Hey! I'm Margaux.

I teach and tutor French to all levels, from teenagers to seniors. I am a certified member of the National Tutoring Association.

Compared to other typical tutors, my teaching method will help you learn to use the language like a French born person. Because it is based on learning it the way kids do from Elementary school to College, this method takes a longer time to achieve but acquires you better results. It is not made to make you memorize traveling sentences and keywords but actually helps you develop the language and become comfortably proficient in it the same way French children do.

About me

I was born and raised in France. I grew up my whole life in the French Alps area, right at the border of Switzerland. I moved to the US when I was 21 years old, where I married my American ex-husband. He was the first person I tutored and he is now perfectly fluent in the French language. I have been giving private French tutoring lessons in freelance for about 4 to 5 years now, and I truly believe I can help you too learn and master this complex yet beautiful language!
