Dear Recipient:

Thank you for this opportunity to communicate my eagerness to apply for this position. As a recent graduate with a Bachelor of Science in Environmental Resources Engineering, I am looking to become part of an engineering team where I can utilize the skills I have learned.

Throughout my time in college I was always the 'go to' graphics guy. I began my 3D modeling experience in high school learning Rhinoceros 3D. Ever since I have continued learning more about working with 3D modeling programs. When I was exposed to AutoCAD as an early engineering student I was already familiarized with many of the concepts and continued to develop my skills. I also have experience working in 2D environments creating graphics for documents and presentations. Some samples of my work can be found on my website.

I will be looking forward to hearing from you about this employment opportunity. I know that given the chance I can become a valuable member of your team. You can contact me through either telephone or email.

Sincerely,
