courage.

In the version of 1960 the Eloi are realistically portrayed as careless, apathetic, uneducated, child-like people under mind-control and in a perpetual trance state submissive to authority figures.

The Eloi are not a hopeless case. They can be shaken out of their trance, animated to take action and rise up against their oppressors.

Media Warfare

TV (Transdimensional Vortex) is an LED weapon system broadcasting subliminals over alpha-brain wave carrier waves. It also is an interdimensional portal system allowing entities access into our rooms and to suck off etheric energy released nearby. Hence horror movies and pornography.

They control the media. They control Hollywood.

Their portrayal of humans and human interactions and relationships in movies and series is always crude, is always about conflict, is always shallow, heartless, unharmonious. It portrays humans as clumsy, selfish, one-dimensional, clueless, uneducated, heartless, psychologically corrupt.

This is done with scientific method to divide the sexes and social groups, etc. And to systematically dumb down humans and teach humans that they are worthless, insignificant, full of flaws and error and expendable.

It is systematic, scientific, psychological/spiritual warfare. It doesn't happen out of some self-developed cultural dynamic that is self-running/self-developing. It is done with a cold scientific rational behind it. None of it is random, none of it is coincidental.

Ask yourself: Is there a series in which couples/friends/colleges get along well? Are in a harmonious loving relationship/relation and experience curious adventurous, enlightening, enriching, morally inspiring, heart-warming things?

NO! The media isn't controlled by humans. It's controlled by crude, cold, heartless, one-dimensional beings. It is controlled by reptilian savages.

Weather Warfare

-HAARP

Tsunamis, Storm fronts, Hurricanes, Earthquakes are said to be caused by this installation.

Popular publicly known Installations such as HAARP and CERN are a small part in the manipulation of weather and geological and oceanic events on earth.

Beyond that there is alien technology being used against human civilization.

We have eye-witness reports of UFOs and demonic, grey alien grimaces in storms and nearby tornados creating floods and droughts and mayhem since thousands of years.

Charlemagne (Karl der Große) spoke of aerial ships of aliens regularly terrorising the medieval skies, prompting the emperor and his successor to legislate against their activities:

"The people claimed that sorcerers had taken possession of the Air for the purpose of raising tempests and bringing hail upon their crops."

Louis the Débonnaire, as well imposed grievous penalties upon all these "Tyrants of the Air".

Possibly not every drizzle is caused by the aliens. Tsunamis, Earthquakes and Volcanic eruptions of gigantic and devastating magnitude with high human casualties however are most likely solely caused by malevolent entities and alien technology.

-Chemtrails

They serve a variety of purposes. One being to weaken the human immune system to be less resilient against possible future bio-weapon releases and spreading diseases.

Another purpose is it to reflect incoming cosmic rays.

State sponsored/fabricated Terror Warfare:

-ISIS:

ISIS is the name of an illuminati 'goddess' and was founded, financed and trained by the CIA still up to this day. It is used as a global proxy army for western intelligent services in order to destabilize the planet.

-Veterans/Militia:

Law enforcement, military are trained to perceive returning Veterans and Militia/Constitutionalists as their enemies as they are the first that would oppose a state take-over.

-Rockergangs:

The state seeks to eliminate every threat to its power monopoly. Rockergangs are another group being targeted as potential resistance. The recent incident in Wako was an operation to control these groups and brand them as enemy to public safety.

CERN

A dimensional portal into the reptilian realm. All top scientists and the CERN director are reptilian hybrids/bodysnatchers.

Three main purposes generally attributed to CERN are:

1. Establishing a wormhole to, as ancient texts suggest, "the land of the dead", what likely is a reference to a different hostile dimension (original dimension of the Archons).
2. The manipulation of human mass consciousness to steer mankind into a by the elite desired highly negative timeline.
3. And the creation of earthquakes. Researcher EntertheStars showed the connection between Nepal and CERN.

Hoover Dam:

It's true purpose is to be an installation that serves the purpose of creating a dimensional portal. As analyzed by Jonathan Kleck the damn apparently was designed to when destroyed deliver the kinetic energy necessary to establish said portal. It's destruction, just like the nuclear devastation of manhattan, is portrayed on the Dollar Bill.

