## APRIL MEETING

You probably have found some wonderful jewelry and coins over the years, but do you really know what your treasures are worth? If you want to find out, don't miss our April 12<sup>th</sup> meeting! **Tony Swicer** and **Ray Duclos**, owner of **Rechant's Precious Metals**, will join us again as our featured speakers. Rechant's has been in business in the same location for 30 years. They will tell us how to figure out what your silver and gold should sell for if selling for the metal content. And once again, they welcome members to bring coins, jewelry or other items that you may be wondering about for an onsite evaluation. Ray and Tony will bring a diamond tester, a gold tester and decades of professional experience.

Thank you in advance to **Donna Russo**, who volunteered to bring Refreshments for the April meeting. We'd like to also thank **Ernie Bouyoucas** for volunteering to stump us with a Mystery Item. Be sure to bring ALL the items you find for the Tall Tales Table. You might just win a silver half-dollar!

## RICHARD'S TIP

Never leave your metal detector in the back seat of your car, lock them in the trunk – things out in the open can cause a break in of your car!

\*\*\*\*\*

## MEMBER TIPS

**Stacey deLucia** – Always be aware of your surroundings and protect your belongings. Ladies, when in your car, do not leave your purse on the passenger side seat where a thief can easily smash your window and grab your purse. *Always* lock your car when gassing up. Also, when eating in a restaurant, do not leave your purse easily accessible on the table or chair, *especially* if you are sitting by the door. (Stacey said she learned the hard way. Feel free to ask about her experience as a purse snatching victim.)

**Bob Smirnow** – There is a new battery store in Lantana called “Batteries Plus,” located at 6250 Lantana Road, Suite 1; Tel No. 561-304-0707 (on Lantana Road West of Military, East of Jog, South side in large shopping center behind the Outback Steak House). This store carries all types of batteries, available singularly or in bulk of 24, etc. Good prices! Be sure to check out the Industrial Alkaline Batteries by NUON available in double AA's - they last longer. The store also refurbishes rechargeable battery packs for drills and has repacked Minelab Excal rechargeable battery packs. For any questions, see Bob at the next meeting.

**Ernie Bouyoucas** – Please fill your holes – Protect our hobby.

**Jan Smirnow** - Checkout the DVD/CD release, prepared for the GCTC by **Steve Hoskins**, club photographer. It is an Album of 2006 Photos put to music - \$10 – really fun to see yourself and your fellow club members - great way to remember the year that was! Cost of \$10. *Steve is only getting reimbursed the cost of supplies; the remainder goes to the club treasury.*

**Cheryl Petenbrink** – Available at Home Depot for \$14.99 is a digging tool. It is called 7-1 Planter's Buddy.

\*\*\*\*\*

## BASIC METAL DETECTING RULES

- 1) Always get permission to detect. (This does not mean your own.)
- 2) Always fill your holes and leave the area better than it was. Use a probe and if you can afford it, also use an electronic pinpointing probe. Practice your digging techniques before you ever detect on a nicely manicured lawn, whether private or public.
- 3) Research is 90% of the time that will be spent if you want to find old coins, valuables, caches, relics, etc.
- 4) Join a reputable club. **Like the GCTC!!!**

**Experience + research = success**

## TCAS 20TH ANNUAL BENEFIT HUNT

The Treasure Coast Archeological Society in Sebastian held its annual competition hunt on Saturday, March 10 at the Kiwanis-Hobart Park, Wabasso, Florida. GCTC members who attended the hunt were as follows: **Richard Zabriskie, Ken Lubinski, Irving Smith, Bob Dobski, Jerry and Betty Laur and Frank and Pauline Nash.**

Prizes were won by the following members:

**Bob Dobski** – Garrett Bag

**Pauline Nash** - First prize in the kid's competition. She won a Garrett Ace 150 Metal Detector.

Pauline also correctly guessed how many marbles were in a jar. Her guess was 586 and she got it right on the nose. She won a Morgan Silver Dollar!

