ABOUT ME

I'm IT related since childhood – family IT guy. Working now in IT field and learning on external studies on college. Mostly focused on CSS and webdesign technologies.

Besides work and school - lover of movies, music and art. Hobbyist's music producer.

WORK EXPERIENCE

- **IT specialist/Webdesign - 2016.06 - NOW**

For first 6 months I've worked on internship for 2 companies, which are related.

Infocity - IT specialist

I'm working here as **IT specialist** mainly. Here I'm working on a lot of things in broadly defined IT: company's own mail/iis/ftp servers, .NET based apps and simple sites for customers.

Witkac.pl – Webdesign

This company is focused on web apps based on .NET and jQuery/Angular. I worked as frontend webdesigner, UI/UX designer of **Wprojektach.pl** or **Wplacam.pl**. Here I've learned the most important part of my knowledge with CSS/JS, usable apps with responsive design.

- **Webdesign - Grandtourglobe - 2014.10-2014.11**

One month of internship in foreign country - **Berlin, Germany**. I was working there as administrator of website based on Wordpress CMS engine. Made there some UI changes in CSS and added some features. The biggest challenge back then I remember was a **responsive webdesign**.

- **Network administrator - SystemyDK - 2014.07-2014.08**

Another one month of internship, placed in **Poland, Słupsk** - my hometown. I was working there as network administrator. I've learned there about how servers based on **Windows Server** system works and how to administrate them.

EDUCATION

- **Politechnika Koszalińska (IT as major) - 2016.10 - NOW**

University of technology on IT course as external/half-time studies. I'm working now in one's field and learning on weekends.

- **Technical High School (IT as major) - 2012.09 - 2016.06**

Ended with **IT Technician degree** and secondary school-leaving exam passed.

OTHER SKILLS

- **Languages** Polish native, English B2-C1 grade, Deutsch communicative
- **Creativity, attention to detail, fairness, ambitiousness**

I hereby agree for processing my personal data, included in my job offer, for the purpose of recruitment (as defined in the Act of August 29, 1997 on the Protection of Personal Data (Journal of Laws No. 133, item 883).
