

I know that I can lead the way,
'Cause I use the habits every day!

Be Proactive is habit number 1:

It's up to me to get things done.

Begin With the End in Mind is number 2:

I make my plans and see them through.

Put First Things First comes in at number 3:

I take care of things most important to me.

Think Win-Win is 4th in line:

I find choices that make us all feel fine.

Both parts of habit 5 go hand-in-hand:

I must Seek First to Understand

After I listen closely with care,

I can Then Be Understood when I share.

Synergize is habit number 6:

When we work as a team there's no problem we can't fix.

Last is habit 7; it's as important as the rest:

I Sharpen the Saw to stay at my best!

I make time to take care of my . . .

BODY: I try to eat right and I make sure to get good sleep at night.

BRAIN: I like to learn new stuff and I work hard even when it's tough.

FEELINGS: I choose empathy and I remember that it's great to be me!

There's no one else I'd rather be,
'Cause I've found the leader in me!
