Objective

I am pursuing an entry-level software development position for May 2018. I will apply my drive, intelligence, and technical skills, to solve challenging problems. I will also use my adaptability to learn new technologies as they become relevant in a rapidly changing industry.

Education

State State Tech University - B.S. Computer Science, May 2018

Coursework

- C/Software Tools
- Automata
- Numerical Methods
- Data Structures
- Software Engineering
- Web Services
- Network Security
- Assembly Language
- Operating Systems

Technical Skills

- Python
- Html/Html5
- C++
- C#
- JavaScript/AngularJS
- Java
- JUnit
- GitHub
- Android Studio
- Unity
- Data Analytics
- Database Management
- Eclipse
- Jenkins
- Microsoft Office

Work Experience

Teaching Assistant (Assembly Language) - State State Tech University, May 2017- August 2017

- I provided students with insight to improve the efficiency of their code.
- I performed code reviews to help students locate bugs in their software.
- I provided prompt feedback to technical questions related to the subject matter.

Warehouse Assistant - Electric Contract Company, City, State - May 2015 - August 2015

- I saved the company money by troubleshooting issues related to computer software and hardware.
- I applied my mathematical background to solve trigonometric functions related to electrical work.

Stock Associate - The Produce Stand, City, State - May 2013 - August 2014

- I used my teamwork and communication skills to improve the overall efficiency of the company.
- I was consistently ranked the top employee in terms of productivity.

Interests and Activities

- Current software development trends and best practices
- Independent game development using Unity and C#
- Figuring out how “things” work
- Competitive and casual gaming
- Tutoring peers
- Learning new software development tools
- Hacking/coding competitions
- Nutrition and Fitness Science
- Intense physical activity
- Moral Philosophy
- Political Science
- Effective altruism