Multidimensional time war:

That is what is actually happening all the time without us noticing it. We are in a 3rd-4th-5th multi-dimensional temporal war. Hyper-dimensional and time-line manipulation warfare. Happening on an individual and mass scale, involving the entire planet.

We can analyze that by observing their modus operandi. How it changes in tempo and how it manifests. The more hasty and badly coordinated they advance the more likely we won in the future, what then caused them to give order back in time to their 3D minions to accelerate the agenda.

The more they accelerate the more mistakes they make and the more resistance grows from people noticing the sudden changes.

This they normally seek to avoid, so when they do it, they do it because they are forced to by knowing that we won in the future due to them not accelerating enough in that timeline...but that then causes it to fail more likely, unless they can overpower us with extreme acceleration.

As it stands now we already won in the future - Terminator Genisys which is why they now sent back a terminator in time to kill the young Sarah Connor (the growing resistance) by extreme acceleration of their agenda.

Race War Agenda

There always was and probably always will be conflict between human races, yet before the Illuminati and their crisis actor networks created hoaxes and race baiting media propaganda and financed/provoked riots, relation between black and white people in America seemed to be stable and improving.

The Race War agenda is merely one out of several social warfare programs all controlled by shadowy figures in the background. It is based on lies, exaggerations, misconceptions and outright hoaxes/false flag events. All hyped racial type cases recently seen in the media were hoaxes fabricated by alien crisis actors.

It's not black vs white, it's reptilians (posing as black and white humans) vs humanity.

Geological warfare

Yellowstone and other volcanos are targets for reptilian geo-weapons like HAARP.

Environmental warfare

They want a global carbon tax and other tyrannical measures which they seek to accomplish by convincing people of "human caused climate change" and global weather chaos as a result of it. In truth, they will create this global weather chaos with their weather machines and geo-weapons.

Asteroid bombardement

As revealed by Wernher von Braun Asteroids being thrown at us will be the created crisis before the alien threat. The Elite already has space base platforms and their alien superiors surely do have the technology to throw asteroids at us.

Planet X, Nibiru

"A planet spins right out of Orbit, aliens show up – eating mankind". (Insane Clown Posse)

"The planet of the serpents will arrive"

Skynet

They are behind Skynet and rise the of robots. They run Google, they run Darpa, they run Boston dynamics, they run Hollywood and produced the terminator movies in order to get us accustomed thereby weaken resistance to it and giving us a happy ending where humans win.

They let us win in the movies, to give us a collective subconscious victory over the aliens and the machines, to more easily destroy us in real life.

Skynet was defeated in "Terminator Genisys", while the real world Skynet is doing well and growing stronger each day.

Aliens

Archons can appear in various forms.

Reptilians/Mantid/Greys:

Negative Nordics:

You can see them in the as fiction disguised quasi-documentary "Jupiter Ascending" commanding to the Draconian Reptilians and the Greys that are their underlings.

Through various personalities in the exopolitics field, the secret government is already being branded as a paranoid Cabal keeping mankind from open contact with alien benefactors, holding us back from our rightful destiny to enter into galactic citizenship. Like a good cop / bad cop routine, presenting the Cabal as the sole "bad guy" and aliens as the "good guys" is pushing two false choices, and therein lies the deception.

To defeat the agenda, mankind must not choose between peaceful assimilation and ignorant xenophobia, but rather between peaceful assimilation and peaceful liberation, liberation from both the secret government and their alien overlords. A more sophisticated version of this plan is to include some throwaway alien groups as part of the "bad guys" — for example, the ever convenient Reptilians whose scary appearance makes them suitable bogeymen. Not to say Reptilians are "good guys", just that portraying them and perhaps the Greys along with the Cabal as the sole "bad guys" makes the other negative alien factions, such as the hostile types of Nordics, appear like saviors in comparison, which is precisely the plan.

-Steven Greer: Greer, a draconian reptilian himself, promotes the idea that "ALL" aliens would be benevolent and here to "help us".

