

Welcome.

Thank you for visiting my website. My name is [Dr. Deborah Cooper](#) and I am a General Dentist practicing in the heart of **downtown** Calgary, Canada.

- I have over **21 years** of experience
- Dentistry is my passion and it's what I love to do.
- I treasure the **long-term relationships** I have with my patients
- I have developed a practice style that creates a relaxing environment
- You will always have quality time with me and will be **well informed**

Your mouth is the gateway to your overall health. Myself and my team will provide you with the best possible oral health care.

General Dentistry

Proper oral health makes all the difference!

Over 21 years, I've had the opportunity to meet with patients from all walks of life with multiple dental issues. Regardless of the situation, one thing remains the same.... enough time is booked to ensure that each patient has adequate time with the doctor to discuss their concerns. Every patient will understand:

- what is being treated
- the method of treatment
- the options available
- the total cost.

Like other fields, technology has had an enormous affect on the craft of dentistry. Technology today is geared towards:

- making procedures more efficient
- removing minimal tooth structure
- making dental work last longer
- minimizing any discomfort.

Cosmetic Dentistry

What is Cosmetic Dentistry?

Smile! It's the international language.

Cosmetic dentistry consists of any procedure that will enhance the smile overall. It can be as simple as whitening or changing an old filling on a front tooth. Or it can be more extensive with the placement of crowns, bridges, or veneers for teeth that are crooked, spaced, missing or discolored by dated dental work. It can also include treating a "gummy smile". Regardless of the procedure, the goal is to bring the smile back to an appearance that suits the individual. For further details about cosmetic dentistry, please visit: www.aacd.com.

Preparing Yourself for Cosmetic Dentistry

When considering cosmetic dentistry ask the dentist for:

1. A portfolio of his/her work. Each dentist has a personalized style as an artist does, revealing itself in photographs of patients already treated.
2. References from patients who have already been treated and if possible ask to meet with them. Many patients who have been through this transformation are so happy with their results they are happy to share their experiences.
3. The frequency of cosmetic dental procedures performed on a daily, weekly, monthly basis.
4. Adequate time to ensure that all your questions have been addressed. This is a procedure that cannot be rushed. It is imperative that you understand the process.
5. Information on the "**cosmetic try-in**". This is an appointment like a dress rehearsal. It is an opportunity for you to see what the new veneers or crowns will look like prior to them being cemented in. It's done for you to view the new smile and critique it. It is done after the teeth have been prepared and the temporary teeth have been worn for a few weeks. The laboratory will have 95% completed the final veneers or crowns. At this appointment the new veneers or crowns are placed over top of the teeth with some gel. As the new smile is viewed a list of changes are made and they are sent back to the laboratory for final adjustments. This may include color or shape. The purpose is to give you an opportunity to view the new teeth without feeling pressure to have them cemented immediately. Within a week, the final product is completed and the new teeth are cemented in.

About

I was raised in Calgary, Alberta. I completed my BSc at the University of Western Ontario and graduated in 1992 with my Doctor of Dental Surgery (DDS) degree as a general dentist from the University of Alberta. Now, with over 25 years of experience, dentistry is still my passion, it's what I love to do and it is a pleasure to serve my patients. Everyday I get to meet new people, cultivate relationships and enjoy conversations about restaurant experiences, vacation destinations and just the overall philosophy of life.

I am presently available at two locations:

Dental One
Suite 169, Bankers Hall
315 - 8th Avenue S.W.
Calgary, Alberta, Canada
T2P 4K1

Telephone: +1-403-590-7645

And

Cooper Dental
677 Cougar Ridge Dr. S.W.
Calgary, Alberta, Canada
T3H 5J2

Telephone: +1-403-685-5510

Website: CooperDental.ca

Photography

A picture is worth a thousand words! That phrase in dentistry is mutually beneficial to you as the dentist and the patient. Through photography the diagnostic eye improves and allows more thorough patient protocols.

If you would like to incorporate dental photography into your office, please feel free to [contact me](#).
