

The Hooton-Plan – Or How To Get Rid Of The White Race

In the years of 1940-1945 the Harvard anthropologist Earnest Hooton published plans to exterminate the Germans once and for all. He suggested to change the original population of Germany to suppress and dominate the country forever. In an article in the New Yorker "Peabody Magazine" (01.04.1943) he published his thoughts under the title: "Breed war strain out of Germans", in which he

suggested **ignoring the historical facts** - that the Germans are "war mongers". He said, that it is needed to **reduce the numbers of newborn German children while at the same time lots of immigrants have to flood the country**. This is exactly what is happening in Germany and in all white countries in general right now. To suppress resistance against these evil plans, Hooton suggested to do this change slowly. He published the same plan in the newspaper New York Times (10.10.1943) and on other occasions. This is a very effective **"genetic-biological weapon"** of mass migration which is used against all white people in all (former) white countries.

The goal of this strategy is to get rid of the intelligence of the white race to create an "easy to control" mixed race. These plans are pointing in the same direction as the thoughts of the "founding father" of the EU Graf Coudenhove-Kalergi. **Kalergi wanted a mixed Eurasian-Negoid race in Europe, led by a Jewish elite**. Natural and healthy resistance against these racist and evil plans are getting suppressed by terms like "Racism, Xenophobia, Antisemitism, Diversity" and so on. But **the real racists are the people who want to annihilate the white race and destroy it**. A less well known fact is, that all these plans are influenced and wanted by leading Jews. **The mixed race would have an IQ of approximately 90, which is good enough to work, but too stupid to understand, what really is going on**. Right now this the **HOOTON-PLAN** is active in all white countries. Get active and resist the white genocide, before it is too late!
