## Summary

My name is Marc, and currently I am currently 16 years old. Experienced in Xenforo, HTML, and CSS, my work is mostly around Xenforo. Xenforo is something that I am highly experienced with. Pretty much, for the past 5 years, you could say that Xenforo is something I am passionate for. My main hobbies are fishing, reading, and playing tennis. I will be pretty honest, I use bad grammar when I am with friends and family, but I know when to use both good and bad. My personality is being friendly and shy, but I will talk to people when its by myself. I might come off weird or funny, but when I get to know someone, I guarantee will develop a relationship with you on a deeper level.

## Education

**Rancho Cucamonga High School**  
*Diploma*

Rancho Cucamonga, California  
*Graduating*  
*May 2019*

As of 2015-2019, I am attending Rancho Cucamonga High School. I take rigorous courses to challenge me, and to stand out in college.

## Employment History

**MCSales**  
*Admin*

*June 2017 - August 2017*

I was an administrator who ran backend for the forum. Basically, my job was to control and manage the VPS that Xenforo was being hosted off of. I currently just check and make sure the status of the forum is up to par.

**Guardian Network**  
*Developer*

*May 2017 - Present*

I am in charge of the forums and manage addons, templates, and more. My main job is to design, permissions, and reports. This job is pretty easy for me.

## Hobbies & Interests

My favorite activity to do in summer is fishing out in the coast of California for some Bass or Flounders. Fishing is my favorite activity because I love bonding with my family, and it teaches you patience. The second passion is my love for xenforo related websites. Xenforo software is so clean and easy to use, and I would love to mess

with the software. Lastly, my third is, I love to read. Reading can help you through most of life. It teaches you reading skills and I am very fond of it.
