## Education

---

### Computer Engineering, B.S.

2015 - 2019

University of California, Riverside

Relevant Coursework: Data Structures and Algorithms, Intro to C++ Programming II, Machine Organization and Assembly Language Programming, Logic Design

## Volunteer Experience

---

### Citrus Hack Sponsorship

July 2017 - Present

[Citrus Hack](#)

- Citrus Hack is a 36 hour, 600 student hackathon at UC Riverside.
- I contact companies that would have beneficial sponsorship relations with Citrus Hack.

## Projects

---

### Personal Website

July 2017 - Present

[Source](#)

- Took a web developer course on Udemy to get started.
- Coded with HTML5 and CSS3.
- Hosted on Github Pages at <http://tumbucon.tech>.

### Remind Me, Bot!

May 2017

[Cutie Hack](#)

- Utilized the Twitter API and the Tweepy library to program an automated Twitter bot to send in-app reminders to users who mentioned @remindme\_bot in their tweets
- Learned Python and produced a working version of the bot in 12 hours
- Pitched in front of judges from Google and Meggitt

## Skills

---

- **Languages:** C++, HTML, CSS, Javascript, Python
- **Other:** Git, Unix/Linux, Bootstrap, jQuery, Tweepy