-David Wilcock: Sith disciple of Darth Greer. Possibly a grey alien with a "pleiadian ambassador type" wig. Standing next to Greer they indeed look like the Archontic duo of Reptile and Grey.

-Paul Hellyer: A reptilian hybrid himself (humans don't become minister of defense, and humans don't have slit-pupils), basically parrots Greer with an additional environmental spin, claiming that humans would be responsible for climate change and that only aliens have the technology to fix the by us created problems.

Truth is, reptilian hybrids like him are responsible for ALL problems on earth. And climate change is caused by their weather weapon technology such as HAARP and CERN.

Grey Hybrids:

Bashar

He promotes the reptilian created grey hybrid genetic invasion army as "loving hybrid children". They aren't children they are in reptilian bio laboratories created soul-containers for the purpose of reptilian colonization of an incarnation on earth. It's the final stage of the reptilian invasion to

present us these abominations likely after project armageddon (earth quakes, biological weapon releases, comets, mega storms, etc.) to pose as our saviours.

That's the reason why they want the police state and why they want to disarm the public. That's the alien New World Order.

Shaun Swanson

Like all abductees he gets regularly abducted and implanted with hypnotic suggestions to promote the grey laboratory hybrid roaches as “loving” and “spiritual”.

Positive Nordics

The problem is that negative forces, hoaxers, and delusional New Agers have created caricatures of the real thing and either usurped the name, or created a new name to designate their fabrications.

So there may in fact be positive humanoid aliens and a positive spiritual brotherhood. They might even be called the Pleiadeans and Great White Brotherhood. But that doesn't mean everyone who identifies themselves under those names, or associates with them, is necessarily also positive. In fact I'd say that a huge majority of the latter are nothing but impostors and scammers.

I mean, how many humans, aliens, demons, etc. throughout history have posed as “God” to their unsuspecting victims? Negative forces obviously can't gain much allegiance by revealing their true colors, so they wear the colors of the good guys.

The Ashtar Command, Galactic Federation, and Galactic Federation of light as known by those names are false, as those names originated with certain channelers and hippies and not with anybody actually known by that name. I mean Ashtar sounds like a joke derived from Ashtaroth, the name of a demon who “who seduces by means of laziness, vanity, and rationalized philosophies.”

But I know from personal experience that positive aliens, some looking like humans, do exist. Only, they never identify their real names, where they come from, and they sure as hell never call themselves by grandiose titles like “Melchizedek Princess of the Mintakan Crystal Dolphin Alliance” or something along those lines.

The only reason you know they're positive is by their actions and the end results of their words, the knowledge and training they give to make you a more aware, ethical, powerful, and freer human being. And not through common sense, over used, trite sayings that anyone could get from fortune cookies, but through timely, specific, powerful knowledge that makes a difference, that you can verify through personal experience and reason, that has a certain deep elegance to it testifying to their experience, wisdom, and intelligence.

The real good guys aren't the sappy cartoons that you read about in New Age literature. They're more mature, mentally lucid and sharp. They say a lot with few words. You know how my site gets to the point and cuts through the crap. Well, same for these guys, just to a higher level. What they say accords with the facts. If someone calling himself Commander Ashtar says all negative aliens have just been kicked off the planet and we should rejoice, but you yourself are still getting symptoms of alien monitoring and abductions, then guess what, that Ashtar character is full of it.

I don't see a reason to shoot ourselves, because the situation isn't hopeless. I mean, we've known for a long time — from dreams, prophecies, trends, lessons of history — that the world needs to change, will change, but that the transition would be mightily difficult, and that dark forces would reach an excruciating crescendo before their downfall. So we're at the foothill of that dark mountain, and sure we have a difficult time to get through, but there's a positive light at the end of the tunnel. We shouldn't give up, because the fight has yet to truly begin. We just have to hang in there and take our battles one day at a time, keeping our eye on the faithful positive outcome at the end.

Positive Reptilians

There are benevolent reptilians, their numbers (on this planet for certain) however are few. That's not my personal estimation or that of someone else, this is what the benevolent reptilians themselves tell us. Via several sources, one of them being the V- Series both from 1984 and 2009 in which they say "Only a few of us, a very few of us don't agree with what the other reptilians are doing".

