Leather accessories as extensions of the body. As if they could communicate with you, morph over time to fit your pocket, your shoulder or your back in a light and natural way. Now imagine all the freckles and wrinkles you might have. Much like humans, animal skin also has these imperfections. We join these two things together to create imperfectly unique leather accessories, just the way we all are.

Each of Oboyi item is crafted with meticulous care by our artisan-designers. In our laboratory in Milan we strive to deliver the highest quality of production. We give a special care to choosing our product material, which we guarantee to be finest, hand-picked Italian leather.

# MONO WALLET ESSENCE

Each Oboyi's Mono wallet is made in a single piece of leather. We use only certified Italian high quality calfskin leather with a minimum impact on health and environment.

Hand-cut and hand-stitched by our artisan-designers, Mono wallets are folded uniquely to create different compartments for banknotes, coins, cards and documents. Highly resistant metal rivets are also manually applied to allow the form to adapt in time and fit to each one of us.

Created to be flexible, the mono-wallet will last for years, as it is without zippers and buckles but just a high quality elastic strap to keep it together.
