

# Contact AVG Customer Support to Download AVG Antivirus

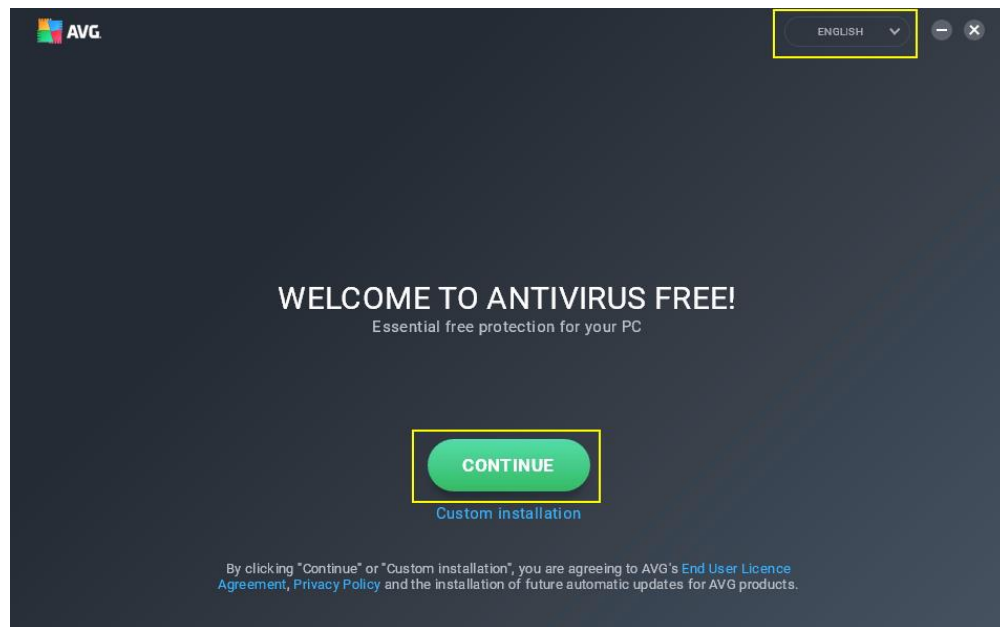

## We'll install it for you!

Our experts are **available 24/7** to remotely install & optimize your AVG software for you.

## Instructions

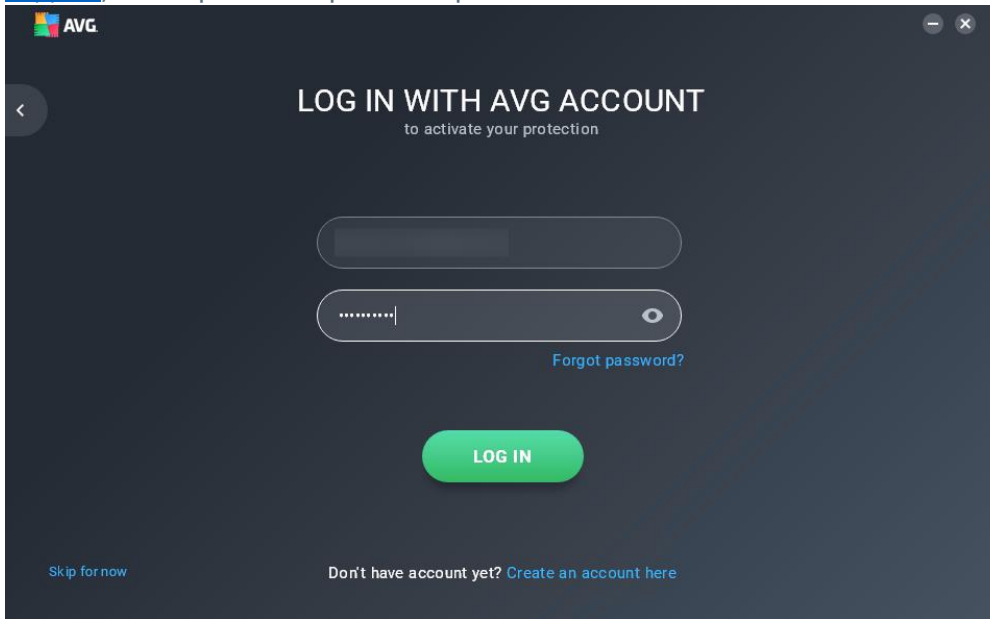

To download AVG AntiVirus Free, follow the instructions below:

1. Download the installation file from [AVG.com](https://www.avg.com).
2. Run the downloaded file to start the installation process.
3. On the welcome screen, select your installation language, and click Continue.