The alien/luciferian agenda

1. The New World Order (ultimately controlled by malevolent aliens) exists and wants to take over the world and now is very close to achieve their ultimate goal of total world domination.
2. The Illuminati are behind gun control because they will not be able to fully seize control until the public has been disarmed.
3. To achieve that the illuminati stage false flag attacks in order to manipulate the public's opinion to give up their guns.
4. Basically every event you see reported on in the mainstream media either didn't physically occur at all, or not in the way they claim it did.

There are global networks of crisis actors that stage hoax events in order to further advance the agenda of the new world order. They do this since hundreds of years, already described by the ancient christian gnostics that called it "false reality creation". Recent events that were purely staged where no one died and no one got hurt include: Sandy Hook, Boston Bombing, Aurora Theater, the 9 year old with the Uzi incident, all of these events and more serve the goal of gun-control and disarming the people.

5. Crisis actors are aliens. They are telepathically connected and uplinked to a hive-mind. This invasion of bodysnatching aliens is documented in the as fiction disguised real life documentary movies: "Invasion" (2007), The Host (2013), Invasion of the body snatchers (several years), Under the skin 2014.

6. The Illuminati spray Chemtrails to poison us with consciousness suppressing poison and make us inhale nano-fibers to uplink us into the Borg hive-mind. This was depicted in the as fictional movie disguised real life documentary "The Gamer".

7. They poison our food and water and put viruses into our vaccines, it is a globally orchestrated slow-kill bio-chemical weapon program to slowly shut down our immune-system, capability of thinking and ability to communicate properly. A preparation for eventual aggressive bio-weapon releases such as airborne ebola.

8. Artificial intelligence is a deadly threat to the human race. The soon to be introduced robots will be equipped with undetectable backdoor Trojan horses that make them operable from some underground shadow government bunker. It's the rise of the machines as it was prophesied in the Terminator movies. The negative aliens are in control of Skynet.

9. These entities also are responsible for the intentional destruction of the Fukushima nuclear site with both weather-weapons (tsunami) and micro-nukes hidden the security cameras. Several nuclear power plants globally are intentionally leaking in order to terraform the planet with radiation what is the natural environment of these interdimensional entities.

10. They plan to detonate a nuke in Manhattan(NYC)/Chicago/Dallas/Chesapeake (or other city/cities) what - just like 9/11 and the pentagon attack - was depicted on the dollar bills. Watch the analyses done by Jonathan Kleck and the videos "Luciferian Reptilians Plan To Detonate A Nuke In Manhattan", "Illuminati Nuke Targets 2015 + New Target Revealed? Chesapeake In Virginia About To Be Nuked?", to learn how to possibly prevent them from doing it.

They also want to blow up the Hoover dam to establish a dimensional portal to Saturn which is a inter-reality portal into the reptilian dimension (dimension X) from where they want to bring in reinforcements to conquer earth.

11. The Black helicopter phenomenon is real. All that go up against the reptilian rulers of this planet receive custom attention and are targeted by various psychological warfare operations. Gang-stalking for example.

12. Psychotronic weapons are real and used against the opposition of the Illuminati. This is described in detail in the NASA document "Silent weapons for quiet wars".

13. Grey Aliens under the command of reptilian/mantid and negative Nordic aliens abducted humans world wide over the last 70 years to create a new human-grey hybrid slave race (Nephilim) ruling over us as tyrants of the new world order.

They are already living among us, moving into apartments, taking driving courses, infiltrating the police and military. Soon they will be introduced as our saviors/next step in human evolution. If humanity should accept these hybrids as positive step in our evolution and choose to interbreed with them, human freedom will end forever and humans will be assimilated into the draco-orion collective to serve as slave race (Borg drones).

14. The MIB are real and unlike portrayed in the movies they are evil.

15. The Illuminati are controlled by Reptilian/Insectoid and Negative Nordic aliens (demons/interdimensional beings/djinn). It's not just a few "elite" families. 5% of the population are reptilian hybrids acting as herdsmen for the human population. They are the watchers in all positions of society where they have power over the lives and perceptions of humans, from teachers to CEOs, generals, police-men, etc.

