About me

Hello there, my name's Rodolfo Lucindo and I'm 17 years old. I'm a digital artist and a student in a multimedia course. I'm pretty much interested in what I get a chance to do. From traditional to digital and so forth. Here's a little of what I have done. Hope you enjoy what I have to show!

House of the Future

This comic has some context. I went to an electricity museum that had an exhibit called the house of the future and in it there was an original xbox. The only purpose for it in the house would be if the owner was a retro gamer!!!