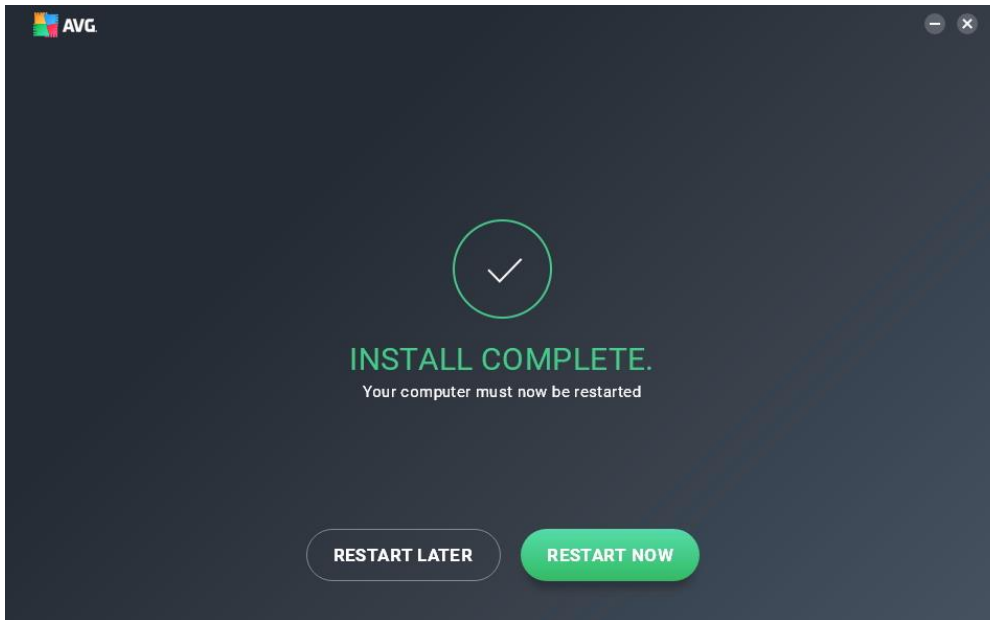

4. Enter your AVG MyAccount user name and password, and click Log in.  
Note: If you don't have an [AVG My Account](#) yet, you can either [Setup AVG Antivirus](#)

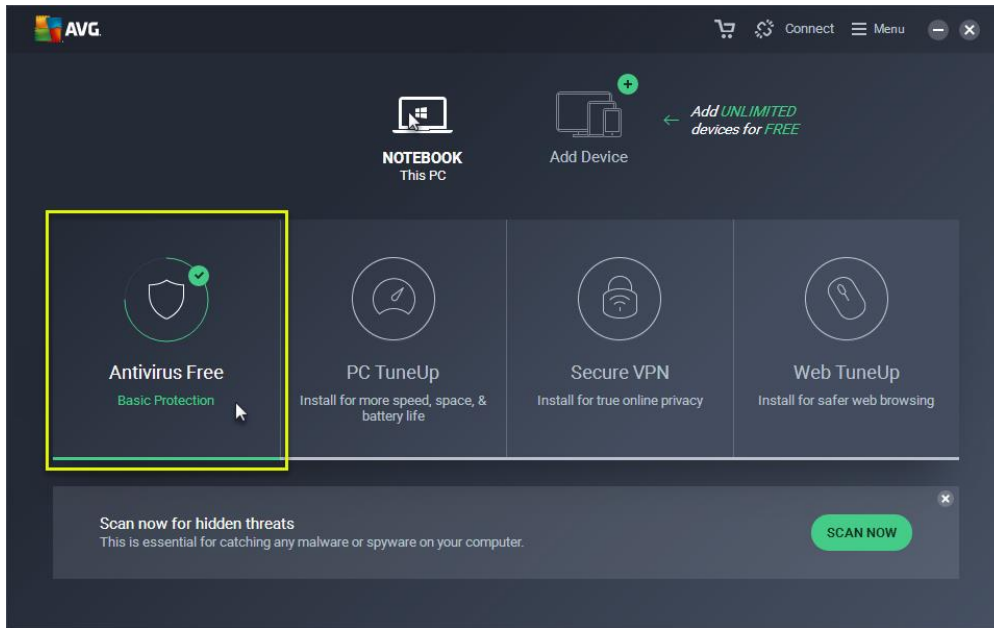

[Support](#), or skip this step at this point.

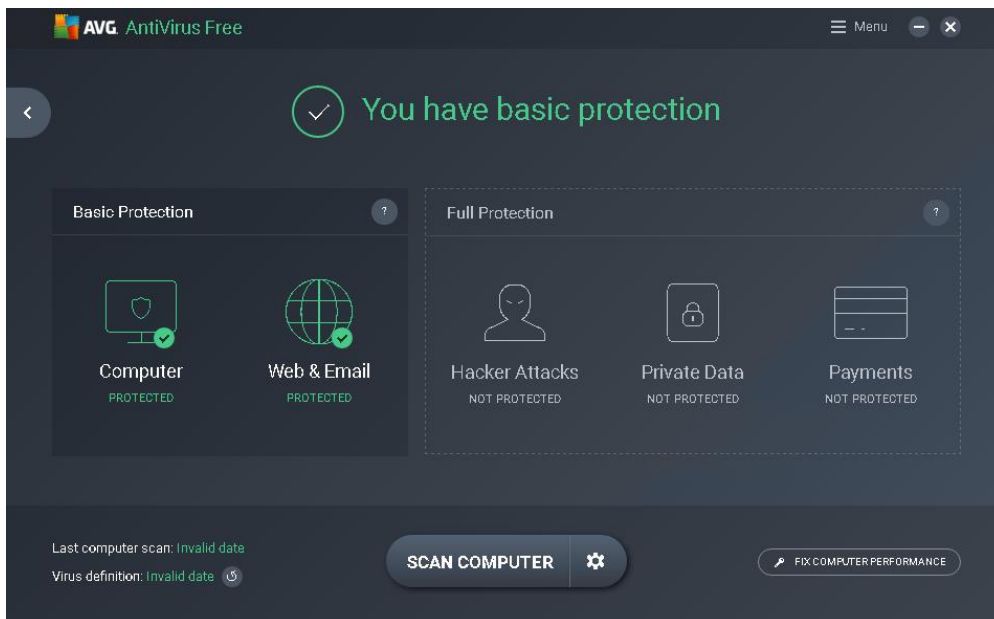

5. Wait until the installation is finished, and then restart your computer to finish the process.

6. After the restart, open your AVG program.

7. Click the Antivirus Free tile to open the dashboard.

*Tip: If you happen to experience any issues during Download, please refer to the article [AVG Antivirus Technical Support](#) or Call us Toll Free: +1-800-953-0960.*
