REPORTING CW HACKERS – 2017

Thank you for helping to assist the moderators in cleaning the game from hackers. You are a champion!

To ensure we do not ban people falsely we have some rules to follow in reporting hackers to us. We are aware that theres quite some demands but we also hope you understand that if we were to examine a report of you hacking we would make sure we do not ban people wrongfully. Our motto's : Zero tolerance for hacking & innocent until proven guilty.

HARD REQUIREMENTS :

- Screenshots are ONLY valid in case of **BUG ABUSE** or **CHATABUSE**.
- For **HACKING** and **FARMING** a video is mandatory.
- Your video needs to be on **YOUTUBE.** Facebook videos are not available to the developers!
- Your video needs to have **720p** MINIMUM quality. Lower quality causes to loose important detail.
- Phonerecordings are **NOT** considered valid proof.
- The video needs to be long enough and show several signs of hacking. 1 odd kill could always be luck!
- The video needs to show the suspects **USERID**. To prevent framing people by sending other ID's
- The description of the video needs to contain the suspects userID
- Screenshots of scores are not evidence!
- We will not ban anyone because you "know" he cheats. No video, No ban!

SECONDARY REQUIREMENTS :

- For your privacy and anonimity we prefer videos that are uploaded as "**UNLISTED**" and not shared.
- We prefer **SPECTATOR** videos showing what the suspect is looking at (by rotating your camera (rmb)
- If you cannot spectate, **TRAP** someone into making impossible shots from **DIFFERENT** locations!
- Tell us at what times in the video YOU see evidence of hacking (example at 3:15 player shoots through wall).

If you read and understand all this then you can email your reports to :

Sending a video will not guarantee a ban. Banning is ultimate punishment and we need to make sure all proof justifies the termination of an account! We look very closely and if the proof is not 100% we will not ban. This may be a dissapointment for you but do not let this stop you from sending more videos. Hackers will allways get what they deserve… sooner or later!

Here is a video, made by **Colonel Twerkins** that explains most of the things you need to know :
