

Consumer Directed Healthcare (CDH) Preventive Medicine List

This list provides examples of commonly prescribed preventive medicines. It is not an all-inclusive list; only examples of medicines in each category are listed.

This list does not indicate coverage. Please check with your plan administrator and/or benefit information materials if you have questions on coverage. Your cost share will be determined by your plan's drug coverage and formulary plan.

Coverage prior to the deductible being met may not be provided for every dosage form of a listed medicine.

Please note: When feasible, brand names are shown in capitals in each category. If generic is available, it is listed in lowercase next to the brand name. If only generics are available (for example, brands are no longer available), they will only be listed in lowercase.