They can be identified. They have the irresistible urge to flick their tongues out. Some of them have extremely high blinking frequencies of 100-200 times per minute.

A minority among them is benevolent towards humans.

16. One reason why all of this is public knowledge is because these entities are forced to reveal their agenda to us in order to prevent the karmic backlash of killing the rightful inhabitants of a planet.

Several movies do actually tell the full truth depicted in a fictional way. Such movies are: The matrix Trilogy, Jupiter Ascending, The Island (2005), Dark City (1998), The Truman Show (1998), They Live (1988), Alien Nation (1988), Iron Sky (2012), Iron Sky – The coming race (2016) and others.

Novels that tell the truth are: "1984" by George Orwell, Brave new World by Aldous Huxley, Vril – The coming race by Edward Bulwer-Lytton, Childhoods End by Arthur C. Clarke and in a symbolical way Lord of the Rings by J. R. R. Tolkien.

Alien-Human relation on earth

Human-alien/entity relation isn't the same as human-human relation. Alien-human relation is like human-cows. This planet is a farm, and humans were genetically modified to be farm animals. As Morpheus said in "the Matrix", "They turned human beings into batteries". This is the situation.

And the aliens are the rancher. And they openly refer to humans as 'cattle'. They have complete disregard, contempt and outright hatred for us. And that's not the minority of them, it's the majority. If it wasn't the majority, this planet wouldn't look the way it does. 95% of humans live in horrific conditions of poverty and sickness and struggle and suffering. The aliens are in control of this planet, this is their responsibility.

Please people don't be naive and don't be victim to stockholm syndrome and self-delusion. This will get us from one prison right into the next. Face the truth and acquire the knowledge of evil (and good), but also of evil. Human empathy is a weakness as the reptilians say. They say so because it allows us being manipulated by them over our emotions and don't think logically.

They are not hiding from us because humans are such savages that would attack those friendly aliens among them. These alien entities crippled humanity's genetics in order to turn mankind into a source of physical and etheric food. They DO harm us! They systematically in collaboration instill trauma, horror, fear, pain, agony to feed off us. They manipulate our relations, they cause wars and conflicts. They use us for labor and their entertainment. They abduct tens of thousands of humans EVERY YEAR to slaughter in them in underground bases. Torture, rape, murder. They prefer the flesh of children. They refer to humans as cattle. And they work conspire with each other to keep it that way. By putting poison into our water, food, air, medicine, etc.

They are behind all of the race baiting. They caused all of these incidents in the US to create a race war. They want a civil war. They want world war 3. They are behind all the hoaxes. They are behind the police state. They are behind the new world order.

They seek to implement their final solution which is the enslavement of mankind on a prison planet with total surveillance and total control over the human body.

They don't hide from us because we're the bad guys, or because they are scared and just want to live in peace. They hide from us because being exposed would be the end of their terror-overlordship and exploitation of humanity, that's why!

And that's not the minority of them, it's the MAJORITY of them who are NOT friendly towards humans. How many do you see on public stage that inform us about the reptilian/alien agenda? Very

very very few in comparison to how many of these creatures there are among us. An extremely low percentage of them are benevolent towards humans. They exploited us for millenia. Earth is a human slave colony controlled by reptilians, greys, insectoids, negative felines, etc.

The reptilians brag about this in many movies, series, publications. They brag that they rule, they brag that soon they will have total control, they brag that they will kill almost all humans and then colonize earth with their own hybrids.

But now that we are waking up, they are forced to run an advertisement campaign so that we perceive them in a positive light. This is done with subliminals, operatives in the alien research community, mind-programmed abductees, alien propaganda in cartoons and movies, etc.

Virtual reality. Saturn-Moon Matrix

All of this is a virtual reality simulation based on data about a past time in human history projected by Saturn and amplified by large underground antenna fields on the moon whichs real name is Levan and is the death star from star wars run by reptilian aliens.

The movie "The Island" from 2005 depicts that in an even better way than the Matrix as i think. It's about downgraded humans (us) on a mental level of juvenilles imprisoned in a fake reality habitat with a projected sky/space inside a giant laboratory complex ..for organ harvesting (the reptilians in the underground bases and cities eating humans).

