The standard album you receive is a 20 page flat lay fine art album. This means 10 spreads of sweet sweet wedding goodness.

You have an option to add more pages but we shall get to that later.

You have the choice of an 8.5 x 12" or a 10 x 10" album so have a think about which dimensions you fancy best!

What I need you to do is pick the cover. You have a choice of various Linen colours to pick from or you can upgrade your album to a genuine leather cover instead for £30. There is embossing options for your album title too which you can see from the images below.

I have sample cards and leather swatches that you can look at if you need some help deciding!

ET LASER ETCHED.

In your online gallery you can favourite images. An album can showcase an average of 40 images within the 20 pages.

So once you have looked at your gallery - get favouriting! This means I know what to work with in the album.

Now that I have got your favourite images, i'll get to work on creating your album. Once I have made the first draft, I will send this over for you both to preview. We will then work together - making any wanted tweaks along the way - and create the perfect showcase of your day!

upgrades

If you are struggling to pick just 40 images then you can add more spreads to your album. If you would like to upgrade to a larger album see table below.