The first hunt was for tokens. The winner found 175. GCTC member results were: Irving: 107; Bob: 71; Ken: 49; Richard: 43; Frank: 38; Pauline: 29; Jerry: 7.

The second hunt was for silver dimes, quarters, half dollars and prize tokens. Irving led our group with 41 dimes recovered. Irving also found a top ten grand prize token, but unfortunately it was not a winner.

During the silver hunt, Irving lost his car keys. If you were to lose anything, this was the time and the place. One of the participants found the keys while looking for silver.

### TRIVIA FROM ERNIE BOUYOUCAS

So you think Dr. Gerhard Fisher invented the first metal detector? Think again.

On July 2, 1881, President James Garfield was ready to board a train to New Jersey when he was shot twice by Charles Guiteau. Guiteau was irate over being denied an appointment as ambassador to France. Doctors found one bullet in the President's arm, but could not find the other one. Probing the wound with their fingers (not sterilized by the way), the doctors became frustrated when they couldn't find the second bullet.

The doctors enlisted the aid of Alexander Graham Bell. Bell quickly made a crude metal detector he called the Induction Balance. Bell announced to the doctors that the bullet lay deep in Garfield's body. Doctors cut deep into the wound but never found the bullet. What Bell had detected was the mattress spring in the bed.

Garfield's wound became severely infected and this, coupled with blood poisoning from the bullet contributed to a fatal heart attack on September 19<sup>th</sup>. During the autopsy, doctors located the bullet and determined that had the wound been left alone, Garfield would have recovered.

### LOOK WHAT IS HAPPENING IN OREGON- IT COULD HAPPEN IN FLORIDA!

**Senate Bill 64:** In summary... it would stop all Artifact Collecting, metal detecting and relic hunting in the Oregon State, not just on public land but on private land. It makes it illegal for even a landowner to pick up artifacts on his own property. Anything of cultural patrimony cannot be removed without a permit. To get the permit requires a Masters Degree in Archaeology or a related field. Even with the permit everything has to go either to the appropriate Indian tribe or to the State Anthropological Museum. There's much more.... But suffice to say it would be the death knell for collecting in Oregon and a bitter blow to private museums that rely on these folks to give them artifacts. It would also put an extremely heavy load on the State Historic Preservation Office which is already shorthanded. *Submitted by Mike Wallace on WWATS.Org*

## IN MEMORY OF TED RUDD – FOUNDER OF GOLD COAST TREASURE CLUB

**ROOSEVELT “TED” RUDD, Jr.**, 82, of Fanning Springs, Florida died in Naples, Florida on March 25, 2007. He was born in Deerfield Beach on February 2, 1925 and grew up in Palm Beach County. At age 18, he enlisted in the U.S. Navy and worked as a corpsman on the hospital ship, Repose, in the Philippines and China. He married his wife, Lela, in 1948. Ted was recalled to service during the Korean Conflict and served at the hospital in the Key West Naval Station. After the war, he worked in construction. He loved outdoor sports, founded the Gold Coast Treasure Club (metal detecting) and in retirement, loved flea markets and yard sales. Ted will be dearly missed by his loving family including his devoted wife of 59 years, Lela; son, Tim (Carol) Rudd of Naples; sister, Myrtle Lee Dennis; brother, Robert “Buddy” Rudd; grandsons, Timothy and Adam; and many nieces, nephews and cousins.

In lieu of flowers, memorials may be made to Hospice of Naples, 1095 Whippoorwill Lane, Naples, FL 34105.

In 1973, Ted Rudd founded the Gold Coast Treasure Club as an organization dedicated to the future of treasure hunting and metal detecting and the preservation of all historical artifacts, sites and relics. He held the office of President numerous times. By the time he moved to Levy County in the mid 1990's, his club had become a well established active and growing club with a membership of 55 families. With the solid foundation that Ted established, the club continues to grow every year.

The Gold Coast Treasure Club extends sympathy to Ted's wife Lela and his surviving family. Ted's name will always be honored as the founding father on the club website and in all newsletters. An annual memorial hunt and picnic will also be held to keep his memory alive for future members.