They have to suppress our spiritual connection in order for us to stay alive, but not smart enough to figure out what's really going on. But now the human 'products' are regaining consciousness (due to the truth vibrations as Icke calls them) and regain consciousness, and then they can't be held back by the reptilian prison guards any longer and escape into the real world.

And this is our situation. We are waking up, the Reptiles know that and want to destroy us before we can escape.

that happened 5 times before already. This is what the matrix architect, the demiurge refered to when he said that this will be the sixth time the machines will destroy the matrix. Read the headlines, 'Mass extinction event on the horizon', "Rise of Skynet and the terminator machines". Yea...this will be the sixth time they will destroy it. And they've become excedingly efficient at it.

And what he ment with the Neo anomaly being systemic and leading to a catastrophic collapse of the matrix, that's what we refer to as "waking up".

So waking up alone won't be good enough we also will have to reach critical mass FAST. Because the clock is ticking and working against us.

Book of revelation & other negative prophecies

stop listening to that fanatic "prophecy crowd" preaching and welcoming doomsday. They are deceived by the alien agenda.

Jonathan Kleck is also one of that crowd. "The end is here! It was prophezied, it MUST happen! No escape! No Hope!" when he pointed out the destruction of manhattan on the dollar bill.

And then, in all modesty, i came along, not caring about what some prophecy says and put up the video "Illuminati Reptilians want to destroy manhattan and how to STOP them". And then shortly after (wonder if there's a connection) Weird Al and College Humor came out with the video "FOIL", revealing that the illuminati want to drop nukes and that they are reptilians in human disguise. The video got 20 million views by now. Information like this being put out, INTERVENES and INTERFERES with their agenda. And can block or completely prevent it.

Awareness/Anticipation repels.

Ignorance/Denial allows.

Intent/Emotional resonance attracts.

The future is in constant flux. We create the future, it depends on us how it will turn out.

Those who sit down and wait for the "prophecies" to play out just as written will bring it about by non-interference. Curious that several "prophecies" given to mankind by the 'gods' prophesize what the corrupted elite that are subordinate to the self-proclaimed reptilian 'gods', desires to come about, isn't it? What a convenient coincidence! People refuse to make the obvious connection. Or approach the topic from the other end.

Always wondered why they follow every sentence in the book of revelations? Ten kingdoms, ten FEMA regions, and so on and on?

Because they wrote it! It's the oldest piece of reptilian pre-conditioning propoganda. Way older than any hollywood production.

10 FEMA regions, 10 Kingdoms. Why would the illuminati follow that prophecy even though they could arrange it all however they wanted? I thought they hated every holy book, then why follow it? Shouldn't they burn it, dance arround it and do everything in a different way since they got all the power?

They created it in order to manipulate humans into self-fulfilling it. They can't create, they are the BORG. The BORG never create, they only assimilate. Humans are creators, with a direct connection to the source. Hence all the subliminals, hence all the prophecies, hence all that, in order to manipulate humans into creating the by the lizards desired reality. It's that simple.

They need human acceptance, they can't violate free-will. But deception is allowed.

With every additonal step in their agenda accomplished they get people to awe and moan "LOOK! The prophecy is being fulfilled...here is what will come next!" And then the believers pave the way to the fullfilment of the next step in the prophecy by attracting it via the law of attraction and giving allowance to it by the law of free-will.

You want to kill 1/3 of us? Well SURE, why not, after all the prophecy demands it. You want to build portals to other worlds or dimensions to bring in hordes of locust (reptilians)? Go ahead! The prophecy wants it, you have our full allowance. "Well thank you very much" the Borg lizard says. Is everyone asleep?

"The opening to the pit" as described in that book is just lizard aliens using advanced alien technology to establish a portal via CERN/hover dam into their dimension (dimension X) or their home planet in the horse head nebula or from wherever they came from in order to bring in reinforcements. Since when do "Demons" or "Fallen Angels" need to build dams and particle accelerators and use bombs to get things done?

