

R. Evan Coffey – Front-End Web Developer

Portfolio

My full portfolio (and blog!) can be found at www.recoffey.com. Here are two of my favorite portfolio pieces:

www.preshiftplanner.com – A server/bartender companion website currently being re-written for React.js.

www.appraiseless.com – A property tax protest website using React.js, MySQL, Node.js, and Express.

Technologies

HTML5/CSS3	Javascript - ES6/ES7	Node.js	Express	API/JSON
React.js	MySQL	jQuery	Python	C++

Education

Web Development Boot Camp at the University of Texas in Austin (October 2016-April 2017)

- Intensive 24-week course covering front-end and back-end web development technologies

A.S. Computer Science, Austin Community College (Spring 2015-Fall 2016) - [GPA: 3.2]

- Programming Fundamentals I/II/III, Computer Architecture, Calculus I/II, Several TX Core Classes

B.M.E. Instrumental Music Education, University of Southern Mississippi (Fall 2004-Spring 2009) - [GPA 3.7]

- Trumpet section leader of the marching band, Fall 2008 & Fall 2009; McNair scholar; Honors college

Employment

From January 2010 until December 2016, I worked as a server at various restaurants of ascending caliber: Olive Garden -> Outback Steakhouse -> Bonefish Grill -> Roy's Hawaiian Fusion -> Fleming's Prime Steakhouse. Since then, I've been devoting myself full-time to learning new technologies and making new connections in the world of web development. **I'm excited to leave waiting tables behind to begin my new career.**

About me

Having now practiced as a musician, a server, and a programmer, I consider myself well-rounded and am confident taking on a wide range of tasks beyond writing lean, efficient code. I consider these to be my greatest strengths: thinking creatively, communicating clearly, working collaboratively, learning quickly, and applying foresight liberally. **Please feel free to reach out to me on LinkedIn, Facebook, or Github (REvanCof).**
