LETTER OF RECOMMENDATION

To whom it may concern,

I highly recommend Oleksii Volvach as a candidate for employment. Oleksii did his internship at BeSports, in the context of his master of information management in collaboration with the KULeuven, from April 2016 until the end of July 2016.

Oleksii proved himself as a responsible and organized person, easy to work with and always open for feedback. He rapidly integrated in our working process and became a part of the team. The first weeks, we primarily assigned designing tasks to him, related to PR purposes. Oleksii showed his creativity and ability to deliver the company's message in an original and understandable way. Later, he expressed an interest in our website development. With the training and guidelines of our lead developer, he started to learn new JavaScript frameworks, such as Meteor and React with supporting software. His perseverance allowed him to improve his developing skills and carry out some entrusted tasks, like building a forum application. Furthermore, Oleksii stated that one of his personal goals was to improve his communication in the Dutch language during the four-month internship period. His progress was exceptionally impressive; in the end he fluently spoke Dutch with all his co-workers.

Oleksii has been a true asset for our company and we strongly believe in his future potential. If you have any further questions with regard to his performance at BeSports, please do not hesitate to contact me.

Sincerely,

Joris De Koninck