They are aliens, non-physical aliens that evolved and transcended their physical state, from outta space or outta-dimension or whatever.

The "sinking of the city at the sea" as described in the book is also a lizard alien project. They understand and follow metaphysical laws.

The reptilian news readers yelling about, "a dirty bomb (hoax)" going off in manhattan. That would give an excuse to bomb it into the sea with conventional weaponry. Or at least lock it down.

They already tried that via faking an "ebola outbreak" in manhattan last year, if you remember. They are just switching through a whole variety of different vectors to accomplish the final goal that is the destruction of manhattan.

The lizards REALLY want to destroy manhattan. Really, really badly. They centralized their financial scam system there. All the major banks, all the network servers, all the managers, lots of gold. To do away with all the evidence all together. Wouldn't that be convenient?

And they crowded this place with people as much as they could to sacrifice them all to Lucifer when they destroy manhattan and sink it into the sea as they predicted in their war-game manual known as "the book of revelations" to fulfill the "prophecy" of sinking the city at the sea.

They printed the destruction of hover dam and manhattan on the dollar bills, just like the destruction of pentagon, the twin towers and the oklahoma building. They do this in order to not violate human free will and give people the chance to pick up on it and oppose it.

Same with Dick Cheney and Obama mentioning a nuke going off in manhattan. They announce it for that purpose. They need to warn humans.

For the same reason they projected the goat with the two towers on the hover dam. And the portal opening once the dam cracks. It's warnings.

Da Vinci warned about it encrypted in his painting "Leda" as well.

"Zeroth Order Being (God) God can break any law or alter any reality it has created, and has unlimited power over its creations.

First Order Beings (Humans) First order beings must obey the laws of physics, but can break the laws of probability due to their direct connection to the zeroth order being.

Second Order Beings (Reptilians/Greys) These must obey the laws of both physics and probability. They lack a direct communication channel with the zero order being, due to their either being derived from first order beings, or due to a shutdown of their emotional capabilities. Being of negative polarity and second order, they have an inferiority complex and a drive to control everything. Their envy of the first order beings makes them enslave such beings for purposes of

emotional energy, food, resources, and entertainment. Their envy of God and its laws makes them adept at bending these laws and finding loopholes, ultimately to wrestle control of reality away from God and place in their own hands".

How to comprehend it all

"That's CRAZY!", "That's all just fiction!", "It makes my head hurt!", "This is just too big!". "It seems to make sense, but I'm not sure".

The human brain in it's momentary artificially downgraded state was designed (corrupted) in order to not comprehend it all. That was the point of the downgrade (via the Saturn-moon matrix hack of our DNA which turned us into biological robots merely conscious).

But we can overcome the hack/downgrade/surpression by intention and expand our awareness/intelligence in order to eventually easily comprehend it all. We are spirit operating artificially downgraded (originally 12 DNA strand) 2 strand DNA organic bio-suits and by intent are able to reupgrade it to 12 strands.

How to oppose it

"Constant dripping wears the stone. Death through a thousand cuts. Nibbled to death by ducks."

The aliens know that the most seemingly insignificant contribution can have tremendous effects. Butterfly effect, ripple effect, hundredth monkey effect, six degrees of separation, tipping point, critical mass, the aliens know these phenomenon to be real.

A hurricane can be created by minor perturbations such as the flapping of the wings of a distant butterfly several weeks earlier. And the global tyrannical alien elite can be brought down by a whisper in a forum some years earlier. Such is the power of the individual, which is why they fear the autonomously thinking and acting individual and why they want to end individuality.

Create your own website, youtube channel, magazine, chat room. Print flyers and drop them randomly at bus stations.

Call in to/visit police stations, military schools, universities and spread the word about websites, radio programs, internet channels, hand out flyers, or just simply make a comment.

Briefly talk to strangers on the bus/train station (you'll likely never see them again, so it doesn't matter if they think you're excentric). If you chat online/play computer games name your character/toon/vehicle/vessle after websites, channels, individuals that oppose the NWO.

From time to time drop some comment into the Zone Chat to shock people out of their daily grind. For example:

"Hey, did you know there is poison in the water that lowers your intelligence called Fluoride?"

