

# <NextGen> Black Desert Online

REPORT - 7 JUNE 2017

Since many people are putting lot of effort in guild progress I lost the ownership of the guild and I am proud to say OUR GUILD is doing GREAT. Help me to keep the guild nice drama free and active progressing, I been in several guild and we are really doing great, of course there is always space to improve.

## # Positive Feedback

- we are a no drama chilled guild fun and relaxed
- Lot of active talkative and nice people, some perv but cool ppl as well.
- we keep progressing with very good speed
- I got 60 !!! such a cool level Eliss got 57 P2Wiz & Yukiko 59

## # Negative Feedback

- Nothing major we can just improve organization
- I fancy more active officers with more initiatives at at least 1 meeting every 15 days
- Too many people stop playing without even say hello, it's not nice, would be cool to have few words to inform us when they stop playing it's a form of respect.

- 400+ milion guild funds >>> ALMOST 500 milions we raised salary but still positive income

- Average guild level is growing Several 57 few 58/59 and one cool 60 !!!
