Curriculum Vitae

Despite being born in Belgium, for the majority of my life I have been living in Spain, you may say I have the best of both; the typical charm and work ethos of a Belgian with the confidence and enthusiasm that exudes from the Spanish. I am also fortunate to be fluent in English, Spanish, French and Flemish. I'm a person that always works hard and endeavours to do his best every time. I have begun to work with 16 years and at the moment I haven't got any unsatisfied customer, now I am 22 years old, have great interest on Technology. At this point I am studying Cyber Security and Forensics at Kingston University, my main goal is become a professional Penetration Tester and Data recovering (Forensics).

Academic training:

- Kingston University, Cyber Security, Computer Forensics with Business.
- 5 International General Certificate of Secondary Education (IGCSEs)
- 3 General Certificate of Education Advanced Level.

University:

My course title is Cybersecurity and Computer Forensics with business, my modules cover Forensics and Penetration Testing, other modules give induction in several programming languages as Java, PHP, HTML, etc.... In addition, the course covers the basics in business; accounting and business management.