"Hey, did you know our politicians are Reptilian Aliens in disguise?"

"Hey, did you know that tens of thousands of children disappear every year without being seen again?"

“Hey, if we abort children does that give the Elite the metaphysical right to abort us?”

EVERY contribution counts, no matter how small, this is a fact. Do something as long as you still can.

Resistance is hope. The more we resist it, the less successful their agenda will be or at least the slower it will develop. The more we resist it, the stronger the push-back and the stronger we grow. Growth needs resistance. If plants wouldn't have the resistance wind gives them, their stems wouldn't be strong enough to support them.

What you see so far is just the beginning of the end game. There is a storm coming like nothing we have ever seen before.

If the habitat is not sufficiently favorable or nurturing, the cell will choose immortality, in other words; self-sufficiency and self-management consequently independence from food and water and air - any needs of a mortal being.

The storm is giving us the resistance required to transcend this 3D alien prison system, escape our fragile physical conditions and become 4D super humans. Some of us. It's evolve or die.

If you don't know how to resist - do something you know to be the right thing to do, but are scared to do it. Start with baby-steps, that helps.

The bigger the steps you make, the greater the resistance and the faster you grow. Doing something that endangers your life, whether perceived or real, leads to the biggest and fastest growth.

This is illustrated in the legend of the Saiyajin who increase their power substantially each time they barely escape death. referred to as Zenkai. Which is a real phenomenon.

Or to quote Nietzsche: "What doesn't kill you, makes you stronger."

Following an article from montalk:

"Given the scope of their knowledge suppression mechanism — and if that fails, the overwhelming nature of their overt invasion — is there any hope?"

Yes, there is hope in the sense that divine plans are in place to balance the equation and give us a fighting chance of transcending alien manipulation and escaping our fragile physical conditions. The help we receive from higher sources is of a catalytic nature, meaning it merely assists our own efforts. That includes the clandestine support being provided by positive alien groups.

From one perspective, 3D Earth is little more than a prison planet run by tyrannical forces about to implement their “final solution.” We cannot fight as prisoners because we are too weak. To avoid enslavement and liquidation, we must become empowered by first escaping this prison — thankfully with the help of those who have escaped before us. This means accepting divine help, transcending our limited physical states, and evolving into 4D beings ourselves. Only then will we be on a level playing field with our alien manipulators.

From a more metaphysical perspective, 3D Earth is a school of hard knocks. The quantum leap in evolution we require to withstand the overt alien takeover is not impossible, it is inevitable — every

life lesson we learn brings us closer to graduating from our three dimensional physical existence. This process is natural and need not be forced; for those of us who have chosen the path of integrity and truth, our individual destinies are intertwined with the divine plan, and we have been synchronistically guided since birth to have the right experiences needed to prepare us for what is to come.

Among us are numerous advanced souls from higher realms who have incarnated into our world to help destabilize the alien control system and catalyze the evolution of those ready to graduate for the first time. Many don't remember who they are or where they came from, and from early childhood most are heavily targeted by negative forces for self-destruction due to their threatening roles as system destabilizers. Those who overcome these obstacles grow strong enough to contribute toward the divine plan by spreading knowledge and assisting the evolution of others. They are former prisoners who have come back to show others how to leave the prison. Many of these we might call positive aliens. Take note that no one is chosen or special; anyone can take part in the divine plan who chooses to follow his or her heart and seek knowledge.

Knowledge is the key, for it helps us see through deception and fuels our evolution. Because of knowledge, the alien agenda will be exposed. Because of knowledge, we will evolve new insights and metaphysical abilities that can prepare us to better counter an overt alien takeover. Divine forces are at work to help us learn — if we actively seek knowledge, the way will be shown. If we actively apply knowledge, the path will be cleared. And if we actively share knowledge, the path will be followed by others.

Alright, this should cover most of it as simplified as possible. Copy&Save this text/print it and share it with as many people as possible on as many different platforms as possible over as many different continents/countries as possible. Not just online but also in your communities. The internet probably will go down at some point. And translate it into your language if you're multilingual.

Resistance IS victory. No destiny.
