## - Local Beef Order Information Brochure -

### Price Guide/Instructions

Select your order from the following cuts of beef:

All our beef is pasture/grain/hay fed - no hormones

- Our beef is **\$4.79/lb.** including tax. All beef comes cut, packaged, and frozen.
- Fill out the attached **Beef Cutting Order** form to place an order - *you choose how you want your meat cut.*
- Call **Tony** at **633-7971** to confirm order and arrange payment
- You will be contacted when your order is ready.
- All orders can be picked up at **Thunder Bay Meat Processing, 4754 Oliver Rd, Murillo, ON**
- **Minimum Order is 1/4 Cow**

### FREQUENTLY ASKED QUESTIONS

- **What is the smallest order size I can place?**

*Our order sizes are 1/4 cow, 1/2 cow (1 side of beef), or whole cow (2 sides of beef)*

- **What is the approximate weight of each order size?**

*1/2 cow is roughly 250-300 lbs hanging weight*

*1/4 cow is roughly 100-150 lbs hanging weight*

- **What is the difference between the "hanging weight" and the weight of the meat I will get for my freezer?**

*The greatest factor determining final weight is how the meat is cut. Because you are able to have your order custom cut to your specifications, it can vary. If you choose cuts with the bone in, and take stew meat, blade roasts, soup bones, and internal organs (liver, kidney, etc.), you will keep more of your order than someone who requests boneless cuts.*

- **How will my meat be cut?**

*You choose how you want your meat cut. You will fill out a **Beef Cutting Order** form to give your cutting instructions. You can determine the sizes you prefer for roasts, if you want bone-in or boneless, how thick you like your steaks or chops, and how many pounds per package for ground beef and stewing meat. All our meat is wrapped and labeled with the cut of meat on each package.*
