## What Are Some Things You Can Expect To Learn From Kissing Magic?

Some of the things that can be learnt in the Kissing Magic Program are :

1) A first kiss should be such that a man can open up freely in front of the woman, usually which they aren't comfortable doing.

2) A kiss should make the man feel powerful, important, irresistible and needed. However, most women have a tendency to shame men for the hunger of their masculinity.

3) The author, Fiore, tells the reader how to make the kiss so impactful that he cannot imagine anyone else apart from his woman.

4) Women also discover how to kiss her man before he is leaving for a long business tour / vacation; so that the thought of a different woman never occurs to him.
